

Thermometer Record for the Week ending Feb. 4.

Table with 2 columns: Day, Temperature (High/Low). Rows for Thursday, Friday, Saturday, Sunday, Monday, Tuesday, Wednesday.

Fresh Garden Seed at HENRY DUNN.

Irish Potatoes at N. Stanley's.

Valentines at N. Stanley's.

Beggy for sale. J. F. Mewborn.

Winter set in on Monday.

The Editor is on a trip to Washington City.

Dr. T. B. Emory has concluded to remain in Trenton for another year.

The Republican State Convention is called to meet in Raleigh on July 7th.

In passing E. P. Loftin's farm last week we noticed about 25 little lambs among his sheep.

Corn is very scarce in this market. We predict \$5.00 per barrel before 60 days run out.

The shoemakers are offering thanks for the rain, snow and sleet with which we have been blessed this week.

Misses Lida Herring, Julia Metts, and Sallie Mitchell were in town, last week, visiting Col. Moses' family.

No lights on the streets Monday night—the darkest night we have had this winter.

Levi Dawson says he has already sold Chemicals enough for making 150 tons of Fertilizers.

The Hookerton young men hold a Tournament on Friday the 6th inst. and give a Coronation Ball at night. The Kinston String Band furnish the music.

The Democratic State Executive Committee meet in Raleigh on March 4th to fix the date for calling the State Convention.

New Berne has the Pinafore fever at last. It was a long time coming, but it struck deep when the fatal moment did come.

W. G. Watts planted cabbage seed, in the open air, between old and new Christmas, and they now have three leaves formed.

C. S. Wooten, F. B. Loftin, Wiley Lowrey and L. H. Fisher are off at Washington to give testimony before the Exodus Committee.

We learn that Frank Atkinson and a Mr. Young of Pitt county were killed on Friday last by the explosion of a boiler about 12 miles from Greenville.

Zach Rhodes brought a chicken to town last week that weighed nine and a half pounds. Chauncy Gray was the purchaser.

A merchant in "Tuckahoe" advises his customers, when he is out of nails, to build houses on the old plan—with wooden pegs instead of nails.

Ed. T. Albritton has severed his connection with the Greens County Advocate. He is a rising young lawyer and his professional duties claim his whole attention.

Mrs. Pritchett of Trenton is a natural hotel-keeper. If she were in a city she would gain a reputation like Miss Nancy Hilliard of Chapel Hill and Company Shops fame.

A lady resident of our town, the wife of one of the town Commissioners, wants the Editor of the JOURNAL to keep after the Commissioners until they get to doing something for the town. Where is "Goose Man"?

Our Pink Hill farmers say the wheat crops are looking well in that section. We also hear that they have the "marl fever" out there. Beds of marl have been recently found and every body wants to give it a trial.

Kinston has a beautiful shelter in his yard in Jones county. It is covered with rough boards, but underneath is about 25 bales of cotton, which necessarily adds beauty to anything around it.

The first white shad caught in this section last year, was captured, as we find by reference to the files of the JOURNAL, on Jan. 29th by Seth West. This year Fred Beaton brought in No. 1 on Thursday, Jan. 29.

In commenting on the Leonard King escape from the Sheriff of Jones, two weeks ago, we stated that he was concealed in the house of Frank Nobles. We learn that we were mistaken, and that it was at Rufus Nobles' house.

Sugg & Bro., of Suggville, Greene county, request us to call the attention of the owners of the steamer Neuse to the fact that they offer very little accommodation to the owners of the heights delivered at Kinston.

Duplin county has some plucky men. Last week James Williams rode on horseback from his home near Kennanville, to Trenton—43 miles, and back again on same day. There are few men in the country who could make such a trip.

The following delegates are selected to represent the State in the National Republican Convention—W. P. Canady, W. H. Starbuck, James H. Harris and Rufus Barringer—an entire Sherman delegation.

