

Beautiful Spring weather. Trees are budding early. Peach trees are in bloom. Rain, Thunder and Lightning, last Tuesday night.

The Soiree of the F. F. B. Club has been postponed until Friday, March 21st. The match game will be played to-morrow, Friday.

Take Weyher's Chill Pills. Shad 40 to 50 cents per pair. Many of our old citizens remember the time when ten cents was the highest price paid for a white shad.

Messrs. Nicol and Harvey and other guano agents have just built a large guano warehouse on the river bank near the steamboat landing.

Patronage in Draying is respectfully solicited by G. L. KILPATRICK.

The will of Mrs. Chelly Warters who died near LaGrange a few weeks ago, was admitted to Probate on Wednesday. Mrs. Warters was in her 80th year.

We received a communication for publication from Sandy Foundation, but no name was signed, and according to the old established rule we cannot publish.

H. C. Parrott has for rent three one-horse farms, separately or together, with good buildings.

We regret to report the death of Joshua Hardison whose arms were so horribly mangled in Harpers saw mill as stated in the JOURNAL last week.

Mr. J. B. Stanley of Contentnea Neck township says that the guano men held up their prices so long that the farmers in his section have concluded to let it alone entirely. An old colored man on his farm says the shovel is the best fertilizer he ever saw.

Mr. D. D. Haskitt reports that he saw 640 feet of plank out of a poplar log ten feet long, at his mill in Woodington township last week. We notice this mill is furnishing the A. & N. C. R. R. with a lot of excellent lightwood sills for bridge repairing.

Take WEYHER'S Cough Syrup.

The Senior member of the firm of Ettinger Bros. is now on a trip to the Northern cities for their Spring stock of goods. This firm has the largest dry goods trade of any in town and believe in the free use of printers ink, (see new advertisement). They are getting up, as is their custom every year, a comic advertising circular for free distribution among their customers.

The drummers say that Ben. Nunn keeps the best hotel in the State—that the fare is better than at the Yarbore and the order kept is admirable—we shouldn't wonder if the credit had not ought to be given Ben's "better half."

The Quarterly Conference of the Methodist church is invited to convene here in June next. It is said that before the vote was taken to extend the invitation Clay Parrott was very particular about finding out if time would be given for spring chickens to get grown before the meeting, and when assured on that point, the motion passed unanimously.

Landreth's Garden Seeds at HENRY DUNN'S.

Dempsey Wood, Jr., from "Bucklesberry," reports the cholera playing havoc with his hogs. Out of seventy five he only has thirteen left within the last few weeks. He says that one of his neighbors hogs has been with his, ever since the cholera appeared, and that he eats every one as fast as they die, and instead of catching the disease, has fattened on the diet.

We call attention to the new advertisements in this issue. Mrs. Miller has just received a new lot of millinery goods, selected with her usual good taste which she is selling on very reasonable terms.

Joe Lissiter wants to buy a large drove of young steers to carry to the Virginia grass regions for fattening. Messrs. Gates, Foy & Co., of New Berne, insert their card, and we give below the analyses of the Fertilizers sold by them and by some of our Kinston merchants as made out by the Commissioner of Agriculture of Georgia:

Zell's Ammoniated Bone Superphosphate sold by Messrs. Gates, Foy & Co. Phosphoric Acid 13.00, Ammonia 2.25, Potash 2.10. Commercial value per ton \$43.02.

"B. D." Sea Fowl Guano sold by L. Harvey. Phosphoric Acid 10.45, Ammonia 3.86. Commercial value per ton \$40.02.

Bradley's Patent Superphosphate of Lime sold by L. Harvey. Phosphoric Acid 12.00, Ammonia 3.33. Commercial value per ton \$42.06.

Cheapeake Guano sold by J. G. Cox. Phosphoric Acid 13.00, Ammonia 2.65, Potash 1.92. Commercial value per ton \$47.36.

The following list of names were sent up to Raleigh by the Executive Committee of Lenoir for appointment as Magistrates and as we have heard nothing to the contrary, we suppose they were duly appointed: Sand Hill, S. T. Crossland; Woodington, Jesse Jackson, Jr.; Trent, A. W. Whitfield; Pink Hill, Geo. Turner; Kinston, S. H. Bountree; Falling Creek, J. W. Daly; Lenoir Institute, M. B. Creech; Vance, J. M. Mewborn; Contentnea Neck, H. H. Moore.

