Go to GEORGE KORNEGAY'S for anything you want.

TOWN LOTS for SALE Two two-story dwellings and lots by H. MILLER.

GEORGE KORNEGAY is selling goods very LOW.

For Sale: Eclipse & Watertown Engines for sawing lumber & other purposes. J. W. GRAINGER.

WANTED: All persons indebted to me to come forward and settle at once. Wm. Hunter.

C. F. HARVEY C. L. C. Probates mortgages, Deeds and all other instruments of writing requiring probate. Banks on hand free of charge.

A good and well selected stock of goods at cost for cash. Parties wishing to buy will do well to call and examine. Wm. Hunter.

100 Sacks of Liverpool Salt for sale. M. HARVEY.

SEED WHEAT FOR SALE. I have about 40 bushels of white wheat for sale, a first class article.

Also 3 fine mules, one wagon, one cart, a lot of corn & fodder, several pigs and a lot of farming tools, cotton seed &c. G. K. BAGBY.

FOR RENT. I have for rent three horse farm in high state of cultivation as any farm in the county.

I will also rent my brick dwelling on Jan 1st 1882. G. K. BAGBY.

JOHN HYATT has received a nice lot of Frames, Fine writing paper, Wall papers, Brackets &c. which he will sell as low as anybody can sell the same quality of goods.

Another lot of those Gents Nobby Hats at - EINSTEIN'S.

Turkeys \$1.50 per pair.

Country Hams 18 cts. per pound.

The N. C. Conference of the M. E. Church, South, will meet at Durham on the 23rd of November.

The doors of the jail are thrown open and Sheriff Davis, for the second time, apparently at peace with the world.

We have received a copy of Turner's Almanac for 1882. It contains much valuable information for both business men and farmers.

Mrs. Lanie Churchill, an aged lady of 2 years, of Greene county died on Tuesday Nov. 1st. She was for many years a member of the M. E. Church, South, and the mother of Mrs. J. K. Noble of Link Hill.

Col. Jno. D. Cameron, late editor of the Durham Recorder, has purchased a half interest in the Raleigh State Journal. The Journal will be issued three times a week as soon as necessary arrangements can be made.

Mr. T. J. Meachum of Black Creek, Wilson county was in town last Monday and purchased the Odd Fellow's house and lot which was sold at auction that day. He will probably become resident of the town.

Oettinger Bros received last week 5,000 yards of embroidery. It was shipped by the junior member of the firm while on his visit to S. vitzland, and was delayed for sometime at the Custom House in New York.

A walk through D. R. Jackson's cotton on Tuesday evening showed us that the frost had not damaged anything yet. The cotton is still growing and blooming. We saw on many stalks from 12 to 14 bolls from 1 to full grown, all from the second growth. If there is no killing frost for two weeks he will evidently get another good picking.

Worth's auxiliary to the Woman's Missionary Society is to have an annual meeting and a basket dinner at Worth's school house on Friday Nov. 11th.

A number of persons have taken cotton seed by the quart and pint and the proceeds are to be brought in on that day and weighed. Rev. Mr. McCorkle expected to deliver an address on the subject of missions.

Maude McDonald won the big race at the Weldon Fair. Time: 2:36. She appears at Tarboro this week.

Huge Peanut Vine. David Williams col. of Vance township, brought in on Tuesday a peanut vine measuring six feet across and well filled with peanuts. David seems to be successful at vine growing, a year or so ago he reported a pumpkin vine 120 feet long and proved it by "Walker" of the Observer.

The Colored Industrial Fair. The Raleigh papers speak in very laudable terms of the Industrial Fair held there last week by the colored people of North Carolina. Senator Vance delivered a very appropriate address and the exhibitions were meritorious in every respect a success. But there was Lenoir not represented in the county, but we fear they are lacking in enterprise.

THE ELECTIONS.

The latest information we have from Virginia points to the election of Daniel.

In New York the Democrats claim the victory.

An Editor Married. On Tuesday, Nov. 8th, at the residence of the brides mother at Ormandville, Greene co. Rev. E. H. WHITAKER editor of the Raleigh Spirit of the Age was married to Miss FANNIE ORMAND, Rev. W. C. Call officiating. The happy couple took the train for Raleigh on the same evening.

The Cotton Crop of Lenoir. W. M. Parker, the man who generally brings in the first cotton bloom and the first bale, says he is done picking the cotton and finds that he has made on 12 acres six and a half 500 pound bales—about 3 bales less than last year. From this and reports from other farmers in the county we think it safe to put the decrease in yield per acre at about 30 per cent. The increased acreage, however, will partially make up this loss.

Town Improvements. The vacant town lots were sold on Monday and brought a good price. The funds derived from the sale of the lots and the taxes collected for this year will enable the Commissioners to begin the work of permanent improvements in the way of drainage. Among other improvements we suggest the building of a market house, which would be not only a source of income to the town but of great convenience to both buyers and sellers of country produce.

