> ---Figures and Facts.

Wilmington Star. 1 Jevill Senator W. A. Graham, of Lincoln, made an effective speech on Tuesday in behalf of his bill for the reduction of salaries and fees. He brought out some facts and figures that are worth considering and made some declara-

tions that one can deny. \* ... He gave, in tabular form, the xpenses of the S ate government in 1860 and 1878. In the former year the expenses were \$41,420, in the latter \$174,331. \* Senator Graham's speech shows familiarity with the points han lled, and it will be difficult to meet them. If men who favor high salaries would deal in arguments and facts rather than in explosive expletives they would do a great deal more towards satisfying

the wishes of the people. If it be demagogaism to protect the interest of the people, to save the State from useless, unwise and unjust expenditures, and to lift the burdens of axation from the bent shoulders of a struggling and and impoverished contituency—if that indeed be demagoguism, pure and simple, then the people are prodigiously in love with just such demagogues, and like O.iver Twist they ill ask for more.
