Good advice.

New York World The Herald is prodigal of advice to the democracy as to what it should and should not do in the matter of the election laws. In view of the fact that our esteemed cotemporary has several times buried the democracy. it might not be impertinent to advise it to let the democracy hoe their own row, and will make it clear to all men that the democratic triumph of the eve was exclusively the work of our esteemed cotemporary.

Tilden's Resort.

Brooklyn Eagle.

It seemed to us to require no gift of prophecy to predict Mr. Tilden's renomination, as soon as it was made apparen' that he had been elected Presdent and had been unjustly deprived of the office. His nomination is a logical necessity. By his displacement as a candidate, the carry that insists it has been sheated and susulted would itself condone the travel by which it was kept out of power. No party can do this and live. The Ameri an people are of right the Court of Last Resort, and the fraud of 1876 car not be suffered to pass into history until they shall prepared to offer it to their friends have an opportunity of officially pastin : judgment upon it.

To the Resders of this Paper.

Most of you are familiar with our Bible Propositions' which have been published in this paper for over two months. We are glad to know, that several hundred of you have already the season. The house has attained availed yourselves of its benefits, and note for the excellence of its cuisire realized, to some extent, the wonderful virtues of the "Seven Sp.ings Mass." Being induced to try it on account of the fairness of the proposition. We fully expected some few would demand the "Prize." Thus far not one bas put in a claim. On the centrary, we have been the recipients of "Bibles," and other tokens of appreciati n expressive of gratitude and acknowledg. ments for having called their attention to the remedy.

Our object for making that offer, was not merely to relieve headaches, for that which many regard as a case of headache, is in reality only a symptom of more serious and complicated diseases, it was therefore, more to reach these complaints, (the names of which we dislike to publish in news papers.) Knowing if the Mass was properly used for headache, the patient would discover its great value for other diseases, and we are glad to say, the plan has succeeded we l, as evidenced from bundreds of correspondents, and the rapidly increasing demand for the Mass-and is being sold by all Drug-For sale by Wm. What to Buy T' at Commercial Fertil zers are esson tla to the successful production of crops can to have be questioned. This has been settled by actual experience of the most successful farmer North and South, as well as upon the lighest scient in authority.
The question therefore for the consideration of the farmer is, what to buy, in the shape o' manuse The answert this question is: What has

stood the test? What grano stands before the armers of North Carolina as a practical success? We answer, the Pine Island Ammoniated Phosphate.

That it is a success we have certificates from le ding farmers in every section where it has been used-men who have used Comnercial Manures for years and make money We don't dare say it does not pay to make manure at home. It does pay? And no one can be successful in farming nn ess he makes manure. When he has made all the monure possible the deficiency most be supplied by commercial Fe tilizers, for no one who cultivated common for profit (and that is the only profit ble crop that can be alsed in our section) can make on his farm a sufficiency of menure for his cops. this defindency in the fullest confidence that it is the best and cheapest fertilizer sold in the State.
