Each Township Convention will also choose an Executive Committee of five Democrats for each township to serve for the next two years.

By order of the Democratic Executive Committee of Orange county:
S. M. GATTIS,
Chairman.

Hillsboro, N. C., Mar. 25, 1892.

The following-named Counties compose the Fifth Congressional District: Granville, Person, Durham, Orange, Alamance, Caswell, Rockingham, Guilford and Stokes.

The State Commissioner of Agriculture says that the return of agricultural statistics, as made last year by the tax listers, are so incomplete and carelessly prepared in many cases that he fears they will not be valuable. This is unfortunate, and is said to be all owing to carelessness. This year the tax listers will be forced to do their duty in this matter.

"Clothes Makes the Man," says the proverb, and a new spring dress is a necessity to every woman. The April Peterson gives specimens of all the newest and most becoming styles. The two double fashion plates show every variety of American and Parisian costumes and bonnets. Then there are excellent designs and descriptions of all sorts of garments for ladies and children, besides pages of notes and suggestions for housekeepers as novel as they are useful. "A Strange Country," by Sidney Ross, is the first account any American magazine has given of that unique district in France termed The Landes, and the illustrations of the inhabitants perched on their lofty stilts are the quaintest things imaginable. "The Story of Gilbert Neal," by M. G. McClelland, promises to be one of her best, and the number opens with a portrait and biographical sketch of the popular authoress. "Old Time Thimbles," by Harriet Latham, is very entertaining and gives besides much interesting information. The short stories and poems are capital and the miscellaneous articles are exceptionally good. Terms, \$2.00 a year. A sample copy will be sent for 5 cents. Peterson's Magazine, 305 Chestnut street, Philadelphia.

[State Chronicle]

Those Democrats in North Carolina, if there be any, who are engaged in a conflict between their consciences and the Third Party, hardly need to be reminded that the development of any substantial strength by the so-called "Peoples Party" will of necessity restore the Republican party to power in our State, county and municipal governments. It is well for those who are coquetting with the idea of a new party, and yet hesitating because of their sense of duty, to look the facts squarely in the face.

[New Orleans States, Dem.]

The Republicans would be a very unhappy lot of people were Senator Hill to be nominated and elected by the Democrats to the Presidency for the simple reason that he is not only a hard worker but a wonderful organizer. They fully appreciate the fact that if Senator Hill is elected President, the rascals will be turned out in a hurry—so fast in fact that a slide or chute will have to be provided in order to facilitate the dumping, especially at Washington.

Never was there a time in North Carolina when it was more important for her patriotic people to stand together than it is at present.

SAN JOSE, CAL.

November 25, 1891.

Watson & Co., San Francisco.—
DEAR SIRS: With the use of the Electropoise my wife has very successfully treated a case of scarlet fever in our family. Our ten-year-old daughter, since the date of my last letter, has daily improved.

The rash with which her body was covered has entirely disappeared. Now the excruciating itching on the tips of her fingers. The whites of her eyes, which at first were quite blood shot, are now clear. Yesterday she was taken out for a two-hour's ride. The disease commenced with sore throat; we thought nothing more until the rash appeared.

The pouice was applied to the throat for half an hour and then to the wrist for an hour. As near as my wife can call to mind, two treatments were made the first day and one the second day. The pouice worked like a charm, quickly arresting the inflammation in the throat and checking the fever.

Subsequent treatment was from twenty minutes to half an hour on the wrist and an hour on the ankle.

No physician was called and no medicine of any kind given.

We have had the large instrument hanging in our sitting room for a year past; have allowed our neighbors to use it, and must say that in no case has its use failed to produce very beneficial results.

Yours truly,

E. P. REED,
269 Market Street.

Obituary.