Good Hotels. Our canvasser, Oscar Williams, who attended Beaufort and New Bern last week, and Goldsboro this week, speaks in very complimentary terms of the Ocean House at Beaufort kept by Mrs. W. C. King and T. S. Martin, the Central Hotel at New Bern kept by that polite and accommodating young man F. T. Patterson, and the Bonitz Hotel at Goldsboro where the genial and warm hearted Bonitz presides. The traveling public will find everything neat and in good order at these excellent Houses.

Weather Report. Kinston Station For Month of October 1881.

Roll of Honor, OF LA GRANGE ACADEMY FOR MONTH ENDING OCT. 21, 1881.

MALES: J. T. Aldridge, T. W. Bizzell, J. L. Dawson, W. P. Wooten, Dulany Wooten, K. S. Uzzell, R. L. Uzzell, K. E. Sutton, W. T. Reid, W. F. Phelps, H. V. Williams, Silas Kirkpatrick, F. R. Hodges, F. M. Harper, Robt. N. Hadley.

FEMALES: Ora Bizzell, Nancy Best, Della Dawson, Lillian Dillon, Bettie Kinsey, Ada Kinsey, Myrtle Pope, Edie Rouse, Lillie House, Mary Rouse, Lillian Sanderlin, Ava Taylor, and Bettie Wood.

Kinston Cotton. Mr. E. Grout bears testimony to the fact that the cotton brought to Kinston since his arrival this season is of a very good grade compared with former seasons, yet, he says in many instances while the cotton is comparatively clean and put up in good condition he finds it "gin cut" which is objectionable to the spinners. We believe it is generally conceded that Mr. Grout is a good judge of cotton he is from the factories and knows what the spinners want, and can no doubt give the spinners information in some particulars, which if heeded, would help the sale of their cotton in some instances.

Public Schools. We call the attention of School Committees to the communication in another column from our County Superintendent. There is no necessity for an apology from the Superintendent about troubling us with school matters. We trust the time will never come while we publish a newspaper when we will be "troubled" with any thing that is intended to benefit, build up and elevate our public schools. It has always been a pleasure and not a trouble to us to do anything in our power for the cause of education. So we hope the Superintendent will fulfill his promise and keep us posted on the workings of the new law when the schools commence. He says, and truthfully too, that "the cause of free schools in Lenoir county is and has been for many years at an extremely low discount in public estimation." It is not to be presumed however that the people of Lenoir are behind those of other counties in the cause of education. We believe they are sustaining as many or more good schools at this time than any county in the State. We intend as soon as we can get the facts together to give a brief sketch of the different schools in the county that others may see what we are doing.

On our Supplement will be found a reply to "Aesthetic Seemst" by "Euphrosie Giggie" As the writers seem to be engaged in a discussion of etiquette, perhaps our young people would like to read their discussion. So if they will not get too personal, and will put their communications in a little less space, we will give them a hearing for a while.

Dangerous Place for Boys. By request of Maj. Barrett we call attention of parents to the danger in allowing children to play upon the platform at the depot while the cotton weighers are handling cotton. One day last week a bale of cotton was thrown over on a boy and came near mashing the life out of him. The cotton handlers have not the time to walk around a bale of cotton to see if the way is clear every time, and there are a class of boys about town who always know how to take care of themselves and don't want older people's advice. Nothing short of a serious accident will convince them there is danger in such sport as playing around the bales of cotton on the platform.

Defacing a School House. On Sunday last two colored youths entered a school house in Woodington township where Mr. R. M. Kennedy is engaged in teaching, and defaced it in a manner too indecent to put in public print. A few sharp cracks from a buggy whip brought a confession from one of them which confession was followed by a sound thrashing. The man who applied the lash says he knew he was acting unlawfully, but he was so indignant at such an outrage that he could not govern his temper. Before finding the other one his better judgment prevailed and he came to town and procured a warrant for the arrest of both of them and had them before Justice Coleman on Tuesday who adjudged that they be sent to jail for 30 days. Upon the petition of the prosecutor however, stating that one of them had been sufficiently punished, judgment was suspended in his case on payment of cost; and upon the piteous appeals of the mother for the other one—begging the prosecutor to take him and whip him till he was satisfied—judgment was suspended in his case and no doubt his hide was pretty well tanned. We don't know that the dispositions of the case was strictly according to law, but we think it was very sensible and effective.

School Matters. TEACHERS, REGISTERS, BOOKS. MR. EDITOR: The School Law, under the direction of our County Commissioners, has fixed the first Monday in December for the opening of our Public Schools in Lenoir county. I wish to impress this fact on the School Committees of the county and ask them if they have made, or are making, provision to carry the law into effect?

