FLOOD DESTROYS

BLACK RIVER FALLS, WIS., IS WIPED OFF THE MAP BY RAGING TORRENT.

CASUALTY LIST WAS HEAVY

Disaster Caused by Sudden Rise of Black River Behind Dams of LaCross Power Co.

LaCrosse, Wis.-The situation at Black River Falls, the precipitous little city of 2.000 population, swept by a flood when waters of Black river, swollen by recent rains, washed through the embankment of the La-Crosse Water Power company's dams at Hatfield, is worse by far than was possible to ascertain the loss of life. It is believed the casualty list will

Falls, a great tract of surrounding country was overrun. Effort was made to send warnings to farmers, but telephone wires soon went down, and the fate of many settlers who knew nothing of the flood until it struck their immediate localities is the cause of some apprehension.

Below Black River Falls are a number of villages, and the high waters are due to strike them during the night. Forces of men have been sent out to strengthen the bridges in

the three counties along the river. Cut off by telegraph, the news from Black River Falls is being sent to LaCross by the Wisconsin Telephone company, which has stationed a man on top of a telephone pole. He is sending his report as well as the flooded lines permit.

Merger of Alabama Interests. Temporary Papers Issued Restraining Strikers From Interfering With G. & F. Ry's Affairs.

Augusta, Ga.-Following the granting of a restraining order by Judge Sheppard at Valdosta in the Georgia and Florida railroad case, conferences were held at Douglas between citizens, officials of the road and representatives of the strikers. What the form of arbitration will be is not now known here, except that the president of the road has wired General Manager Turner to agree to arbitration under the Erdman act.

Information though unofficial, is to the effect that progress has been made toward a satisfactory settlement of the strike. There is a shortage of food supplies

all along the line, which is increasing daily, and the business men are taking an active interest in efforts toward a settlement through neces-

Augusta, Ga.-Offers to arbitrate the Georgia and Florida railway strike have been made and the railroad is willing, but the strikers are not. A telegram from Vice President Teat, of the firemen, stated that the srikers would not arbitrate.

President Bemiss of the Georgia and Florida stated that he had given pernow at Douglas, to arbitrate the differences under the provisions of the Erdman act if the strikers would agree. There has been no disturbance here.

The strikers are ordered to show cause before the court why the temporary restraining order should not be made permanent.

In the application for the injunction it is alleged that the operation of the road has been seriously hampered by disturbances, intimidation of workmen and destruction of property by the strikers.

MOBS STOP TRAIN

FIRST RIOTING IN STRIKE OF FIREMEN ON GEORGIA AND FLORIDA RAILWAY.

MAIL TRAIN IS HELD UP

Efforts to Move Trains Out of Augusta Result in Injuries to Four Men.

Augusta, Ga.-The operation of trains on the Georgia and Florida railway met with the first material resistance from the striking firemen and sympathizers in this vicinity when two freight trains were stopped by mobs and the train crews overpowered. Four employees of the company sustaining a fractured skull.

Sylvester Moriarity, guard, from New York, was struck on the head with a coupling pin and his skull fractured. William King of New York was badly cut about the head and face and shot through the arm. William Bay, fireman from New York, was badly cut about the head and

All the injured men are strikebreakers, and are now in the city

A train leaving with supplies for way stations between Augusta and Douglas was stopped just outside the city limits, on the belt line, and was abandoned by the crew. The other was a train of freight cars being transferred from the Augusta yards to the Hamburg yard of the Southern road, and was held up near Schultz' Hill on the Carolina side of the river.

Sympathizers of the striking firemen literally swarmed over and took possession of both trains.

On the way to Hamburg the guards armed themselves as best they could with engine tools, but were overpowered and forced to run.

Application was filed by the Georgia and Florida Railroad company before Judge Don A. Pardee in Atlanta in the United States circuit court, asking for a restraining order to prevent the striking firemen or their sympathizers from interfering with the roads' property.

Vidalia, Ga.-Though protected by armed guards, a white fireman was taken from the engine of the first passenger train tha thas reached Vidalia over the Georgia and Florida in five days, his guards were disarmed and the train, though it carries mail, as still here.

A hundred strike sympathizers met the train at the depot and locked the fireman in the baggage coach with his guards.

TO ADOPT ENGLISH-AND BEAT CREW NAVY YARD SYSTEM

SECRETARY MEYER ADOPTS PLAN IN USE BY VICKERS AS THE ONE BEST SUITED.

WILL BE GRADUALLY FELT

The New System Will Provide For the Centralization of Work-Says There Will Not be Any Change in Organization of Yards.

Washington-Casting aside all scientific systems of navy yard management advocated in this country, because he believes-they involved too much detail and required serious changes in the civil rules of employment. Secretary of the Navy Meyer will import from England the system of management in use by Vickers, Limited at the Barrow-in-Furness ship engine and ordinance works. This in substance, was officially announced at the Navy Department. The secretary studied this system during his recent inspection of European naval works.

The Norfolk navy yard will be the first to feel the change, which will be felt in the other yards gradually. Naval Constructor Evans, who has been sent to Norfolk to carry out instructions for improvements in the issue and care of tools, the handling of material estimating on work, repair methods, and bringing about uniform methods in all the shops, will inaugurate parts of the system, it is

In effect, the new system will provide for the centralization of work, and allows the commandant of a yard to know just what is being done on a particular job without having to seek the information from others having the work under their charge.

Secretary Meyer states that with the inauguration of the new system he has not in contemplation any changes in organization in the yards.

That the system may be thoroughly instituted Captains A. B. Willetts and E. Theiss, United States navy, have been sent to England to study the details of the Vickers system. These officers will be gone about a month and following their return, it is believed the work of establishing the new system will be begun in earnest.

Government Urges Vaccination. Washington.-The prevalence of typhoid fever in practically ever section of the United States has inspired the public health and marine hospital service to press publicly its belief in the artificial immunity, with certain limitations, afforded by anti-typhoid vaccination, already compulsory in the American army for soldiers under 45 years of age. In a report just issued the public health service reproduces the summary of the findings of a commission of the Academy of Medicine of Paris which investigated the subject. "Anti-typhoid vaccination," the French commission declares, "does not accomplish the complete disappearance of this infectious disease in the communities where it is practiced, but it diminishes very notably its frequence.

A Georgia Train Wrecked. Buchanan, Ga.-One man was killed. two fatally injured and about a score more badly shaken up when the Central of Georgia passenger train was wrecked 3 miles south of here. The wreck was caused by a spike being driven between the rails presumably by wreckers. The dead: Engineer Samuel Ayers, Cedartown, Ga, Fatally injured: - Littleton, conducted. Will Solomon, fireman. Engineer Ayers stuck to his post and was buried under the locomotive with his fireman. The latter was extricated barely alive, but Avers was crushed and scalded to death.

Target Rifle Claims a Victim. Gloversville, N. Y.-Hit by a bullet from a target rifle in the hands of his playmate, Ralph Spencer, 15 years old, drew his petition for a pardon and rephysician who pressed his way Sherman law applies to a railway superabundance of crime depicted by died at his home in North Breadalbin, near here, and James Knight, his playmate, also 15, is under arrest.