Died at his home in Orange County, N. C., on January 3d, 1892, Col. W. H. Jordan, in the 74th year of his age. He had been complaining for a week or so before his death, but was not confined to his bed, so that neither himself nor family felt alarmed at his condition, hence his death was quite unexpected. At the time of his decease he was not a member of the church, but for several months previous had often expressed himself as not being afraid to die. The writer knew him well, and always found him ready to lay his hands on God's Altar for the furtherance of his Kingdom. His home was opened to the ministers of the Lord Jesus Christ, and they always found a hearty welcome under its hospitable roof. To shake his hand was a guarantee that you were welcome, for in his very grasp he made you feel so. He was always a friend to the poor, never turning the needy away empty. He provided well for his family, was a kind husband and indulgent father. Honest in his dealings with his fellow man, doing to them, as he would have them do unto him.

His funeral was preached at Cedar Grove, January 4th, 1892, from Acts 1:36, by Rev. J. M. Lowder, to a large congregation; after which his mortal remains were laid to rest in Cedar Grove cemetery, to await the resurrection morn.

He leaves a wife, two daughters, three sons, and a large circle of relatives and friends to mourn their loss, but we trust that our loss is his eternal gain. May the God of all grace sustain the bereaved in these hours of affliction, and thus draw them nearer to himself.

W. H. Wilder, Mayor of Albany, Ga., says he has suffered with Rheumatism for fifteen years, and in that time he tried all the so-called specifics, but to no purpose. His grandson, who was on the B. & W. Railroad, finally got him a bottle of P. P. P. The first bottle of P. P. P. showed its remarkable effects, and after using a short time the rheumatism disappeared, and he writes he feels like a new man, and takes pleasure in recommending it to Rheumatic sufferers.

Rebels places were once thought to be of worth; They were partners to the sky and earth,

And many lost that they might gain. To this day, is

Peace and good will to all men, friend and foe.

If we love not them whom we have seen,

How can we love God whom we have not seen?

So let all the old rebels try to say To me to watch and pray,

To strive to be sincere;

To take up my cross day by day, And serve the Lord with fear.

NORTH CAROLINA NEWS.

In 1859 C. M. Herndon's ice factory at Durham was burned. He has at last won his suit for \$10,850, the Supreme Court deciding in his favor.

Roxboro Courier: The Presbyterians in Roxboro will make application to the coming meeting of Orange Presbytery for the organization of a church in Roxboro.

The Bank of Oxford closed its doors March 21st. All depositors and stockholders will be paid in full. The suspension was caused by the desire of Dr. Herndon, the President and principal stockholder to retire from business. It is thought that a National Bank will soon replace the one just closed.

Raleigh Signal: The Burlington Hawkeye of this week is brimful of attacks on Judge Spier Whitaker because he was too merciful in his punishments at Alamance court last week. No officer has ever yet suffered on account of being merciful, and it is not likely that the Hawkeye or any other visionary orb can hurt Judge Whitaker for acts of the kind. Better find some other pretext for the next assault.

Greensboro Record: To-day new books of the Keeley Institute at this place, were opened in the name of the Durham syndicate, with Mr. Neil Edwards, of Durham, as book keeper. There are now in the institute thirty eight under treatment—the largest number ever enrolled. Judge Eller, the manager, says every room is full, and he is out to day hunting rooms for fifty more applicants, who are expected next month.

It has just leaked out that three young Granville county farmers were enticed by a "green goods" letter to go to New York to invest three hundred dollars in counterfeit money. It was their intention, of course, to circulate \$3,000 of bad paper among their neighbors and in the towns in the neighborhood. But the usual thing happened. When they were safely in their own rooms and with doors locked they undid the packages, and the Oxford Day says, found instead of greenbacks three bricks.

Durham Globe: Durham boasts and has a right to boast, of her factories and railroad facilities. The amounts paid out weekly by the Durham Bull and the Duke branch of the American Tobacco company are a God send to Durham merchants. However much it may affect the producers, the fact still remains uncontrovertible, that these concerns give more employment, and at better wages, to the poor white girls of North Carolina than all the balance of the philanthropic men in this State.
