A Quarrel At The Grave.

N. Y. Times.

A !more disgraceful scene has sel dom been witnessed in a civilized community than that which occurred a; the funeral of Mr. Rudolph Herr, the unfortuate lawyer who commisted suicide in Fourth Place last week. while laboring under mental depression which made him morally irresponsible for the act. It appears that the unhappy gentleman had been born and reared in the Jewish faith, but that since he arrived at manhood he had ceased to attend the public worship of that religion or to observe its facts and festivals. He had married a Presbyterian lady who, with their children, attanded the Rev. Dr. Lyman's Church. at the corner of Court and President streets. At the request of the widow that clergy man agreed to perform the services, and after a brief prayer and impressive address he stated that he would read the burial service as adopted by the Presbyterian Church. A brother of the deceased hereupon rose and declared that he would allow no such service to be read, as his brother was a Jew and not a thristian. The widow insisted that her husband had died a Christian, and had long ceased to be a Jew at all. The altereation proceeded to such length that Justice Bloom, a former partner of the dead man, caution them that if there were any breach of the peace he would have to see to it. The ejectment of the fanatical brother was suggested by friends of the family who were present, but the Christian minister took the wise course of refraining from the further reading of the Scriptures. The brother then brought forward a friend, who, standing at the head of the casket, read some sentences in German, and the remains were then taken to a receiving vault in Greenwood Cemetery, Mr. Herr still angrily declaring that he would take legal measures to gain possession of the remains, have the full Jewish ritual performed over

the Brook yn Eagle to remark : To the body that lay there in the awful impassability of death, what mattered it whether the Christian presbyter or the Jewish rabbi pronounced the benediction? To the spirit, if haply it was conscious of the scene, how infinitely little must the wrangling religionists have appeared in their flight about the God who is "not the "God of the dead but of the living." "I pass," said Charles the First to Bishop Juxon on the scaffold, "from a temporal to an eternal "kingdom, where no disturb-"ance can have place." There are no religious rows in heaven and conflicting dogmatists must lay down the sword and spear of bigotry when the spirit enters on "the Great Unknown."

"Our little systems have their day; They have their day and cease to be;" and a very good thing it is that they do so. Calvin's "Institutes," the Westminister Confession, the Thirty-nine Articles, the Missal and the Breviary, the Catechism of Trent, the Five Books of Moses, the Koran of Mohammed, and the Talmud of the Jewish hair-splitters, are all waste paper when the Rubicon is crossed that divides the world of human dogmas from the world of di-

"GATH" has been interviewing on the question of Grantisth, and the result is the disclosure of the feeling on the part of some significant Republicans that Haves' predecessor will be his successor, if not in the White House certainly in the canvass. Some Republican papers speak slightingly of the Grant movement, but it is plain enough that they will not be much astonished it it shall sweep the party before it. The trouble with the R. publican party is that its strong men are strong enough to defeat each other, while each is so unpopular with great bodies of the American people that if he received the nomination it would profit him nothing.

THE Goldsboro Merserger intimates that the News is guilty of "Cheap Johning" in offering to do the State printing at 40 cents. Perhaps the editor of the Messenger does not know that 40 cents is the average price paid for that class of work throughout the United States. An examination of the acts of the General Assembly of other States will enlighten the editor of the Messenger. When the News talks retrenchment to the Legislature it means it. As an earnest of its sincerity it proposes to commence the pursuing process in its own little front yard. It is a novelty perhaps, but the News is in earnest nevertheless.

