

RALEIGH, N. C.

THURSDAY, OCT. 23, 1873.

There was in the City one South, whom for his insolence and villany, who thought the perfection of Liberty was licentiousness of Speech.—PLATTEN.

We are authorized to announce that, owing to unavoidable circumstances connected with the mechanical department of the paper, the Mechanics and Workings Journal will not be issued this week. Next week however, the publication of the Journal will be resumed on a permanent basis.

FESTIVAL.—The ladies connected with Hickman Lodge I. O. Good Templars talk of having a festival soon. This lodge we understand is rapidly increasing in members, as also is the order throughout the State.

South Carolina. The Legislature of this State met in extra session at Columbia, on Tuesday, 22nd inst. Gov. Moses, in his message, represents the funded debt at \$75,000,000, and the floating debt at \$3,000,000. He recommends higher taxation, and states that the rates are much lower in South Carolina than the average of the balance of the States.

APPOINTMENT OF DIRECTORS.—His Excellency Gov. Caldwell has appointed the following gentlemen as Directors on the part of the State in the Albemarle and Chesapeake Canal company: C. C. Pool of Pasquotank, A. M. Moore of Chowan, and E. F. Baxter, of Currituck.—Dr. Palemon John of Elizabeth City has been appointed State Proxy. The next meeting is expected to be held at Norfolk, Va. on the 23d inst.

NEW PAPER.—It is rumored that T. C. Evans Esq., formerly editor of the Hillsboro Recorder and at present connected with the Richmond Enquirer intends starting a new paper in this city to be called "Evans Independent." Should the rumor be well founded, we heartily wish that Mr. Evans may meet with success. He is one of the best paragraphs in this State, and has great experience in every department of the Newspaper Business, and besides, he is an energetic, go-ahead, pushing, never give up sort of a fellow. If he takes a notion to succeed, its no use trying to stop him. Something tells us that Evans is going to make a fortune at the newspaper business, yet, and every body knows, that a man who can do that, can do almost anything.

Virginia Canvass. The boasting of the Conservatives in this State, which a short time since was so boisterous and defiant, seems to have been followed by a considerable calm. They are now making close calculations as to how the State is likely to vote, and instead of predicting a majority number feeling thousands they profess to feel satisfied in counting by hundreds. The fact is, Col. Hughes and his associates on the State ticket are making a powerful impression in all sections. The people of Virginia are beginning to find out that the material interests of their State is of far more importance than the dead issues which the old fogy Democracy are raking up. It is easy to perceive from the tone of the Conservative press that they are badly frightened and if we are not much mistaken the days of the whipping post and pillory are numbered in the old Dominion.

GRADED SCHOOLS.—The following communication from the Committee appointed at the recent committee meeting in relation to the establishment of graded schools in this city, explains itself. We give it without comment: To THE CITIZENS OF RALEIGH:—The Committee appointed by you on the subject of Graded Schools for white children, have investigated the matter with an earnest desire to establish the same in this city at once.

They had, however, that without a considerable cash expenditure it is impossible to do so. The Common School Fund is only available under the School Law to the extent of one-half the amount needed, it being raised by voluntary subscription. Since the Committee were appointed, great financial difficulties have occurred, affecting all interests in the United States. After consulting with various friends of education in the city, they think that an appeal at the present time to the liberality of our people will not be successful. Hence the Committee conclude that to avoid entering on so important a work with insufficient means, and consequent danger of failure, it is best to postpone action until an effort can be made to procure such special legislation as will enable them to carry out the objects for which they were appointed. For the Committee: K. P. BATTLE, Chairman.

LECTURE.—Hon. A. M. Waddell lectures in Metropolitan Hall, in Raleigh, on Friday next in aid of the Memphis sufferers. We trust our citizens will turn out in large numbers. Remember the afflicted.

RELIEF FOR THE SUFFERERS.—We learn that a Grand Concert is contemplated in Raleigh for the benefit of the yellow fever sufferers in the South West. Dr. August Doopp, Prof. Schneider of St. Mary's Seminary, Dr. von Meyerhoff of the Raleigh Female Seminary, Prof. Baumann of the Peace Institute, Prof. Grots of Hillsboro and others, will take part in the movement. The concert is expected to take place on Friday, the 31st inst.

