

and the office sought for him, it is supposed, was that of commander-in-chief of the army, Rosa's letter to the commissioner is firm. He denies the request of the commissioner, and enjoins upon the authorities of San Luis the duty of immediately arresting Paredes, as one who has violated the laws of the country, and attempted to introduce into it a monarchical government. We have yet to learn, though, which of the two, Peñ y Peña or Paredes, is the stronger man.

Gen Valencia died in this city on the 25th inst, of apoplexy. He, it will be remembered, commanded the Mexican army at the battle of Conteras, and his defence of the order of Santa Anna took from that position has given him an excuse for his defeats in Mexico. There is no doubt the sight of Valencia at Conteras exercised great influence upon the Mexican battles which followed. He led seven thousand five hundred best troops in the Mexican army and had with him twenty-seven pieces of artillery, and it is the opinion of the most intelligent officers of our army that if he had obeyed the orders of Santa Anna, the taking of the capital must have been a work of still greater difficulty than it was.

DEMOCRATIC NOMINATION.

FOR GOVERNOR,

DAVID S. REID,
(OF ROCKINGHAM.)

FOR STATE SENATOR,

WILLIAM SANDER,

FOR THE COMMONS,

James H. White,
Samuel N. Stowe,
F. D. Reinhardt,
Gilbert B. Routh.

We are requested to announce J. W. LOWE, as a candidate for Sheriff of Lincoln County, at the next election. Apr 8

We are requested to announce Capt. Wm. D. WYKOFF, as a candidate for Sheriff of Catawba County, at the next election. Apr 20

MAY DAY.—Monday next, we understand, will be celebrated by the ladies of the Female Academy, of Lincolnton; and we congratulate the public on the continuance of this innocent and pleasing custom, established in the reign of "good Queen Bess," when many "a kirtle of rare device, with its party facings and hanging sleeves" showed royalty in miniature, and in fact would have done honor to royalty itself. It was then often, that the nursing of grandeur would become the loadstone of rural attraction, in those "merry times," different from the present, as there is no distinction now, but that of merit. We wish the young ladies every enjoyment, the old ones pleasing recollections. It is the ladies' day—and one which the young gentlemen look to with fond anticipations. May all be realized. Go, youthful visionaries, enjoy thy fitting happiness! No cold philosophy shall trammel the powers which a kind Providence has given thee for happy creations. We see thy eyes sparkle, and thy cheeks glow in the sweet illusion! Gaze on the mock solemnities, and enjoy happiness while thou wilt, reality will come full soon; and for light and hope thou wilt see darkness and sorrow, until that better light appears which comes by God's Revelation, and which shines out from Eternity.

"The Western Continent" is the title of a large and useful family news-paper published at Baltimore, Md., by W. T. Thompson, Esq., author of Maj. Jones' letters: it is not only a large paper, but it is strictly southern, and will be found an agreeable companion at the fireside of the farmer. We have a copy at our office which may be seen, while, contrary to custom, we take pleasure in recommending it to the public.

Our Salem almanac says the 28th will be fair, and that we are to have thunder showers to-day and to-morrow. We will be happy if its predictions prove true, for a shower or two will be quite welcome at this time, Friday, 8 o'clock.

The nomination of the Hon D S Reid seems to have given general satisfaction. We hope to hear to-day of his acceptance and appointment, as we are sure he will lose no time in making his appearance before the people. Let him give us a call, for we will have some big musters before long.

A Post Office, called Early Grove, has been established at Wilson's store, Marshall county, Mississippi; and Maxwell Wilson, Esq. appointed Post Master. Such of our papers as were heretofore sent to Lamar, will be directed to the new office. Persons writing should do as well.

THE CONVENTION, that came off here on Saturday last was one of the most enthusiastic we ever attended; and is acknowledged one of the largest to have been held for any three counties of North Carolina. The result of its Delegation will be found in another column, to which we call public attention, satisfied that every true democrat will go the whole stripe, regardless of those whose only independence consists in an absence of any principles. We do not know that an "Independent" will run, but we do know, that those who fear an honest canvass of their merits in primary assemblies of the people, have nothing to recommend them to either party.

