#### From the Cleveland Ohio Herald. Flat Rock, North Carolina, as a Resort for Invalids.

EDS. HERALD: In a recent communication I spoke of the scenery and people of Western North Carolina. In this propose to treat of the salubrity of the climate, and its adaptation to persons of weak lungs, and those subject to throat ailments.

It has been common in former times to send this class of patients to Florida and South Carolina for relief, but long experience and recent discoveries in the medical science prove conclusively that an atmosphere laden with moisture, such as prevails in those States, is most objectionable, and that in selecting a proper location for the successful treatment or pulmonary disease there are three conditions, each of which demand strict attention, namely, altitude, mild

temperature, and pervious soil.

The importance of the first condition lies in the fact that the air of mountain regions is very stimulating; it accelerates the circulation of the blood, quickens and deepens the respiration, and gives bouyancy to the feelings. A friend writing to me from Flat Rock a few days ago says: "Here I can walk from morning to night without feeling fatigued." The opposite of this is true of low, moist countries. They engender weakness, languor and inactivity. The importance of the second condition is obvious, as weak and diseased

lungs cannot stand intense cold. The third condition is equally important, though not so apparent. To impress this more fully on the minds of your readers I quote as follows from the Scotch-American Journal of March

"A valuable paper on the 'Relation of Geology to the Consumption Deathrate,' has been communicated to the 'Geological Magazine' by Mr. Whittaker of the Geological Survey. The author's observations are mainly confined to the counties of Surrey, Sussex and Kent, in which he has made a geological and statistical examination. The whole paper is replete with interesting and valuable information, but we have space only for the general conclusion to which the author has been led by the examination. They are as follows: 1. That on pervious soils there is less consumption than on impervious soils. 2. That on high lying pervious soils there is less consumption than on lowlying, pervious soils. 3. That on sloping, impervious soils there is less consumption than on flat, impervious soils. 4. These references must be put along with the other fact that artificial removal of subsoil water alone, by various sanitary works, has largely decreased consumption, from which follows the general inference that wetness of the soil is a great cause of consumption, the author having found in the course of his enquiries no other to go along with the consumption death-rate to any extent. It is mentioned that | via Petersburg, Richmond and Washington Dr. Bowditch has made the same observations in America, and contends that soil moisture is one of the chief causes of consumption in New England; and the Registrar-Genera! of Scotland, applying the theory to eight large towns, accepts it as true. It is very properly pointed out that these observations introduce a new principle and object in carrying out drainage works, aid consumptive people in choosing healthy living-places, and may tend to the lessening of a disease wnich

is the special curse of our country." I know of no country where the conditions here set forth are so thoroughly blended together as the Flat Rock Region of western North Carolina, and the effects which I have witnessed of its curative agency are almost incredible, but strange to say, for every one who goes to the highlands of the South seeking health and vigor, twenty go to the low flat swamps of Florida, and the result, although sad, is easily told.

The portion of the country here described is famous for its abundant supply of pure spring water. It is decidedly the best water I have seen in any country, being soft, cold and as clear R. M. L.

AN AUSTRALIAN ROMANCE.-Australia is a convenient region of romance, being too distant for close investigation by the skeptical. For example; An is without doubt, the best article in the English nobleman falls in love with market, for blueing clothes. It will color his mother's pretty maid, a sort of more water than four times the same weight Becky Sharp. She avoids her noble of indigo, and much more than any other lover and complains that she is "per- | wash blue in the market. The only genuine secuted." So milord takes a year's trip is that put up at in Europe, becomes love sick as well as sea sick crossing the Channel, and writes | No. 233 North Second St., Philadelphia, Pa. her an offer of marriage. She doubts, he swears fidelity, and marries her Barlow's name on them; all others are privately. A daughter is born, the mother dies, and the father weds again. Twenty-five years elapse; the girl falls in love with one who has the misfortune to kill his superior and is transported. She follows him to Botany | Trustees of the University of North Caro-Bay. In an "unfortunate affair" her lina, will be held in the Executive Office, lover loses his life and his disconsolate at 12 o'clock, M., on the 3rd Tuesday, being lady-love becomes a hand-maiden in the house of a poor settler. Her father dies childless, a persevering solicitor seeks the daughter so long disowned, and she becomes Lady Elizabeth Morton, with \$200,000 a year.

"THAT LITTLE DIFFICULTY."-Edwin Booth was traveling on the cars. The passengers, hearing he was aboard, naturally evinced curiosity to see the great actor. Among the passengers was a genuine Vermonter, who occu- Carolina, to fill the vacancy occasioned by pied a seat some four or five benches in the rear of the great object. By slipping from one seat to another he soon occupied the one immediately "aft" of Booth. His anxiety was great. Reaching over and touching Edwin on the shoulder, he said:

"Ah! eh! excuse me, sir, but is your name Beuth ?" In his well-modulated voice, Booth replied: "Yes, sir, my name is Booth."

name Edwin Beuth ?" "Yes, sir, my name is Edwin Booth." "Really, eh! ah! sir; but you must really excuse me, sir, but ah! eh! sir, are you brother to the gentleman who had the little difficulty with Mr. Lin-

coln at the theatre?"

