Vaccination in the Penitentiary.

The Physician to the Penitentiary desires the Era to state, that, the Board had ordered the convicts to be vaccinated some days since, and he is only waiting for some nonhumanized vaccine virus ordered from New York, and daily expected.

The omission to have the convicts vaccinated as they enter was an error in the first Board, but hereafter that matter will be attended to.

quarters of the convicts, has been provided against contagion; and the Board has very properly agreed to allow the Physician fifty cents remuneration for each convict and employe vaccinated.

The Legislature.

The Christmas recess having expired, the Legislature re-assembled to-day to complete its first session.

The duty before that body is to lift the State from the slough of material despond and the despair of financial ruin, make a short session, and go home.

The Governor, who is the head of the State, has set the Legislature and the people an example of patriotism and non-partisan feeling in the matter of the educational interests of the State, and now for the material welfare of North Carolina, the legislative branch of the State government is looked to to do its duty, that we may all, as North Carolinans, together elevate the character of our State, insure the development and prosperity of our section, and promote the peace and happiness of our people.

The Era appeals to the good sense and patriotic feeling of the General Assembly, and in the hope that all can rise above the level of mere party, welcomes the return of the Legislature, and invokes harmony, good fe-ling and patriotic, useful action.

The Appointment of Mr. Battle.

The appointment of Hon. Kemp have done. P. Battle to the office of Superintenpartisan stand-point.

The Daily News says :- "The "office being non-partizan in its "character, Governor Caldwell has "acted wisely and well in selecting "a gentleman so well fitted by edu-"cation, talents, energy, practical "judgment and patriotic zeal."

I am so well pleased at the appoint- tinel. ment of the Hon. Kemp P. It is well known that thousands of our people have left the State, hoping to find a School system that would prepare their children for useful citizens in all departments of business. HENRY S. KEITH. Raleigh, January 14, 1873.

The Superintendent of Public Instruction.

Governor Caldwell tendered the position of Superintendent of Public Instruction to Rev. Charles Phillips, of must be deplored that the Legislature in the partisan madness it has displayed in reference to the salaries of Republican officials has cut down the salary of this important office so low that a gentleman of the learning and talents of Dr. Phillips must declince the position on account of inadequate pay.-Era.

We are sorry to see so unfair a statement as the above. The Era since the election has assumed a fairer tone and has not descended to the Pool pamphlet style of misrepresentation.

But the Era knows full well that the best Superintendent of Public Instruction the State ever had was C. H. Wiley on a salary of \$1,500 per annum. The Radicals came into power, doubled the | their own interests, will advertise salary and gave the office to a carpetbagger and gave him as an Assistant, a negro on a salary of \$1,700. If these two worthies did any thing besides draw among laboring men and others salaries and pick up things, the State is ignorant of what it was. The Conservatives abolished the negro's office and reduced the salary of the Principal, but not so low as to make Nereus Menden-A pest-house, remote from the hall and Rev. > One is naturally pained to witness the unfairness with which the Home makes its statements; and it is difficult to understand how one of the age, knowledge and experience of General D. H. Hill could have fallen into such error.

> First, in reference to C. H. Wiley, and his salary before the war; General Hill surely does not mean to compare a dollar before the war with a dollar now-a \$1,500 salary then with a \$1,500 salary now; nor does he forget that in the changed condition of the colored race, and from the fortunes of war, the number of children to be educated in common schools are double what they were in 1860; and hence the duties of a Superintendent of Public Instruction now, are, at least double those of the Chairman of Common Schools in 1860.

They are the Great Blood Purifier and a Life-giving Principle. a Perfect, Renovator and Invigorator of the Sys. tem, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease, No Person can take these Bitters according to directions, and remain longun well,

provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair. Dyspepsia or Indigestion, fleadache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal. and one bottle will prove a better guarantee of its merits than a lengthy advertisement. For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so

decided an influence that a marked improvement is soon perceptible. For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indi-gestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitlated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs and in Bilious Diseases.