Clay Parrott has fitted up a flat and sent a number of hands up the Neuse to commence rafting lumber from above White Hall to Parrott's Mill at Kinston. To give the Devil his dues, it is but just to add that the Neuse river improvement will render rafting much easier.

We have received a letter from Sand Hill giving notice of a new firm—Cobb & Co.—which has recently opened in that township to do business on a credit and help the poor. The writer supposes that W. H. West will order the most of his goods from them. It must be a strong firm—why don't they advertise in the JOURNAL?

Hogs to Give Away. One of Jerry Sutton's neighbors says that he—Jerry—says he has more hogs than he knows what to do with—that corn is so high, owing to last summer's drought, that it doesn't pay to feed to hogs; and that his sows are so fruitful that his plantation is becoming horribly overstocked, and he has a good mind to give a lot away to his neighbors.

Rice. Mr. F. M. Haakins who runs a rice mill on Whiteley creek says that the Bucklesberry rice cleaned at his mill this season was extra nice. It very frequently panned out 25 pounds of nice clean rice to the bushel of rough rice brought in, after paying the toll. He says that John Sutton of Bucklesberry has some extra nice seed rice.

The revenue officers were out in force last week hunting for blockade stills near the Jones and Lenoir line. It is said they surrounded the woods where there was a still, and the moonshiners, seeing the situation, loaded up the still in a wagon, covered over neatly with fodder, and drove by the pickets without detection, pretending to have a load of fodder carrying to town.

We acknowledge the receipt, through Dr. W. T. Kennedy, chief Manager, of an invitation to attend a grand Masonic Festival to be held at Stonewall Pamlico Co., on Thursday Feb. 5th. R. W. Grand Master Cox is expected to be present and Junior Grand Warden, H. F. Grainger is to deliver a Masonic address.

The Chairman of the County Commissioners was the only member of the Board at his post on Monday. Guess each one of the others thought there would be a quorum, even if he himself did stay at home and watch the snow flakes from a cosy fireside. But what about the poor passers who trudged their way on foot to secure their allowance?

Since the above was put in type Commissioner Turner rolled in, having combatted the storm for twenty miles.

Fishing in Neuse River. We call the attention of the public to the law regulating seine fishing in Neuse river which runs in the following words: "That it shall be unlawful for any person or persons to haul any seine or place any nets or traps that will prevent the passage of fish in the waters of Neuse river, from its mouth to the Orange County line, from and after 6 o'clock Friday night of each week until 6 o'clock Monday morning following." The law further fixes a penalty of not more than \$250 fine nor more than 6 months imprisonment.

Journalistic. The Brief Mention, at Warsaw, comes out enlarged, and is a capital little paper.

The Wilson Advance is blessed with several editors, but does not suffer on that account. Both local and editorial columns show wide awake men behind them, and the writer of the "Criminal Court" articles should feel complimented at the favor they have met with by the press of the State.

The Tarboro Southerner is always opened first among our exchanges.—Dosey Battle can't write a dull or prosy sentence.

The Ladies of the Trinity Aid Society of Kinston have a box in which anonymous contributions are deposited to be read before the Society at its weekly meetings. The following was the first offering and was read at the second meeting of the Society; and by an unanimous vote, is now published.

To the Members of the L. T. C. Aid Society of Kinston, N. C., Jan. 30th, 1880.

Awake, arise, put on your strength, You have a work to do A work not measured by its length, But by the hearts you woo. 'Tis not the money that you raise, That is a little thing— 'Tis that you may have praise; For that will soon take wing. 'Tis not to simply pass an hour In gossip or in mirth, To cultivate a fragile flower, That soon shall fall to earth. Your work is nobler, grander, far— To cultivate a fragile flower, That soon shall fall to earth. Your work is nobler, grander, far— To cultivate a fragile flower, That soon shall fall to earth.

Sad hearts are waiting the reply, That shall be wafted back; "Is there no help?" soon they cry, "And must we ever lack?" Then send your gifts, they may be small, Your words, they may be few, But done and said with love to all, They mighty works will do.