HAW RIVER, N. C., Jan. 7, '79. MR. EDITOR: As the Legislature convenes to morrow, and various clerkships have to be filled, we don't think they could elect a better and more suitable man as Enrolling Clerk than Mr. James H Webb, of Alamance. Mr. Webb is a true and tried Democrat, very popular, and well known throughout the 4th and 5th Congressional Districts. He is well fitted for the position, and a working Democrat. Give the young man of the party a

SET UP YOUR BAR AT HOME -Barkeepers in this city pay, on average, \$2 per gallon for whiskey. One gallon contains an average of sixty-five drinks, and at ten cents a drink the poor man pays \$6.50 per gallon for his whiskey. In other words he pays \$2 for the whiskey and \$4.50 to a man for handing it over the bar. Make your wife your barkeeper. Lend her 2 to buy a gallon of whiskey for a beginning, and every time you want a drink go to her and pay ten cents for it. By the time you have drank a gallon she will have six dollars and a half, or enough money to refund the two dollars borrowed of you to pay for another gallon of liquor, and have a balance of two dollars and a half. She will be able to conduct future operations on her own capital, and when you become an inebriate, unable to support yourself, shunned and despised by all respectable persons, your wife will have money enough to keep you until you get ready to fill a runkard's grave.

About the Impeachment of Holden.

Correspondence of the News. I have seen two charges against Gov Vance brought forward by the Merrimon advocates, and only two, I believe that affect his position to the Democratic organization. The 1st. is, that after the party determined in caucus upon the impeachment of Gov. Holden. Gov. Vance used his influence, or execute such laws. That it is the duty rather agreed to use his influence in opposition to the impeachment. The earnest purpose you are continually manifesting in your ably conducted paper to advance the moral, intellectual and material interests of the State: and your constant effort to awaken in the minds of the people a commendable State pride, a feeling very near akin to patriotism, if indeed, it is not the very parent of so high virtue, emboldens me to ask a little space in your columns to endorse the views presented in a recent number by a correspondent who writes over the name, "Cape Fear." It would be well for the State if our legislature, and our schems of public improvement kept constantly in view the interest of all sections and tended to the common goed, but unfortunately much if our legislation has looked to mere local benefit, any many of our railways have been so built as to carry from our own towns and cities the commercial products of our sail and industry and pour these into other States. The road from Greensboro to Danville and even the Raleigh and Gaston road pour our wealth into Virginia, and the Spartanburg and Asheville, and the Chester and Lenoir, and to a certain extent the Statesville and Charlotte railway pour our wealth into the ports of South Carolina. We need railways more thoroughly

North Carolina roads. We need a road from the North-western part of the State to the South-western part. We need a railway from Mount Airy at the foot of the Blue Ridge to Wilmington down by the Sea, passing by and tapping the Yadkin River and running through Winston, Greensboro and Fayetteville. It was the fortune of Fayetteville, within the memory of men scarely past the prime, to command the trade from the Nor h-western part of the State, but now some goes to the Virginia and Cennessee railroad, some to Danville and some to South Carolina, and the old town of Favetteville is left to languish in business although its people are still as good as the best. If such a line of railway as Cape Fear suggests were completed the old activity of Favetteville would at once return. Wilmington would greatly increase her commercial prosperity, Greensboro would revive, the thrift of Winston would be permanently sethe whole State would reap benefit.

the State you will see that from Wilkesboro, the Yadkin River runs North-east until it reaches the eastern b undary of Surry county and then turns suddenly South, just about Bean's Sho als when it breaks through the depression in the Brushy mountain range, which runs nearly parallel with the Blue the upper part of the Valley of the Yadkin, "the rich and fertile" section. Now a direct line from Mount Airy to Winston would almost touch the angle which the River makes at Bean's Shoals. The feasability of making the Yadkin River navigable for boats of light draft to Wilkesboro, at small cost, has been time and again shown by actual survey, and the recent survey by the General Government only confirms what was known before. The river then, if cleared of a few obstructions would afford an outlet for the Valley down to Bean's Shosls, and being touched by the railway from Mount Airy down the Valley of the Arrarat, a noble stream-abounding with finest of water power, cutting its way through vast beds of iron ore, there would be opened up a way not only for the products of the Valley of the Yadkin, but the rich regions at the head of the Dan, and the meadows of New River would of sending out of the State we would draw from Patrick, Floyd, Carroll and Grayson counties in being used to build up Winston, Greensboro, Fayetteville and Wilmington, to say nothing of advantages to other points.