The Hon. Charles Manly, is the Whig candidate for Governor. We only state this for information, as it is but little interest to the people who the Whig central committee nominate. He is of a favored family—a brother of the Judge, who would forsooth be Senator, if successful in his gubernatorial canvass. He ought to be dubbed colonel, like many others we know of; plain charley, is too vulgar.

Errata.—Our devil, while rejoicing in his sobriquet, commits more errors than we can find room or inclination to detail. Thinking a "Daniel had come to judgement," a "sentence he would prepare," he transfigured the Hon. David S. Reid, into the very name his devilish thought "god-like." Our readers will read David for Daniel in August next, however; and thus the devil makes his manly acknowledgements.

The business of the Superior Court, for Gaston County, was concluded by noon, of Tuesday last. Considerable numbers were in attendance, and we were glad to see that the spirit evidenced in the improvement of the town pervaded also the feelings of the people, who met their old local opponents as brother should meet brothers, determined to support the causes they thought right. On the evening of Tuesday, Messrs. Lander, and Stowe addressed a large concourse of the people, and J. H. White, Esq. also signified his acceptance of the nomination of the Convention,—a call on his time, and a sacrifice of his pecuniary interests, which he felt due to those who had hitherto reposed their confidence in him.

Of the speakers it is unnecessary for us to say more, as the public will hear for themselves—it is the people who have made the gentlemen who they are—there verdict will be cheerfully abided by. We hope that verdict will be the ticket the whole ticket, and no thing but the ticket.

Messrs B. Morris, and H. Gaston announced themselves as candidates for Sheriff of Gaston county.

We propose that instead of Gen. Scott assuming all the credit of our late victories in Mexico, that some of the credit be divided among the hundreds of graduates of West Point by whom he was surrounded, and the plain rank and file who did the fighting, regardless of his claims to the Presidency! We have lost several of our own brave boys, in Mexico—we have several who bear honorable wounds; we think them entitled to as full a share of honor, as epauletted gentry, with salaries to match!

Our Whig friends are referred to the Prospectus for a paper in Rutherfordton, by Mr. T. A. Hayden, a gentleman of much merit, and one that will do what he promises.—We are sorry he is a Whig, for we cannot wish his principles success, but as an Editor, and a Printer, we tender him the hand of good fellowship.

The will of J. J. Astor, of New York seems to interest many of our brother Editors, like that of Stephen Girard. We do not know that the public feel any sympathy for the two old misers who having skinned the world, make a boast through their Executors of having left what they could not carry with them. Each of these men had it often in their power to bestow the plain unostentatious charity, that seeketh not for publicity, but the reward of a good conscience and a clear heart. The widow's mite was nobly given; and such as it, has more real liberality in its purpose than all the Astor's and Girard's in the world.

Mr. Clay's lament is a touching appeal to the sympathies of the Whigs; and we hope the "Et tu Brute" will be understood by the Editors who have raised the Taylor banner. We will not speak of its egotism, for Mr C. was never accused of being a modest man, or he would not have let the world know that he was kissed by so many women.—Poor old fellow, there was no harm in him, no how.

The fruit has been much injured by the frost, since our last paper; and the present appearance of the weather indicates no more favorable change.—We have "danged" the few peach trees we had been nursing the last three months, and are attending to our Peas and Quorn Green—it is.

Our paper to-day will, we think prove interesting; as it contains more than the usual quantity of matter. Read it and judge.

Considerable of a riot occurred in the city of Washington lately, which came near overthrowing the office of the Era, an abolition print. It grew out of the attempted escape of a number of slaves, & of subsequent proceedings relative to them and their abductors.

FOREIGN INTELLIGENCE.

The packet ship *Duchess d'Orleans* has arrived at New York from Havre, bringing three days later news than previously received by the *Hibernia*.

