## THE ERA AND EXAMINER. Campaign of 1874-Questions essence of liberty. It is made up of for Republicans.

JOHN T. DEWESE and Josiah Turner, jr., are a very proper pair of "dead ducks" to attempt to defame a man like Judge Watts.

THE baying of a little yelper at the moon merits abont the same attention as the attacks of the Ralergh Sentinel on prominent republicans of this State.

It has been the custom THE gerrymander of the judicial the republican party to hold districts has begun in earnest. this country has ever promulgated the proud principles that underlie the superstructure of your grand organization. No other party ever appealed with such force and directness to the real men of the State; and no other party ever stood on the threshold of another campaign with such high hopes and bright pros-

pects of complete success. But do your duty in the field, and you will sweep at least five of the eight congressional districts; the State at large; carry the legislature, both branches, and secure a

large majority of the counties in the local elections.

The democratic party in North Carolina, fellow-citizens, is done for. they are to enjoy.

### Who is Caught?

The sapient and mellow-voiced senator from Johnston county, Mr. Avera, bent on doing something smart which would redound to the interest of the democratic party, and immortalize himself, introduced a resolution in the senate on Saturday last calling upon Governor Caldwell for an itemized statement of all warrants drawn by the executive on the State treasurer in favor of the State geologist for the years 1868-'69-'70-'71-'72 and '73.
