

The Southern Mail.
 ISSUED EVERY MONDAY, AT HILLSBORO, N. C.
 By T. B. RYAN.
 Subscription Per Year \$1.50
 Six Months .80
 ADVERTISING RATES.
 \$1 per square, first insertion, 50 cents for each subsequent insertion.
 Liberal reductions on cash orders for advertisements running three months or longer.
 Correspondence solicited from all parts of the State.
 The reading notes in Local Column 12 cents per line each insertion.
 Transient advertisements payable in advance; yearly advertisements quarterly in advance.
 All advertisements of an objectionable character rejected.
 MONDAY, JANUARY 5th 1880.

Advertisers Please Notice.
 That owing to the large edition of THE MAIL, printed weekly, and extensively circulated in Orange, Chatham, Caswell, Perkin, Alamance, Granville and other counties—as well as North and South, its columns afford an unequalled medium for placing the merits of your business before the public.
 To those who are not advertising with us, we only ask that they give our columns a trial, feeling that at our low rates we can most assuredly make the investment a remunerative one for you.

SALUTATORY.
 "It is better that every kind of work, honestly undertaken and discharged, should speak for itself than be spoken for."
 [CHARLES DICKENS.]

OUR IMMIGRATION COLUMN.
 We will shortly publish a batch of notes relating to the farms, crops, stock, manufacturing facilities, mineral and other resources of Central North Carolina. Our readers in the section named can greatly assist us in this work, by sending us items concerning the above interests, the starting of new enterprises, or the progress and development of old ones.

HORATIO SEYMOUR.
 "THE HONEST MAN, THE CHRISTIAN CITIZEN, THE PATRIOTIC MAGISTRATE, AND THE ENLIGHTENED STATESMAN."
 is emphatically the man for the occasion.

For the past ten years the people of New York State have firmly believed that Horatio Seymour had forever retired from public life.
 During that time, the people of the "Empire State" without regard to creed, lofty character, and have let no opportunity pass by without giving full and free expression of the affectionate regard in which he is held.

Leading Republican journals have been foremost in bearing testimony to his noble qualities of mind and heart, and have freely joined in styling him "Our Country's most useful citizen."
 His name and fame is known in every State. He is popular at home and abroad. He is respected by the leaders and loved by the masses.

In 1868 he carried New York State against Grant, when the feelings engendered by the war were at a far higher pitch than at present.

If next year, he accepts the nomination, which we feel sure will be tendered him by acclamation, he will not only carry New York against the "man on horse-back," or any other man the Republicans may place in the field, but he will hold the doubtful States as well, and have the "Solid South" at his back.

With Horatio Seymour for standard bearer, the democracy will achieve a splendid victory, and what is far better, it will deserve success.

RADICAL LIES EXPOSED.
 The Radical press at the North are so happy as when misrepresenting the Southern people, and pursuing them with feelings of relentless hatred. Their favorite lie, of which they never tire "to ring the changes," is to represent the colored people held down under the iron heel of oppression. The testimony of thousands of Northern men, Republicans and Democrats, can be furnished to prove the falsity of their statements, but for the present we content ourselves by quoting the following from the Journal of Industry—a paper conducted by colored men, and the recognized organ of the race in this State:
 "The deep interest taken by the white people of North Carolina in the success of the late Industrial Fair, is such as should challenge the highest admiration of all. They have demonstrated to the world that there is no natural antagonism existing between the two races in this State, and that the colored people have no better friends than are to be found among the better class of the white people. We were never so proud as when we saw the white people of North Carolina, regardless of party, coming forward with warm hearts and generous hands to the assistance of their colored fellow citizens in their struggle for a higher and a nobler manhood. It furnished an additional confirmation of what we have always said of them both in our private and public utterances, and through the public prints, to wit: that the better people dwell on the face of the globe than the people of North Carolina."

The new Washburn A flouring mill, now building at Minneapolis, Minn., will be the biggest thing of the kind in the country, having a milling capacity of 2,500 or 3,000 barrels of flour daily, and a storage for 100,000 bushels of wheat.