The date of sailing from Havre, or time of arrival at New York is not mentioned. She was advertised to leave on the 24th ult., but may have been detained beyond that time. The absence of date is the less to be regretted, as the intelligence is not of a commercial nature, merely giving the heads of the political news, which is of a most important character. An express steambot was employed to bring the papers from the vessel.

A Republic has been declared in Prussia, and the King and his Ministers have been imprisoned. The Prince has made his escape, and taken refuge in England.

The revolution in Lombardy has proved to be successful, but the contest is said to have been of a most bloody character. The King of Naples has yielded to the people all the concessions that have been demanded by them.

England still continues to protest against the marriage of Montpensier. It is believed that notwithstanding the concessions made to the people by the Emperor of Austria, that he will finally be compelled to abdicate his throne.

The Emperor of Russia has issued a ukase ordering the army into the field, because of alliance (so says our dispatch) with the United States, and to put a stop to the flood of anarchy now prevailing throughout Europe.

There had been some disturbance in Lyons and Havre between the people and the soldiery, but it was speedily and easily quieted.

The accounts of the Polish Revolution are entirely confirmed. There is nothing later from England or Ireland.

ARRIVAL OF THE ACADIA.

Liverpool, April 8.

There was a general commotion throughout the whole of Europe. Austria was entirely disorganized.

A difficulty had arisen between Holland and Russia, on account of encouraging Poland.

The triumph of the people of Hanover had been completed.

Russia was flooding Poland with troops.

Belgium, Prussia and Austria remonstrated against the demonstrations made in Paris against their respective governments.

Great excitement existed in Ireland and England, Government had issued a Proclamation against the Chartist demonstrations, which were to take place on the 10th inst. forbidding the people to assemble, which created great excitement, and preparations were making to go on with renewed vigor and determination.

Government was using all its power to suppress the attempt at Rebellion in Ireland.

Appeals for equal rights were energetic, and declarations made that it was now too late to repeal the Union—and that a Republic alone would satisfy the people.

SOUTH O'BRIEN and delegates from the Repeal Association waited on LAMARTINE in Paris. He expressed sympathy, but said nothing offensive to England, declaring the determination of France not to interfere with the internal affairs of other nations.

France was quiet, and tranquility prevailed in Lyons. The elections in the National Guards resulted favorably to the republican candidates.

AMZI FORD.

Dallas, Gaston County, April 29, 1848.

PROSPECTUS

OF THE MOUNTAIN BANNER.

The Subscriber designs to commence the publication of a new Weekly Paper in the village of Rutherfordton, N. C. to be called the MOUNTAIN BANNER. Mr. F. LOZG Wilson will be associated with him in the editorial department, and no pains will be spared to give general satisfaction, by presenting such a variety that every one may be able to find something to suit his own peculiar taste. It will be the aim of the editors to render this journal a welcome visitor not only to the politician, the merchant and farmer, but to all professions; and above all, to the family fireside. Besides the current news of the day, its columns will embrace tales, sketches, essays, poetry, wit, humor, &c. and nothing will be admitted to which the charge of immorality or indecorum can in any wise attach. It will advocate Southern rights, and a portion of it will be from time to time devoted to the development of the resources of the South. As regards politics, it will be an independent, but fair exponent of Whig principles; but no resort will be made to vulgar vituperation or violent attacks upon those who honestly differ in opinion. Mindful of the old adage, that "persuasion is better than force," its political matter will be calm and dispassionate; aiming rather to include its doctrines by reason and truth, than by violence and ultra partisan rage.

Though the Banner will be intended to benefit Western North Carolina in particular, the aim of the Proprietor will be to render it worthy of a more extended circulation; and he appeals to the public generally for support, feeling confident that he will be able to return a full equivalent to all who may aid him with their patronage.

TERMS.—Two Dollars a year, in advance, or it paid within three months, Two dollars and Fifty cents, if not paid until the expiration of six months; and Three Dollars at the end of the year.

The Paper will be published as soon as a sufficient number of subscribers are obtained to warrant the enterprise.
