Notice to those Concerned : As it is contemplated to urge to completior, the passage of the French relief bills now a.d long pending in each House of Congress, I re- spectfully advise the succeeders of the original sufferers—now their third generation—to hold personal interviews with, or by brief letters (without details) to their Senators and Repre- sentatives, manifesting an interest in said bills, and invoking their support thereof. This course is the more necessary, as the memorals of the original sufferers—all long since dead—and the memorials of their Troper sub- sequent representatives, made from time to time within the past seventy years, and now on the files of Congress, being about four thou- sand memorials, are, from the lapse of time, not now fresh, if at all, in the memory of the present Congress. The direct object is, that the present claim- suits shall thus make known to their sworn protectors their interest in said bills by direct application, (not through agents) and an earnest invocation of their aid.