The South Atlantic, edited by Mrs. Cicero W. Harris of Wilmington, N. C., presents the following bill of fare for February 1879: "Cornelius Harnett, J. H. Wheeler; The Evil Eye, G. S. Stuart; Mrs. Sarah Helen Whitman, John S. Long; Sonnet, Paul H. Hayne; Jerusalem to Jezreel; Eugene Aram, Act IV. Espy, W. H. Williams; Carmelita, Chap. vii to ix, W. H. Babcock; Bayard Taylor, Paul H. Hayne; John Davidson's Wife, Chaps. x, xi, W. W. Alexander; Recent Literature.

JURORS FOR SUPERIOR COURT FOR SPRING TERM 1879.—Cornelius Padrick, William Aldridge, Jesse B. Noble, James Williams, B. H. Langston, Levi H. Carter, Jno. H. Suggs, Junius E. Sutton, Jno. H. Coward, Jas. L. Taylor, Jesse H. Hardy, S. H. Loftin, J. T. Daly, Seth West, C. C. King, John H. Dawson, Wiley Dawson, Jos. H. Waller, Thos. A. Harvey, L. M. Hardy, B. Frank Sutton, J. G. Ervin, Noel Albritton, (col.), T. R. Cunningham, C. P. Barrow, Jno. Cobb, (col.), A. J. McIntyre, R. W. Moore, Caleb Sutton, Isaac Fields, Thomas Heath, W. M. Nettles, R. M. Kennedy, B. F. Dixon, J. W. Brothers, F. G. Griffin.

Last Saturday we saw our worthy county commissioner from Lousin Swamp escorting ladies down Gordon street, and invited him to dinner, whereupon he imposed on us the threasure saying, "Did you ever before hear tell of a town man inviting his country friend to dinner?"

"Never!"

"What, never?"

"Well, hardly ever."

We had intended to keep that stale quotation out of our paper, but since we have it once, we will quote one more of the town sayings:

"Did you ever know a Kinston clerk that would help a farmer hitch up his mule?"

"Never!"

"What, never?"

"Well, hardly ever—unless that farmer has a pretty daughter boarding in town and attending school."

The chairman of the County Commissioners tells us that he thinks that \$2000 can be saved this year from the general county funds, with the same tax collected as was last year. Then by saving the same amount next year, there will have to be collected only \$6000 to build the \$10,000 court house. If this amount can be saved in the administration of county affairs, it will be quite a feather in the caps of the present Commissioners. The old Board of Commissioners, though differing in politics with the large majority of the principal tax payers of the county, yet had the confidence of both political parties in the management of county finance. They were eminently conservative and, as a general rule, economical, and the new Board will have to out close to head them off on that point. After a while we expect to print statements from time to time, of county finances and compare with the former administration, no matter which side may suffer by comparison.

We give below some of the proceedings of the Lenoir County Commissioners at their March meeting.

We hope to make arrangements to give their proceedings in full hereafter. The people of the county are more interested in that than even in Legislative proceedings.

Ordered by the Board, That they recommend to the teachers and school committeemen of Lenoir county, the text books as published by the University Publishing Co., and for sale by Nathan Stanley of Kinston; N. C., as worthy of their patronage and support. We recommend said books as the best published and would be glad to see them introduced in every school in North Carolina.

Ordered by the Board, That they rent J. K. Davis' (Long's) Hall, for a court room for two years commencing from Jan. 1st 1879, at two hundred dollars per year.

Ordered by the Board, That Jno. F. Wooten be allowed to erect an office on the court house square, to be used only as a lawyers office, and that he locate said office adjoining S. B. West's store, or between Jackson's and Granger's offices; upon condition that said J. F. Wooten will act as attorney for the county Commissioners free of charge.

We find the following proceeding in February. Is he a red rose, or a white rose, or a black rose, or an Irish potato?

Ordered by the Board, That Early Rose be appointed to attend to the Draw in Neuse river bridge, to keep off the rafts and patch said bridge when needed, and that he be allowed eight dollars per month for his services.

INTERIOR COURT JURORS FOR APRIL TERM 1879.—F. M. McCoy, R. T. Daughety, Bennett Gray, Dallas Dawson, Frank Dail, Jas. Wilkins, W. F. Loftin, Wm. G. Stroud, Henry G. Phelps, J. W. Daly, Jno. H. King, Joshua T. Aldridge, Jno. F. McCoy, H. A. Litchfield, J. F. Brown, Matthew Harvey, Edwin Taylor, David Williams, Jas. W. Rouse, G. W. Jones, B. F. Wiggins, Jerry Warters, Jno. W. Fields, J. F. Daughety, Henderson Loftin, Benj. Rouse, T. P. Dail, T. L. Hartsfield, Jesse H. Moore, Wm. E. Hines.