Maine Matters More Muddled.
 Boston, January 1.—A special from Augusta to the Herald says: It appears that not a single member of the Executive Council agreed with the Governor in his determination to ask the questions growing out of the recent election. Mr. Pillsbury, too, was strongly opposed to the plan, but the Governor, backed by M. Gould, decided to submit the questions as a concession to public sentiment. It is safe to say, however, that the Governor agreed with the Council that the action of the court will have no effect on the result. The count is completed and the certificate issued. The questions are so framed that it is expected answers favorable to the fusionists will be given, and if, by any chance, there should be any contrary result, nothing can be done about it probably. Mr. Merrill will concur in this opinion. One of the fusion Senators elect, Isaac C. Hobbs, a Lincoln county Greenbacker of Republican antecedents, has grieved his friends here by declaring that the sole business of the Legislature after organizing ought to be the adjustment of the question of the disputed seats, and that nothing else should be done, until that is finished. Hobbs is one of the counted in himself. The fusion managers insist that the election of Governor and State officers must come first. The election case will be deferred as usual, since to settle these contested seats and complete the fraud and bribery investigation contemplated would be to have everything at loose ends and the State without a Governor for weeks if not months.

Gen. J. P. Gordon strikes the nail squarely on the head when he says: "The best way to put an end to the sectional strife is to put a stop to sectional discussion."
 The only hope of Radical success is in ending alive sectional issues. Last winter the Republicans baited their hook with this policy and succeeded in hooking some of the Radical fish. They carried these fish by the gills through the last campaign, and the result was a "solid North" from Maine to California. They will try to work the same game during the present session of Congress, but it seems incredible that any Democratic "leader" will be foolish enough to repeat the blunders of last winter.

Religious News and Notes.
 The Anglican church costs England \$58,000,000 a year.
 One-fourth of all the Presbyterians in the United States are in New York State.
 The Sisters of Charity in the United States numbered recently 1,179, in charge of 108 establishments.
 Four churches in Boston—the Old South, Central, Mount Vernon and Park Street give one-fifth of all that is given in donations to the American Board of Foreign Missions. They are equally liberal to Home Missions.

The Presbyterian Theological Seminary of Charleston, S. C., which was completely bankrupted by the failure of a banking firm which had \$500,000 of its funds, will recover all its money by agreement of the creditors that these funds shall come first out of the assets of the firm.

The Catholics are sending missionaries promptly into Afghanistan, three having left the Roman Catholic college near London, for the "arduous and untried field of apostolic labor."
 The Philadelphia Lutheran Almanac for 1880 reports for the Lutheran Church in letters, 5,388 churches and 693,426 communicants.

The Business Boom.
 Corn is cheaper in Iowa this fall than in any other place on the globe, selling at eighteen and twenty cents at the depot, and ten and fifteen cents at places distant from the railroad. It is reported to be very ripe, around and even, and there will be 150,000,000 bushels of corn, and one-sixth of which can be shipped out of the State.
 A Boston firm is shipping hammers made at Buffalo to the Sandwich Islands and New Zealand.

The grain trade of Baltimore is increasing largely that a new elevator, of 2,500 bushels capacity, is being constructed. The biggest area of oil lands ever discovered in Pennsylvania, at once was the recent sale of the 7,000 acres comprised in the Mealy tract near Bradford, to three companies for \$1,000,000.

Happy Thoughts.
 Don't play with the devil when you are young, lest you have to work for him when you are old.
 He who uses religion as a cloak for evil deeds is like the man who passes counterfeit money; he is sure to be found out at last.
 Every word uttered in this life is echoed in the life to come. In the resurrection we shall meet these echoes, and they will decide our fate forever.
 It is not so much the quantity that tells us the quality. The devil has as much brains as an archangel, but he doesn't look at things in the same way, and that's why he is where he is.
 There is a large amount of true philosophy in the reply of the man who said that he had overcome a great many temptations by just keeping out of the way. It is all very well to assert, that you are strong enough to resist anything and then put yourself in the way of everything; but the better plan to pursue is that of the hero who declared that he saved himself from a horrible death by hydrophobia by climbing a tree when a dog went by.
