andance of fruit, and it has been so clicap at every one could obtain it : and I believe that the disease may be more accuatoly attributed to fruit than the climate.

TAMPICO, Feb. 6th, 1847. The account I seat you yesterday, of the occupation of Chihu chua by our troops, is more generally believed than I anticipated, but Gen. Patterson is of opinion that the only fight of consequence was in the pass leading to the city, and the loss we sustained was very light. I should be happy to state this to you us a matter of certain IY.

The Quartermaster was very busy ves. terday in inspecting the wagons at this postand I believe he reckoned up 450 fit for immediate use, enough to trasport the luggage and provisions for the entire force now here. There was an arrival during the day from the Brazos, and orders to ret all the wagons in readiness may have come from Gen. Scott.

Gen. Patterson has issued his order with regard to the exorbiant demands of the Mexicans, and rents and all dues will have to come down to their original value.

The General says that he has had information that there was much neglect of duty on the part of the officers and crew of the Ondiaka, and that he shall keep them in custody until the matter is investigated.

NEW ORLEANS, 25th, 1847. The latest from the Brazos.

At an early hour this mortang the schr. Harmonious Walker, Capt. Malealmarrived from the Brazos, having made the passage in six days. Through the courtrey of Mr. Martin, who came passenger on the school er, we are placed in possession of our correspondence to the 19th inst. and various itgas of intelligence.

Mr. Linie writes on the 18th that there were transports enough at the Brizos for all the remaining troops of Worth's division, and that every moment of calm weathey was improved in embarking them .----In three good days more the whole command would be off.

By this arrival we have further informatice in regard to the troops captured by Gen. Minon. In Minon's own modest report, which is before us, his prisoners are set down at 82 in ad.

Besides the Americans taken by him, there was one Mexican named Galeano, who had been with our troops us a spy the sword, although Major Games interceded for intm.

We have before us another list of the captured, which includes the names of Capt. Wm. Heady of Kentucky. Capt. Heady was c. pured two days after Major Borland's party by a party of rancheros. His fate is uncertain.

The party captured is now said to have consisted of fifty Arkansas troops and two parties of Kentucky troops, one of twenty tive, the other of eighteen.

Their camp was surrounded in the night after they had marched forty miles.