The Woman's Missionary Auxiliary Society will meet at Mrs. Jane Griffin's Friday evening Feb. 6th at 8 o'clock. A full attendance is desired. Mrs. E. E. Madras, Sec.

La Grange Items.

Elder Sylvester Hassell, President of the Wilson Collegiate Institute, preached in the Baptist Church Sunday evening.

Policeman W. M. Murchison reported the town lock-up in considerable demand Saturday. Several, having too frequent access to the little brown jug, becoming boisterous and forgetting to go home, were allowed to cool off in the town sanatorium.

Rev. W. H. Willis of the Protestant Methodist church preached in town on Friday evening. He succeeds the late Rev. J. G. Whitfield on this mission. The membership of this church is small at this place, and it is believed by some that it and the Episcopal Methodist will unite at no distant day, lay delegation, the principal cause of separation, having been removed.

Messrs. C. S. Wooten and F. B. Fields are summoned to appear before the Senate Committee on the Exodus. This it is, men are summoned from their business to attend an investigation that can bring no good to the country further than brighten the prospects of a party or a politician. All know the cause of the Exodus and do not wish to throw any impediment in its way.

Lee's Prepared Lime is meeting a ready sale among the cotton planters in this section. It was used last year by S. I. Wooten, Haywood Waters and Dr. Hadley, all of whom speak in very favorable terms of it and are buying it this year. It sells for \$12 per ton, and being used by our successful farmers who have tested its merits, it will take the place of higher priced fertilizers. It is not to be paid for in cotton next fall, but for the cash now. The cash basis is the only one from which a healthy financial condition can arise. When a long credit is given on the faith of crops to be grown, the merchant generally comes out a bankrupt and the farmer cheated—and sometimes both.

HARROWING WHEAT.—The Harrowing of wheat is not a common practice with our farmers. Thousands of experiments in all parts of the United States prove that wheat harrowed 4 or 5 times in the Spring will increase the yield from 5 to 10 bushels per acre according to the strength of the land. For this purpose we recommend the "Thomas Patent Smoothing Harrow," which is made upon the "draw out" principle, and pressing downwards upon the young plants do not injure them in the least.—N. C. Farmer.

Jones County Items.

The "Derriek" is within a quarter of a mile of Trenton. The sound of the whistle is heard and gives an air of liveliness to the place hitherto unknown.

There is a crowd down at the river every day to note the progress of the work.

Jas. Williams, the colored man who was shot by some unknown party last week at the plantation of L. F. Koonce of Cypress Creek township, is fast recovering. Dr. Whitaker, under whose treatment he has been, has pronounced him out of danger. The negro who was arrested on suspicion of having shot him was discharged by the court.

The measles are in full blast in the Chingnapin section and demoralization naturally follows.

Cad Koonce says he has the finest flock of sheep and lambs in the county. He has twenty seven lambs. I saw him yesterday (Sunday) with his gun, and like David of old (I came near saying Moses) he had just returned from looking after his flock. He says that he took his gun along in order to prevent the depredation of buzzards upon his lambs.

Little Willie, a son of J. R. Hargett, is seriously ill. Dr. Nicholson of Richland is his physician. Willie is a bright promising lad and I hope he will soon be well again to gladden the hearts of his parents.

The Committee in charge of the work on the new road that is now being built from Onslow to Quaker Bridge on Trent river in this county, is progressing finely with their work. Now if we could have a Railroad from Trenton to some point on New river through this section of country, Trenton would indeed, "Phoenix like," arise from the ruins by which she is environed and march onward in a career of prosperity and improvement heretofore unparalleled in her history. May that auspicious day speedily arrive.

The farmers in this county are backward notwithstanding the beautiful weather they have had. It has been the mildest winter known even by some of the "oldest inhabitants."