We cannot doubt but that our people will respond with their usual generosity to this call upon their sympathy.

Ohio. The returns from this State indicate the election of Hon. Wm. Cox, Democratic candidate for Governor, by about eight hundred majority. We are not greatly surprised at this result. The colored vote of Ohio numbers about twenty thousand and they have not been treated with that consideration by the Republicans of that State, that their numerical force and political influence entitled them. In fact they were almost entirely ignored in the distribution of patronage and hence it was reasonable to suppose they did not take that interest in the late election they otherwise would have done. The Democratic papers are making a great fuss over the election of Cox. We can say to these Gentlemen in the South that Mr. Cox is not their kind of Democrat. He was an old Union Democrat. He sympathized with and did all he could for the Government during the war. He hates Ku Klux and traitors, as his satanic majesty is said to hate Holy water. He has no sympathy with such Democrats as we have in North Carolina. There is a vast difference gentlemen between a war Democrat North, and a Ku-klux Democrat South. The result in Ohio is no victory for you—God forbid it.

Close Up. The Republican party of North Carolina cannot afford to remain in a State of inactivity. The time is rapidly approaching when it will again be summoned to do battle in behalf of the great principles that govern the organization. The coming year, we will be called upon to elect members of the Legislature, clerks of the Superior Courts, Sheriffs and other officers. The present General Assembly by a most shameful and unfair gerrymandering of the different Senatorial Districts of the State is now in the hands of the so-called Conservative party. We can with an united effort hurt these men from position and place the law-making power of the government in the hands of those who will pass such laws as may be productive of the most good to all of our people regardless of caste or color. But in order to accomplish this end the Republican party must present a bold and solid front to the cohorts of Ku Kluxism, Liberal Republicanism and other enemies of the State. Cliques must be abandoned, petty divisions closed up, personal rankings stopped and neighborhood feuds healed. Shoulder to shoulder, marching under a common banner to the music of the Union, Liberty and political equality; actuated by motives of earnest devotion to the principles of our party and having faith in the right as God gives us to see the right, we should not and will not fail. In the meantime we call upon all who are undecided as to their political course to ponder well over the present position of parties in North Carolina. The platform of the Republican party is broad enough for all good men who love their country to stand upon. There is no sectional plank in it. It is framed to give room upon which the liberty loving citizens from every part of our beloved country can safely stand. The battle flag of our party bears no inscription that cannot be endorsed by the men of Texas as well as the men of Maine. This inscription asks nothing of the South that it does not equally demand of the North, East or West. It is made for all, it invites all, it holds out its welcoming hand to the poor laborer and as cordially receives him as it does the proudest in the land. It demands only of those enlisting with us that they be faithful to the Union of these States, that they recognize the broad principles of government as set forth in our Declaration of Independence and that they will discard as a part of their political creed the ideas and relics of barbarism that make sin of a man's color and degradation of his poverty and misfortunes.

Let the people of North Carolina ponder well these things. Compare carefully the proud record of the great Republican party on the one hand and the narrow minded sectional views that govern the so-called Conservative organization on the other. Weigh them in your minds, study them carefully, cast aside all foolish ante-bellum ideas, rise up to the present, cease whining for the past, and resolve in the future to take up your line of march in the ranks of our great party of civilization and progress. Now is a good time to throw off the shackles that have bound you to prejudice, and ally yourself to the friends of truth, fairness, honesty and justice. To our friends in the different counties of North Carolina we would say, go to work at once—organize

your county committees, your township committees, hold neighborhood gatherings—converse with your neighbors; and if any father, reason with them, if your county is Democratic by a small majority determine among yourselves to work unceasingly until that majority is reversed. Democratic members occupy seats in the Legislature from many counties by very small majorities. They can be ousted by a little exertion. See to it. The Era will be happy to hear from our friends often. Write us and let us know the prospects. We stand ready at all times to aid you with our counsel and advice.
