Printers' Monument to Mr. Greeley.

The printers of the United States propose to erect to the memory of Horace Greeley a strictly printers' monument, to be cast of types from all the printing offices of the United States, each office being requested to contribute two pounds of type; and on the third day of February, which is the birth day of Mr. Greeley, every printer in the country is requested to contribute the worth of a thousand ems, say fifty cents, toward the erection of the monument.

The Era will at once forward the type, and the compositors of this office, on the third of February, will all forward their mite to the parties authorized to receive it. It is hoped that no printing office in North Carolina will fail to do likewise.

### Our Republican Press.

The Era to-day presents advertisements of all the Republican pa- colored men of Raleigh, and signed pers of North Carolina.

These have been prepared in this office, and each one of the contemporaries of the Era are requested to forward matter of their own to take the place of that here presented, if there shall be found any errors, or if the style of the advertisements shall not suit.

The Era would take occasion here to urge upon all the Republicans of the State the duty and absolute necessity of sustaining their press; and while, as the central paper of the State, it is reaching out and soliciting an increased support from every county and neighborhood of the State, Republicans are at the same time reminded that their first duty is to their home papers.

Sustain, liberally and cheerfully all the papers we now have, and let their number be multiplied three-fold, as speedily as may be.

## The President's Salary.

Mr. Banks, of Mussachusetts, has introduced a bill in the Lower House of the Congress, raising the salary of the President from twentv-five to fifty thousand dollars .-We hope this on will become a law before the expiration of the present Congress on the 4th of March next. Should the bill pass as drawn by Mr. Banks, it would be lean justice at the sum of fifty thousand dollars. Nearly a century ago, when there were but thirteen States and three millions of people, the President received the same salary that he does now. By the census of 1870, General Grant is a success, and that your appointment President of thirty-eight millions of people! There are thirty-seven States and nearly a dozen Territories! The duties and responsibilities of the position have increased an hundred fold; prices are four times as great as when Washington was President; and a gold dollar in those days would buy six times as much as the "Almighty dollar" will buy in this, the year of our Lord one thousand eight hundred and seventy-three. Therefore, if cept the accompanying commission, and the Congress should see fit to in- give me your valuable aid in an honest crease the salary to one hundred effort to build up, and maintain, a good thousand dollars, it would not do more than meet the requirements of justice.

The salary of the British Minister to France is eighty thousand dollars per annum, besides his outfit MR. BATTLE'S LETTER OF ACCEPTANCE. and other sums which make up an hundred thousand dollars. The picayune notions which have deterred the Congress from increasing the salary of many government officials should have played out ere this.

It is extravagant economy to fix salaries at amounts which by no means compare with the services rendered and required. Salaries tions. Reciprocating and honoring your should be liberal—that is—at figures sufficiently large, though not extravagant, to insure the very best talent the State or Nation affords. There are county offices in this State which pay more than the salary of the President. The dignity of the position and the grandeur of the Republic demand the immediate passage of Mr. Banks'

and successful system of common schools in North Carolina, Governor Caldwell has discarded all mere political thought or consideration in this matter, and it is to be hoped that no one, of any party, will view or discuss the appointment in a partizan light or from a political stand-point. There is nothing of political significance in the appointment, and it is in no sense a political position; but amply qualified in an educational, legal and financial point of view, qualities all combined, which, perhaps, no other available gentleman of the State possesses in a higher degree; and in view of the poverty of the salary, inadequate for the living of any gentleman of family and attainments, the Era believes the appointment the wisest that could have been made under all the circumstances, and that Mr. Battle will give perfect satisfaction to everybody; and successfully establishing a good system of popular schools, cause the appointment to redound, not only to the educational advantages of the people, but to the Republican party through such success under a Republican administration of the affairs of the State.

