Messrs, Rand & Barboe, Bros., have finished laying the foundation of their new brick store on Wilmington street near Martin. The building will contain two slories and a basement and when completed will be a standing and substantial evidence of the prosperity and reliability of the well known business men who are building it. It does the real estate editor of this paper good to thus note that the wheel of progress is still rolling on in this city.

#### Honor to a Raleigh Barber.

Otev. a favorite barber of the city, was honored with an appointment from the U.S. Senate as foreman of the Senate barber shops, with a salary of gas a year. He received notice of his appointment through Senator Ranson. who was instrumental in securing the same. The Raleigh public will be glad to learn that Otey promptly deomed. Itis large patronage in this enty would not justify his giving it up for \$500 a year.

# An Important Invention.

Mr. W. B. Suries has a valuable attachment to the sewing machine. It meets a want long felt in the perfection of this indispensable necessity to the household.

The treadle power of the sewing machine has aiways a serious draw tack. The health of ladies has often been destroyed by the strain upon their muscles in the use of the treadle. This is obviated by Mr. Suries patent. The lady can now sit in her chair and with his attachment to the treadle, quietly rock and work away without injury to health or weariness to limb. The invention may be seen at the Singer Machine office. Mr. Suries will enter largely into its manufacture and make Raieigh his heaviquarters.

are pecuniarly worthy of mention is the National Salety Paper, which has been introduced to put a check to the erasure and altering or raising of urans or checks. It has now been in use for five years and has proven that it is a sure guard against traud of this kind, The paper is chemically prepared and the least attempt at erastire betrays itself in an entire change of the color of the serface. At the Paris Exhibition the National Safety paper received the highest award, confirming the numerous awards received in this country Thousands of banking houses, insurance companies, and other corporations testify to the perfect protection affortied by this paper. During the last five years it has been used for over two nundred million checks, drafts, and exchanges. It has been tested in the severest manner with the most satisfactory results. There has not been a single instance of successful alteration. This paper is the only sure protection against loss by iraudulent alterations. It should be used for all checks, drafts notes, exchanges, certificates of deposiletters of creait, stock certificates, railroad bonds, legal documents, and air written evidence of vame. The National Safety Paper July meets every requirement, and is an absolute sateguard against alterations. It prevents changing of dates. It protects the indorsements, and renders the removal of one name and the insertion of another in vouchers of value impossible. It is Col. Carter, consisting of horses, bugthe only paper yet known that will stand every test. It involves no extralabor. It is better than any combination of words or ngures, punch or stamp. It is more important to use this paper to protect checks and drafts than to use locks and sales for valuaown protection, should insist upon the use of this paper, for it is business prodence to guard againt fraud. This is decidedly the most useful, beides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends tar and wide, and its great popularity is due entirely to its own merits. For relieving Sick and Nervous Headache, it may be truly said, to have no equal. Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills: and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, setting forth its specific effects in other more dreaded and
