

constitution, and the rights of the States from which such citizens emigrated, and in derogation of that perfect equality which belongs to them as members of this Union, and would tend directly to subvert the Union itself.

Resolved, That, as a fundamental principle in our political creed, that a people in forming a constitution have an unconditional right to form and adopt the government which they may think best calculated to secure their liberty, prosperity, and happiness; and that in conformity thereto, no other condition is imposed by the federal constitution on a State in order to be admitted into this Union, except that its constitution shall be republican; and that the imposition of any other by Congress would not only be in violation of the constitution, but in direct conflict with the principle on which our political system rests.

On motion of Col. Benton, who denounced the act of "bringing forth mere abstractions to the certain defeat of the business of the remainder of the session"—as "casting a fire brand into the councils of the nation to set the world on fire," they were laid on the table.

"The American Amaranth, and Lady's and Gentleman's Temperance Magazine," is the title of a new monthly, published in Philadelphia, by Parker, Jones & Davis, at \$1.25 per annum. It is rather sickly in its order, and yet the mechanical execution is excellent. We wish it success, but fear its existence will prove as transitory as the other experiments of Mr. Fisk that have preceded it.

The President has sent a message to Congress recommending a tax on Tea and Coffee during the war with Mexico.

The Rev. A. J. Battle, (Baptist) has been chosen Chaplain of the North Carolina Regiment, which yet requires a company to complete it.

1st Lieut. Seales, of the Rockingham, Guilford and Stokes company, died at Fort Johnson on the 12th inst. of bilious pneumonia.

Adjutant General Haywood presented the Regimental Flag in Wilmington, on the 13th inst. He addressed Col. Paine, who replied, but whether with the speech we published for him last week, we have not heard as yet.

The Capitulation of Monterey.
We publish to day the official account of this affair, with some for political capital, but to promulgate facts. We look not on General Taylor as a candidate for the Presidency, but as an American officer, and so we shall judge him; besides, the whigs would not boast of his successes (!) in a war they declare unjust!

Governor Alpheus Felch, of Michigan, (dem.) has been elected Senator for six years in place of Woodbridge (fed.) whose term expires the 4th of March next.

GO IT!—It is said that three privateers have sailed from London; that they cleared for Manila, but are really Mexican privateers destined for the Atlantic.

We learn from our exchanges that North and South Carolina and Virginia, conjointly, will be called on to fill up one of the Ten Regiments recently authorized to be raised by the act of Congress.

The Standard says that when the nomination of Major Caldwell and Capt Davidson was submitted to the Senate for approval, Mr. Mangum asked the Senate in a public speech to reject the nominations. Thus is party the ruling principle with a North Carolina Senator under every circumstance. The ridiculous position of Mangum and Gales is this—the latter thro a correspondent accuses the Mecklenburg boys of "backing out," while Mr Mangum tries to back them out, unless they suffer themselves to be led by some of the Mexican Whig party!

WHIG VOLUNTEERS.
It does really seem that one cannot get the truth from the whig press. The Milton Chronicle says that "one-half of the Caywell volunteers are good whigs." An officer of the company writing to the editor of the Standard, says "the enormous number of fourteen whigs" are in that company; and he also says that "the Regiment is democratic by two-thirds." We thought by at least three-fourths.—Fayetteville Carolinian.

PEACE WITH MEXICO.
The Editor of "U. S. Gazette" has received a letter, in which the writer, now in the city of Mexico, states that the difference between Mexico and the United States will soon be adjusted. He believes that Mexico needs money more than she does land, and that she will willingly part with California, in order to obtain some equivalent in cash.

LATER NEWS.

HAVANA February 9th, 1847.
"I have the honor to inform you of the arrival of the British steamer from Vera Cruz, with dates from the city to the 2d inst., and from the city of Mexico to the 29th ult, at which time the greatest confusion, yea consternation prevailed. The ministry had resigned, and Congress had determined to dissolve on the 1st of this month.

"The clergy, as I before observed, had refused to grant a single dollar, and were endeavoring to prevail on the Congress to pronounce with them against Santa Anna.

"Some of the departments or States were for proclaiming Santa Anna dictator, while others were for pulling him down altogether.

"Vera Cruz was under the command of Gen. Vega, the relieved prisoner. The city contained about 4,000 regular and volunteers, dependant for provisions daily from the interior. The castle about 1,100, also dependent on the city for supplies.

"They appear to be on the verge of another revolution. They had much rather fight among themselves, than with us, or I should say the troops of the United States, for they then know with whom they are fighting.

"Santa Anna's army at San Luis were in a state of starvation in fact. One regiment had left for the city of Mexico, and it is reported that Santa Anna had taken up his march for Tampico." (Doubtful!) "He most likely will have got back to Mexico to put down the party against him if he can.

"The transport ship May Flower, with Virginia Volunteers, anchored here this morning. I called with our consul on board. They are in fine spirits and sail again in the morning for Point Isabel."

Some editor has wilfully perpetrated the following rhyme:

"Hail beauteous maid of grace divine,
Why do you wear a bump behind!"

To which a bustling maid makes the following retort:

"Hail dandies with your broad tailed coats,
Why do you wear your hair like goats?"

NO APOLOGY FOR WIGS.

Please to read without prejudice the following communications, which in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.
Shafibury, Bennington Co., Vt., Aug. 4, 1840.
Dr. Jayne: Dear Sir—Being acquainted with some of those recommending your HAIR TONIC, to wit: Rev. C. C. Park, Rev. Dr. Babcock, and Rev. L. Fletcher, I purchased two bottles, with a view to make an experiment. I have been quite bald for about four years, and obliged to wear a wig. Indeed it is constitutional with my family to be bald in early life. I confess, I had but little confidence in the attempt, having been so long bald, and being near 46 years of age, and that part of my head destitute of hair exceedingly smooth. I, however, commenced agreeably to your directions, and used one bottle faithfully and with very little effect, but before I had used the second bottle, a very fine foxy hair became perceptible, which continued to grow, and now having used the third bottle, I have had three cuttings performed, and the prospect is very flattering, that I shall again be blessed with a fine head of hair, ornamental and useful. I am extremely gratified with the prospect, and from observations made, many of my friends and acquaintances, who have heretofore regarded the preparation as deceptive, and only a catch-penny concern, are now well satisfied that it is "TRUTH—NO FICTION."