Wonderful Curative Effects. Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers,"&c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURI-FIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring theblood te a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral potson or other means, and the vital organs wasted

tism and Gout, Dyspepsia or Indigestion, Billious, Remittent and Intermittent Fevers. Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated DYSPEPSIA OR INDIGESTION, Head-

Chest, Dizziness, Sour Eructations of the Stomach, the Heart, Inflammation of the Lungs, Pain in the regions of the Ridneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. They invigorate the Stomach and stimulate the torpid

Liver and Bowels, which render them of unequalled parting new life and vigor to the whole system.

Rheum, Plotches, Spots, Pimples, Pustules, Boils, Carbuncles. Hing-Worms. Scald Head, Sore Eyes, Erysipelas, Itch. Scurfs. Discolorations of the Skin. Humors and Diseases of the Skin. of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their cura-

purities bursting through the oxin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth, whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

#### THE AMERICAN WASHER! PRICE, \$5.50.

The American Washer Saves Money, Time, and

The Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.

In calling public attention to this little machine, a few of the invaluable qualities, not possessed by any other washing mahime yet invented,) are here enumerated. It is the smallest, most compact, most

portable, most simple in construction, most easily operated. A child ten years old, with a few hours practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to annoy, no delay in adapting! It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blanket. Three shirts at a time, washing thoroughly! In a word, the ablution of any fabric, from a Quilt to a Lace Curtain or Cambric Handkerchief, are equally within the capacity of this LITTLE GEM! It can be fastened to any tub and taken off at will.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleansing efficacy and utility are banished, and the doubter and detractor at once become the fast friends of the machine.

ers, and from hundreds who have thrown aside the unwieldy. useless machines, which have signally failed to accomplish the object promised in prominent and loud sound-

ing advertisements. It is as perfect for washing as a wringer is for wringing. The price another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small

investment so soon. \$5.50. All that is asked for this GREAT LABOR SAVER, is a fair trial. We guarantee each machine to do its work perfectly.

SOLE AGENTS FOR THE UNITED STATES. A. H. FRANCISCUS & CC., 513 Market St., Philad'a. Pa. The largest and cheapest WOODEN WARE HOUSE in the United States.

### EVENING POST FOR 1872.

PRICES REDUCED.

THE EVENING POST continues to be, as it has been for seventy years, the earnest advocate of national unity, of popular government, of the purest public morality, of equal
rights for all men, of freedom in opinion
in speech and in trade. It is not a partisan
journal, but, holding the essential principles of the Republican party to be true, it
has supported the candidates of that party
whenever they have fairly represented its
principles. It will still contend for equal
rights against all form of slavery and proscription; for the cause of the whole people
against all factions, monopolies, and personal ambition. Freely criticising the public acts and views of statesmen in both parties, it will always be resolute in its devotion to principle. has been for seventy years, the earnest advotion to principle.

A political struggle of absorbing interest is now before the honest citizens of New York. The fraud and bribery practised by "the Tammany Ring" in this city and in the state have become intolerable. Public opinion is preparing for a revolution which will crush the power of these conspirators. THE EVENING POST has resolutely opposed them from the first, though it has at times stood nearly alone in the contest. It will curing for New York a government in We have testimonials without end, setting | which such rings shall be impossible; one which shall solve for other cities also the from the people of the state a legislature which will repeal the present city charter, and give New York, for the first time, a government truly representing its own people and directly responsible, to them. A momentous national canvass is also

near at hand. The great questions at issue will involve the constitutional amendments and universal suffrage; the peace of the Southern States; amnesty for political offences; return to specie payments; a reform of the civil service; reduction of taxation; good faith in meeting our national obligations; repeal of monopoly duties, falsely called "proctection;" and a wise, firm, moderate and magnanimous foreign policy. THE EVENING POST will employ all the resources it can command to inform its readers thoroughly upon the relations of the contendings parties to each of these questions, and to direct public opinion to the true so-lution of them. It will labor to give the most important issues at stake their due prominence, and will regard other questions as secondary until peace and the equal rights of all men are established throughout the The EVENING Post aims to supply all

that intelligent families can desire in a newspaper. Every noteworthy event is chronicled in its telegrahic and other news columns as it occurs, making them a continuous history of the world. This department is now constantly improving. No sentence is admitted into any part of the paper which may not properly be read in the family circle. Its literary intelligence, and its notices and criticisms of all that is new in literature and art, will be full, able and impartial. Its scientific department is enlarging as popular interest in such subjects extends and deepens, and will receive frequent contributions from the highest scientific authorities in the country. The correspondence of the EVENING POST from all parts of Europe and of this country, is ful!, varied and able, and it is steadily improving. Its financial and commercial reports are well known for their accuracy and impartiality. Arrangements have just been made to obtain for its columns agricultural information still more complete than before, and as trustworty. Its shipping news, its court reports and its annals of all public events will be prepared with the utmost care.

We will supply the EVENING POST as
