Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant or gin. At this season of the year especially, a cold is such a common thing that in the burry of every day life we are apt to overlook the dangers attending it and often find too late that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Beschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

What to Buy Ti at Commercial Fertil zers are esson tia to the successful production of crops can to longer be questioned. This has been settled by actual experience of the most successful farmer. North and South, as well as upon the lighest scientific authority. The question therefore for the considera-tion of the farmer is, what to buy, in the The answert this question is: What has stood the test? What guano stands before the armers of North Carolina as a practical

success? We answer, the

Pine Is'and Ammoniated Phosphate. That it is a success we have certificates from leading farmers in every section where t has been used-men who have used Comnescial Manures for years and make money by it.
We don't dare say it does not pay to make manure at hore. It does pay? And no one can be successful in farming unless he makes manure. When he has made all the manure possible the deficiency must be supplied by Commercial Fertilizers, for no one who cultivates cotton for profit (and that is the only profitable crop that can be raised in our section) can make on his farm a sufficiency of manure for his cops. we offer the cine Island Guano to supply this deficiency, in the fullest conficence that it is the best and cheapest ferminzer sold in the State. We have arrangements for supplying it in any quantity, in good strong sacks, so that it can be transported any distancwithout loss The season for planting is now nearly at hand and we hope to receive all orders ear-

ly so that they can be booked for immediate shipment from the Rail Road Warehouse thus saving the expense of drayage and handling.