Governor, circulated by the leading by leading and staunch white and colored Republicans of the city, who know Mr. Battle, and have been voting for him in all the municipal elections in which he has been a candidate:—

To His Excellency,

HONORABLE TOD R. CALDWELL, Governor of North Carolina:

We, the undersigned, in view of the importance of filling the office of Superintendent of Public Instruction by an appointment that will secure the confidence of both political parties, and best subserve the interests and promote the cause of Education in our State, having canvassed the entire field, have concluded that we know of no one who can better fill the position, in our views, than the Hon. Kemp P. Battle.

We therefore respectfully recommend him to your earnest consideration for

the appointment. In tendering the appointment, the Governor transmitted this letter

to Mr. Battle:-

EXECUTIVE DEPARTMENT,

Raleigh, 14th January, 1873. KEMP P. BATTLE, Esq., Dear Sir-The office of Superintendent of Public Instruction having become vacant by the death of Rev. Jas. Reid, it devolves upon me to fill the vacancy. This is an office of great importance to the people of both races, and the success or failure of our common schools is largely dependent upon the qualifications and fitness of the Superintendent of Public Instruction. After maturely considering the matter in all its aspects, I have determined to tender the office to you. From a long acquaintance, I believe that you possess, in an eminent degree, all the qualities and qualifications which are necessary and requisite to make our common schools will give general, if not universal satisfaction. I am further persuaded that your freedom from political prejudice and intolerance, will prompt you to take as much interest, and manifest as much zeal, in behalf of the education, and moral culture of one race of our fellow citizens as of the other; and that you will know, or favor, or ignore, no one on account of his or her race or previous condition; but that you will administer this office, and discharge its duties, impartially, and without favor or fear. I trust, Sir, that you will acsystem of common schools in our State. I am, Sir, very truly,

Your obedient servant, TOD R. CALDWELL, Governor.

RALEIGH, Jan. 14, 1873.

His Excellency, TOD R. CALDWELL,

Governor of North Carolina: Dear Sir :- After careful deliberation, I deem it my duty to accept the position of Superintendent of Public Instruction which you have so unexpectedly tendered me.

The cause of popular education should be raised above all partizan consideramotives in endevoring to effect this great object, as shown in the appointment of one not your party, I shall labor with earnest desire, as the constitution provides, to diffuse the light of knowledge equally and impartially among all the youth of the State, without bias of politics or bias of race.

To aid in relieving the intellectual famine of the rising generation, in removing from the State the blight of ignorance, in re-kindling the extinguish-

ed fires of our venerable University, once so honored and so useful, in placing North Carolina abreast with the most cultured of English speaking peopeople, is surely worthy the ambition of any man.

Deeply impressed, notwithstanding your favorable opinion, with a sense of my want of the requisite qualifications to accomplish the task, yet, intending to bring to the work, industry and zeal, I will enter on my duties, relying on Looking to the good of the whole your efficient aid, as well as on the copeople, and desiring to establish a operation of the Board of Education, permanent, practicable, efficient the Trustees of the University, and most of all the Legislature of the

Taking the arrangement of Senator Districts by the last Legislature, al gether, by our standing table, we ] it in the very best light for the "Den crats," it is susceptible of being mad The population of the State by the Census reports under which the Sen torial Districts were arranged, is 1,07 461 souls. The population divid among fifty Senators would give average population to each Senator

But to the thirty-two Conservative Senatorial Districts the Legislature allotted an average of

Short to each Democratic Senator Now, to each Republican Senatorial District this same Legislature allotted a population of Proper average,

An excess over proper average, a population to each Republscan Senator, of Taking the average population allotted to Republican Senatorial

and abstracting therefrom the average populations in the Conservative Districts, we have each Republican Sena-

tor representing a population of 1,4 more than the Legislature has permitted its Conservative Senators to represent.

This we say is the very best light the matter can be placed in. It is the best phase of the gerrymander. We ask the public to examine into it closely and prepare their minds for the exhibition of infamous gerrymandering we shall proceed to give them from time to time, reference being always had to the facts and figures contained in and suggested by the table standing above.
