ty-one pounds each.

Flax-Culture.

Progress in Egypt.

"The manure is applied the fallow or root crops. In order to secure a good crop of rye, it is almost indispensable to have fallow precede it. The farm-yard manure is from preference drawn out to the fields in winter on sleds, Marshall County, Iowa. In Wa-tonwan County, Minnesota, where and put into large rectangular heaps, which ought to be covered last year, 1,000 acres were sown, the over with peat-earth, or the earth acreage has been enlarged to 7,000. round about the heaps. In spring, Flax is also raised in Nicollet as early as the condition of the land allows, it is spread and plowed in be sown very early, in order to se- realizing a fair profit. It does well culation, consequently gathering imcure a heavy crop. The fallow is Clackamas River, Oregon. Very manured after having been well few lint mills are to be found in wrought and cleared of weeds. The these new flax growing regions, manure is then plowed in and left till shortly before the rye is sown, unless the fallow should require to seed. The lint is therefore only a be harrowed or quelled, to destroy weeds. I now give all the crops two hundred-weight of Balur guano gin of profit secured to the farmer superphosphate, which is applied by utilizing this material. In the winter-grain immediately before or after sowing, so that it culture is also increasing rapidly. may get harrowed in. For the The results last year were very satspring grain it is applied in the same manner; and for the rootcrops it is sown broad-cast over the acre, worth \$1.20 per bushel. field just before drilling."

From paths that lead to hell ;

But I hear you saying, John ;

Bound by a fatal spell,

Onward, onward, I feel 1 must go,

To the gift of Jesus, John,

Love adds the spirit's power ;

and while forgiving the guilt of sin,

Then-not only sober, John,

ssociates in sin now all cast off,

What matter their hate, their jeer :

But a sinner saved by grace.

To a sinner saved by grace !