The "Beautiful Snow" tripped softly down gentle footsteps from Heaven last night, and the dark eyed mud reached up and "took it in." All nature this morning was covered with a mantle of white; fit emblem of purity and innocence—the "Beautiful Snow."

Commissioners' Court in Trenton today. Not much of interest transpiring. The Bryan—Askew affair came up before the Court for investigation. Counsel was consulted and the conclusion arrived at was, that the Treasurer should institute suit immediately—counsel argued that the Executor of Bryan had no right to the money in his hands belonging to the county.

Bryan in the first place, instead of paying this money to his Executor, ought to have paid it over to his successor in office. We think the law is sufficiently plain on this point, and how in the name of reason and common sense Bryan's Executor has a right to pay out this money and thereby exact a receipt for the same as Executor of the estate of Bryan, I am at a loss to determine.

Perhaps it may be that he can see further into a point of this kind than ordinary mortals.

One lawyer from your town to day on professional business—Mr. Jno. F. Wooten and Mr. Simmons of New Berne is also here on business of a like nature.

Disagreeable evening this—the "Beautiful Snow" has disappeared almost as quickly as it came.

Night is approaching and I am reminded that it is time to close.

WANTS TO REMOVE SOUTH.—We know of a farmer, who possessing a good practical knowledge of mixed farming and stock raising that desires to remove to a more genial climate. He has a good opinion of the States of Virginia and North Carolina, as fine farming localities, but is alive to the facts that specialties are generally too much in vogue. He would like to form business relations with some one who has plenty of land, and who desires to strike out somewhat into new channels. If among the readers of the N. C. Farmer, there is such a one and they wish to correspond with the at one named farmer, they can reach him by a letter addressed to "Farmer" in care of the undersigned.

We believe that could an understanding be arrived at, that quite a number of our farmers here would remove South, carrying with them some capital, a good deal of skill, industry and native energy that is better than money capital alone.

J. W. Lang, Brooks, Maine—in N. C. Farmer.

STATE NEWS.

The shad and herring fishing interest is opening in the East.

Chief Justice Smith's health is improving.

The Raleighites feast on mountain beef and mutton.

Milton is to have a steam distillery making 600 gallons of whiskey per day.

Little boys play shinny on the streets of Wilmington, says the Star.

Mr. Puryear of Alamance county died on the 21st of January aged 95, leaving 9 children, 66 grand children, 127 great grand children, and 44 great great grand children.

Close to \$100,000 in money orders were paid through the Raleigh post-office last year.—Farmer & Mechanic.

Prof. Ledoux, State Chemist at Chapel Hill, has resigned and his resignation accepted. If his place is to be filled at all, we suggest that Prof. Redd of the University be appointed, and the salary paid to the University to aid in keeping it up. Prof. Redd with his class of students will do the work well and promptly.—Goldboro Mail.

We understand the truck farmers of New Berne and vicinity are going in pretty heavily this season. 1,500 bushels of English Peas, and about 600 bushels of Irish potatoes, having been sold for seed.—Signal.

There is a lady in Bakersville, who is the mother of eight children and does all her sewing, (no machine) cooking, washing etc., and has woven eighty yards of lincsey, and made it into clothing since the first of October, besides knitting stockings for her children. Her seat is hardly ever vacant in church and she is always ready to help her neighbors.—R. Mountain Republican.

Sillivent's school house, near Mr. Wyatt Churchill's farm, was destroyed by fire last Monday; caused by a defect in the stove fire. Books, benches, windows, doors, etc. were saved—building entirely destroyed.—Greene County Advocate.

The pay of a Census Supervisor will be \$500 for the entire work, and the pay of "subs"—one to every 4,000 persons—will probably not exceed \$100, but still each Supervisor will have at least 5,000 applicants for a "sub" place.—Oxford Free Lance.

In the year 1861 or '62, premiums were offered by the State for largest yield of cotton on one acre. Geo. W. Collier of Wayne, raised 3473 lbs. D. A. Sugg, 3490 lbs. and W. A. Darden, 3300 lbs. The two last gentlemen are residents of Greene. Can our farmers make such an exhibit in 1880?—Greene County Advocate.