Jones County Items.

Not an item of news for the JOURNAL this week. It has indeed been a "very still week". If anything unusual has "stirred" your correspondent has failed to get it.

As we are "hard up" for something to write about we will take a sally among the farmers and see what they are doing. The favorable weather for the past week has enabled them to push forward their work. Marl diggings are the order of the day. Our neighbor, A. P. Barrow, invited in fifteen or twenty hands last Saturday, and threw out between two and three thousand bushels of the finest blue marl which, "D. E. Walker" says is the best. Neighbor J. C. Parker had a digging last week and threw out a big pile right where the Editor of the JOURNAL once dug and found it not. (May be it's a good thing he didn't find it; if he had he never would have started the JOURNAL.) Morris McDaniel, William Pollock and George Barrow are going to have digging pretty soon. And your humble servant, having found a plenty of the very best all around these branches, is thinking about having a little "spree". It is so nice to have such a great big pile thrown out in one day. We think fertilizers will stand a poor chance in this neighborhood after this year. If it pays some of your farmers to haul eight or ten miles, it will certainly pay us to haul it two or three hundred yards.

From the farmers we go to educational matters and this time we want to take a hack at the Teachers. A meeting was advertised to be held in Trenton on the 1st Monday in Jan. last at which all the while Teachers in the County were requested to attend and organize a Teachers Association. After one or two postponements on account of thin attendance three or four teachers and the County Examiner got together and organized. As we did not think the Teachers responded to the call as they ought to have done we applied to the Examiner to know who were the Teachers and if he knew they would not attend the meetings and join the association. He did not know why they would not attend but gave us this painful or rather shameful piece of information as to the whites, viz: that the white teachers in the County are on the stand-still or go-back while the colored Teachers are advancing—that is, when he came into office about four years ago there were white teachers who held 2nd. and 3rd. grade certificates and are holding the same yet—some of them not quite as bright as they were four years ago—while colored teachers who could barely get a 3rd. grade when he came into office are now getting good 2nd. grades and some 1st. grade certificates. No wonder they refuse to join an organization, one of the objects of which is mutual improvement consultation and cooperation. Tell us "Lenoir Teacher" what ought to be done with such.

We see in your Onslow Items that the little village of Richlands has three good schools and only lacks a rail road in order to become a city. Here is Pollocksville on a good navigable stream which is the next best thing to a rail road; good farm lands in every direction; good water; healthy and in fact everything but a good permanent school. Our people are not averse to education, far from it—they have their little private schools about in different portions of the county; but we want to see a first class Graded school at Pollockville and at Trenton. When we get these we can begin to compete with our neighbors in opening inducements to immigrants.

This subject of Education leads us to think about what the Legislature is doing and the Bell Punch, yes the Bell Punch is the first thing that presents itself. Last week's JOURNAL speaks our sentiments exactly in regard to the objections being raised to it. We see in the proceedings that when the Bill was before the Senate Democrats were warned that if they adopted it their seats would hereafter be filled by Republicans. We were surprised at this. Do the few men engaged in liquor traffic in N. C. hold the balance of power? While we think the honorable Senator who so intimates is mistaken, at the same time if it were so we don't think a Legislature would be right in refusing to support measures for the relief of the people because they think by so doing they will jeopardize their chances of re-election.

To-day Assistant Engineer Burgwyn and his assistants came along. Now we thought here is a first rate chance to get up an item for the JOURNAL. So we sallied out and asked, "Are you surveying the canal route?" "No sir. I am Ass't Engineer; we make distinction in surveying and Engineering." Well what are you doing? "We are taking the elevation of the level above the sea." Did you see the Bench mark on the Tree? "No sir." Please walk down and let me show it to you. I want you to witness it. We make one every three or four miles in order to guide Engineers in the future." We walked down to the wall at Finesy Grove Church and he showed us a nail driven into a pine root and said it was a Bench mark. We began to think of a string of questions to ask but he said he was behind time to-day, so he bowed and passed on and we concluded that as to the canal we could report progress.

The small-pox has broken out in St. Jago de Cuba, and all vessels coming from southern ports of Cuba are immediately quarantined to all Jamaica ports.