It has been the custom heretofore to a great extent, for teachers to hunt up the School Committees and get the school started but now, when all the schools must start at the same time, and there are not enough teachers with Certificates to supply all the schools, it behooves the Committees to be on the lookout and get the teachers ready for his particular school. I know the duty of a school committeeman is onerous and without any direct remuneration, and therefore the members do not feel called upon to take any extra pains to attend to the wants of the public. Yet some one has to do this work and it is right and to be expected that the Committees will do their full duty—or resign.

Then I trust that the Committees in each District in the county will act promptly, and first see if they have a suitable house to teach in through the cold winter months. If the house is ready let them secure a teacher to be ready to open school promptly on the first Monday in December. Our law makers have decided that that day is the proper time to commence and it is for us to carry that law into effect.

I wish further to inform the various School Committees that I have received from the State Superintendent a number of blank School Registers. The law requires each teacher to keep on these a daily record of his school work and it is the duty of the School Committees to supply themselves with those Registers and deliver to the teachers employed.

As the schools will soon commence it is well to draw the attention of teachers and of pupils to the text books to be used in the Public Schools. The State Board of education has seen fit to recommend certain books for use, and it will be the duty of teachers to use these and nothing else. These books are: Webster's Speller. Worcester's Dictionary. Holme's Readers. Sanford's Arithmetics. Reed & Kellogg's Grammars. Maury's Geographies. Moore's Hist. of N. C.

It is generally a matter of much complaint from parents that there is a continual change of books for every new teacher employed; and this complaint is not without some foundation. The truth of the matter is that it makes but little difference what books are used, provided the teacher knows his duty. Yet it is equally true that no teacher in the world can possibly do his duty by a school unless there is some uniformity

in the books of his pupils. So the State Board, for the purpose of uniformity has decreed that these books shall be used in the Public Schools of North Carolina; and at our Teachers Institute held in August last, I repeatedly urged upon the teachers the necessity of using no other books but those recommended.

The new series of books can be obtained very cheap by taking advantage of the Exchange price offered by the publishers. Any pupil or teacher, by carrying to Mr. N. Stanly at Kinston, any old school book—no matter how soiled or worn—can get a new book of some grade of the new series at about one half the regular price of the book.

I ought perhaps, to apologize to you, Mr. Editor, for troubling you so often about School matter; but I do it because I think I can effect my purpose better and do more good in this way than by any other. The cause of Free Schools in Lenoir county is and has been for many years, at an extremely low discount in public estimation. As heretofore conducted but little good has been done; and if any good is to be accomplished under the new system, this new system must have a fair and impartial trial, it must have the benefit of public sympathy and public sentiment, and I know no better way of invoking this than by the Printing Press. Then with your permission I expect to occasionally contribute to your columns, giving advice when I think necessary, and when the schools shall have commenced, giving occasional sketches of the work being done.

Very respectfully, J. W. HARPER.

Use Weyher's Horse Powders to bring horses into general good condition.

MARRIED. COX-FERRELL. On Wednesday, Nov. 2nd, at the residence of the bride's father, by Rev. Mr. Richardson, Mr. THOS. COX to Miss FANNIE FERRELL. All of Sand Hill Township.

RICH'D. H. LEWIS. Kinston N. C. Sept. 26th 1881.

THE "SUN" FOR 1882. Next year THE SUN will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic, depraved and virtuous, intelligent and obtuse. THE SUN'S light is on mankind and womanhood of every sort; but its genial warmth is for the good, while it punishes but does not comfort on the blustering backs of the persistently wicked.

THE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, concise, unostentatious way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN.

If effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modified and bettered by the force of THE SUN'S example.

THE SUN of 1882 will be the same outspoken, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before. We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.

In politics we have decided opinions; and we are accustomed to express them in language to be understood. We say what we think about men and events. That habit is the only secret of THE SUN'S political course.

The weekly edition of THE SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific, and domestic intelligence, complete THE WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like THE SUN DAY SUN, each number of which is a volume of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor, matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little!

If our idea of what a newspaper is pleases you, send for THE SUN.

Our terms are as follows: For the daily SUN, a four-page sheet of twenty-eight columns, price by month, post paid, is \$4 cents a month, or \$36.00 a year, including the Sunday paper, and eight page sheet of fifty-six columns, the price is 60 cents a month, or \$7.20 a year postage paid.

The Sunday edition of THE SUN is also furnished separately at \$1.20 a year, postage paid. The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year postage paid. For clubs of ten sending \$10 we will send an extra copy free.

Address: L. W. ENGLAND, Publisher of THE SUN, New York city.

EINSTEIN'S NEW STORE FRONTING THE MONUMENT. Wholesale & Retail.

EINSTEIN takes pleasure to inform the Public that the Largest, most Select and cheapest Stock for Fall and Winter was ever purchased is now complete and ready for Sale. Come one come all from near and far and convince yourself of the above facts.
