Legis a tors who have at heart the true interest of North Carolina would do well to think of this. Other Sates may employ their convicts in making thes. A. This is temporary and only income. Opening mines of coal, tron, the is creating capital for the State and an income perpetual. For a short time a work of the convicts how much good is accomplished for present and is are generations. The patriotic Legislators with minds and hearts large enough to take in the entire State a: d scorn selfish and local intereststhese men create prosperity and make

good laws. Juo. M. Morehead, Juo. A. Gilmer, Calvin Graves, Frank Caldwell and others, thought, no doubt, they were doing much for the old North State in uniting the moun amsto the Sea. And they did the best that could have been done at that time, when they urged the building of the N rth Carolina Rail Row i. Lufor: unately nature did not intend any place but Wilmington for our commercial metropolis. Inte tosurmountable fact has been somewhat ign or d by our Legislature and by our public spirited men. Bit the memory of these men should be cherished for the good they did and intended.

The shortest way from he Moun tains to the Sex is across the S ate-not lengthwase the shoe string. Firtunateis a good seaport is convenient at Wil in nation. Still more fortunately such a tallway would penetrate the best agricultu, al section. Coal, iron copper, lime in Stokes, Rockingham and Surry would make a railroad pay more income to the State than the convicts would in making shoes. Virginis at this moment striving for the tra e of Dan and Yadkin. Charleston will reap the harvest which North Carolina has sowed in developing the As evide country and beyond. The Legislature can now do something for the State which can not be appropriated by others, to-wit, build up our towns and con. try. Wilmington ought to have 100,000 inh bitants. The inland towns of North Carolina ought to be doubled in population. Will North Carolina sleep forever?

Let the Legislature settle the State debt in some shape, and with sleeves rolled up we will go to work and develop the resources of the State. Remember if nothing be done this si ting of the Legislature two years will roll ating their slow length before another meets. We have the greates: S ate in the Union, in many respects, if her sons were more chargetic, plucky and public spirited. Intellectually sue can b ast, but commercially not much.

---Chapel Hill's Future.

Ledger The future prospects of Chapel Hill are encouraging. Our friends tell us that the railroad will certainly be built within the next year, that a sufficient appropriation to carry on the Normal School will be allowed, and that everything that can be done to build up the Luiverency will receive a hearty supjoit from the Legislature. Strangers ir- moving here, new houses are bling luilt and our merchants and citizens ere smiling over the prospects. Sustain your paper. HOME REMEDY A CERTAIN AND SPEEDY GURF FOR SCROFULA

A BRIEF HISTORY:

The following is from the Raleigh News

advertisement : "Years ago an old Indian left a receipt for curing Scroinia with Mrs Person's father, sirs. Person lives in Franklinton, or in tha section. A cutid was born to Mrs, Person, and it had the Scrotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs grawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed the child. Her child now lives well an hearty. More than this: Only a few months since a South Carollman, whose name has s.ippeu us, was suffering with some scrolulous affection on the heel, he had been to the Hot Springs in Araansas, and from there he went to Kittrell Springs. Nothing dfu him any go a. At Kitt ell's they told him of Mrs. Person's recipe, and Dr. wrote to Mrs Person if she cured that South Caro linian her receipt was worth money. And the south Carot nian sent her word if she car a mm he would give her five hanured donors. She sent him directions what to do, and added if they cured tilm he und send her twenty-five dollars; she wouldn't ask five numered. The South caronician went home, and shorely afterard sent Mrs. Person a check for twentyave donars, and wrote the most gratefullet-ter he knew how. Biess these old indians. We would like to have one for a near neigh-

MOORESVILLE, IREDELL CO., N. C. Being desirous of adding my testimonia to ethers, concerning the merits of Mrs. Joe Ferson's itemedy for Scrothia, I take pleas the in-ajing that as a tonic and alterative I do not thank it has an equal, I have fairly tested it, and after trying vegetine, Sarsaparilla, Vinegar bitters, and various other remedies, I have no nestation in producting it far superior to any TONE I have ever used. When I commenced using Mrs Person's itemedy I was very weak, complection soilow, and now I am WELL,

nespectfully your friend, MRS. H. T. BROWN. Sept 26, 1878, THREE CHILDRES IN THREE

CASTALIA N. U. Deal Magame-Your letter has been received, and on account of being absent from nome for a week or two, have not had the opportunity to answer it. I certainly will-take great pleasure in doing all teat is withtake great pleasure in doing all that is within my power towards getting you patients for treatment of sciolula. I hardly know now to express my gratifude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any reflect at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your relinedy to be a certain cure for sciolula. If I can ever be of any service to you in any way, I want you to be safe and call on me, Yours truly, WM. H. AKELINGTON.

"It will Cure if rairly Tested." It gives me much pleasure to be able to state that have derived an effectual cursor scrotula from the use of Mrs. Joe Ferson's remedy for that alsease, I had suffered from Scrotula for mo e than three years, and had despaired of evel getting well. I was treated during that time by three very emine t physiciaus, without any good resuit. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no bet-ter result than my lamny physicians met with. Alter returned from the institute i was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought or ever getting well again, but my hopes increased, my low spiritedness hed before the remedy, and I am now employing sprendid health and and I am now enjoying spendy is mild as a purgative, and a strong tonic; it will heat the most studborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it mence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the temedy and it should be taken at the poper time. I would recommend to all who are suffering from scrolula to try it. It will surely cure you if you give it a fail test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am a der many and asting obligaand lam u der many and asting onligahave obtained from its use. Sufferers, try 1 and be cured, is my advice. 1 am, respectfully

KITTRELLS, N. C. My receipt for the cure of Scrofula has been tried by me Wilh the most unpreceden-ted success for the last twelve years. and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tome and Blood Purfuer. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases. I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases

A CANE OF CANCER. PAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOSTERSON: Dear Madam-1 have been using your Remedy for occofula overfive months as an experiment for cancer, the cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine scemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think it I could have nad the medicine soon enough, it would have cured me, For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third best for hours, then at other times it would increase minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. would recommend any one suffering with heart disease to try your medicine. Tonic and Alterative, I do not think It has any superior. I have been using all the most powerful Afteratives known to the medical profession for the last 12 years and a know of none superior to this. I think your medicine is desimed to be a great blessing to the aillicted. Let every no that noeds a Tonie or an Alterative give it a trial, and I do not

think they will be disar pointed.

Very truly and Respectfully.