Onslow County Items.

Things are very quiet in our midst. There was some excitement a few mornings since; a young man wishing to break a "Taurus" had quite a crowd standing around to help him "hitch up." When the word was given to start there was quite a caper out by the strong fellow, and in the tussle a negro found himself standing on his head. Several Professional men were standing around and seemed to enjoy the fun hugely. The "Taurus" would make for the crowd occasionally, and you never saw such scattering. The male fellow of the cow kind is about broken and is now hauling manure in a hurry.

There has quite a goodly number of bales of cotton left Richlands in the last few days for New Bern. Somebody is going to handle the greenbacks.

The farmers are preparing for crops, and will soon be ready to plant. There lives a negro woman not far from this place about eight feet in height. How is that for high? [Tell us exactly how high she is.—Ed.]

There are being made in and about Richlands some improvements. One very nice and stylish by Mr. H. W. Humphrey. Mr. J. W. Shackelford is speaking of building a brick house.

Two of our villagers are absent. One is in Washington city and the other in Raleigh representing Carteret, Jones, and Onslow in the S-nate. He will soon be home as the Legislature will shortly adjourn.

A horse ran through the village a few days ago with a buggy, but was stopped, and it was found that nothing was broken. The owner is lucky. He drove the horse out and went back to shut the gate, and the horse took advantage of being left alone and ran about half a mile.

We publish below some Jones county poetry without endorsing the sentiments. We have known Sheriff Smith favorably for several years; and his vigorous campaign last Summer, single handed in the face of overwhelming odds, is a sufficient proof of the soundness of his politics. We print the poetry "on account of its merits"; and knowing too that friend Smith is good natured enough to laugh at a joke even at his own expense.

JONES COUNTY, N. C., Mar. 10. I guess I'd better apologise a little to Mr. Harper. Unless I thought I could exercise myself a little sharper. For as I stand on politics I can have no opponent. But every body now expects to have some poetry in a moment.

But as I never do stand back for whining or for yawning, I guess I'll give the Democrats a little piece of warning.

A FEW STANZAS ON THE PLURALITY OF THE SHERIFFS OF JONES. Now just to think of the county of Jones, She used to have money to loan; But now she can't tell what to do, Instead of one Sheriff she's got two.

One's named Tom and the other's named Joe Now which one's wrong I do not know: Tom's got a white man to keep the jail; Joe's got a black man they call "Bale".

I do not suppose they will disagree, As both of the jailors have got a key; But what it be right funny sport To see two Sheriff's call one Court.

Tom, they say, is a Radical; Joe's somewhat of a prodigal; Still he is a man of spunk; Tom's a man that don't get drunk.

Tom's a man that used to labor, And they say a right good neighbor; Joe's a man that's somewhat twisty, But he can't stand when full of whiskey.

Tom's a man that does things right, But he don't suit a "Benjaminite"; Joe, they say, is a Democrat, Although his jailor is most right black.

Joe is a man that's somewhat fierce; He was Deputy once for a man named Pearce; Yet they say he's a Democrat, Although his jailor is so black.

What's sauce for the goose is sauce for the gander, He was Deputy once for John S. Andrews; Still they call him a Democrat, Although his jailor is most jet black.

F. McDANIEL.

The ticket 391732, drawing a \$300 rifle in the lottery, belonged to a waitress at the Restaurant Duvril. On learning the good news she cried: 'Doesn't a soldier go with it?'

'A glass of wine,' said Sheridan, 'encourages the thought which is slow to come, and when it comes it deserves a glass of wine as a reward.' Let us add that if a man too often rewards the thought that is so slow in coming, it will hurry him to the station house at double-quick.

KINSTON MARKET. CORRECTED WEEKLY BY F. G. Griffin, General Merchant.

COTTON—Market quiet. Sales at 7 1/2 @8 1/2. Baggins, 13 cts. Ties, 2.50. BACON, N. C., 8 cts. Hams, 9 cts. C. R. Sides, 7 cts. PORK, Mess, \$11.50. Ramp, \$1.20. SALT, \$1.20. LIME, \$1.75. CORN, 40@50 cts. PEAS (Stock), 50 cts. FODDER, 75 cts. LARD, Country, 10. Northern, 10. MEAL, 50 cts. WHEAT, \$1.00. FLOUR, 7 bbl., \$5.00@5.00. SYRUP, 40 cts. MOLASSES, (Onba), 40 cts.
