The (elebrated Seven Spring) and Alum Mass.

This is decidedly the most useful, besides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merus. For relieving Sick and Nervous Headache, it may be truly said, to have no equal. Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, setting forth its specific ellects in other more dreaded and troublesome diseases.

Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetes;' am using the 'Seven Springs Mass with a considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possible. Send worth of the enclosed P. O. order immediately.

JNO. F. MAYNE. Columbia, S. C., Jan. 23d, 1879. Rev. J. D. Parker, of New Orleans, La, writes: "Having tried effectually the 'Seven Springs Iron and Alum Mass, for Diarnea, Kidney afflictions, &c., I take pleasure in recommending its use in these complaints. In my case it affords immediate relief.

1)AIN in the right side, under the edge of the ribs, increases on presire; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with Lix; the head is troubled with pain, accompanied with a dull, heavy sensition in the back part. There is generally a considerable loss o' memory, a companied with a painful sensation of having left undone somethin; which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness e.e. and therefore look forward | and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his suit 's are low; and although he is satisfied that exercise would be benching I to gen, yet he can scarcely summen up tortitude enough to try it. In fact, he distrusts every remedy.