The Greensboro Patriot gives the following list of articles shipped from that city in 1879: 19,963 chickens; 22,320 dozen eggs; 4,020 pounds of butter; 3,580 rabbits; 4,220 bushels of green peas; 271,749 rabbit skins; 13,899 opossum skins; 5,800 muskrat skins; 179,089 pounds of rags; 25,000 pounds bones; 63,800 pounds of dried peaches, apples etc.; 10,241 pounds of sassafras oil; and 14,241 pounds of wool.

The Raleigh Observer says that Gov. Jarvis is corresponding with Governor Marks of Tennessee, and Gov. Simpson of South Carolina, in regard to the celebration at Kings Mountain in October next. It will be an inter-State affair, and the three Governors named announce their purpose to make the occasion memorable and the ceremonies worthy of the occasion. Large numbers of troops from all three of the States will participate, and many distinguished gentlemen will be present.

Reidsville Times: A Raleigh correspondent to the Durham Recorder says that the fight for Governor has settled down between Jarvis and Fowle. Of course. They are the only two we know contending for it. But suppose the people give it to some peaceable, good looking brother outside who has never fought for it? As a few papers are for holding the Convention right off, some of the "fighters" may get in before the people are roused up to go to the scene of action. There is a good deal of pulled hair lying around Raleigh now, and the "fighters" are almost on their backs from exhaustion.

The WHIPPING POST is about to be revived in Kentucky. The Lower House of the General Assembly recently passed a bill re-enacting the old law authorizing the whipping post as a punishment for crime, and it is thought that the Senate will also pass it. Many citizens of North Carolina wish it was restored in this State, and claim that it is a greater check upon criminals than the penitentiary, (no doubt of it—Ed. JOURNAL) and as a punishment is much less costly.—Chatham Record.

... An \$500 monument is to be erected at Holly Springs, N. C. in memory of the State Press Association carried off by yellow fever.

... Cetewayo who, dethroned, is happier than the Czar enthroned, has begun to study English. He is trying to learn to read and write.

... Turkey's territorial loss is estimated by a German authority almost as large as Prussia proper, with a population of eleven millions.

IN MEMORIAM.

TO THE WORTHY MASTER, OFFICERS, AND BRETHREN OF ST. JOHN'S LODGE, NO. 56, A. F. & A. M.: Your committee appointed to prepare resolutions on the death of Bro. WARREN KILPATRICK beg leave to submit the following:

WHEREAS, by an unchangeable law of the Supreme Architect of the Universe, we have been called to mourn the loss of our much esteemed and honorable brother, WARREN KILPATRICK, who departed this life November 14th, 1879. Therefore

Resolved: That in the death of brother KILPATRICK this Lodge has lost one of its oldest and most beloved members—one whose Masonic life was most exemplary, who always performed his whole duty willingly, and cheerfully and his memory will ever be cherished in loving affection by his surviving brethren, and well may we profit by his many noble deeds and Masonic virtues.

Resolved: That the community has lost a valuable citizen, a good neighbor, a man without guile, pure, upright, unswerving—"one of our noblest men."

His family has lost a kind husband, and a devoted father—one who always thought more of the welfare and comfort of others than of himself.

Resolved: That we wear the usual badge of mourning for 30 days.

Resolved: That the resolutions be spread on the minutes of the Lodge, and that a copy be sent to the family of the deceased, and a copy be furnished the KINSTON JOURNAL with a request to publish the same. Fraternally,

W. W. DUNN, W. F. LOTTIN, C. GRAY, Committee.

MARKET REPORTS.

NEW YORK. New York, Feb. 3.—Cotton firm at 13 1/2. 13 1/2. Pork firm at \$19 1/2. Ribs \$1 5/4. Spirits Turpentine 40 cts.
