

THE LATEST PROGRAMME.

There seems to be little danger now to be apprehended from any attempt on the part of the Senate or on the part of its presiding officer to count as well as open the certificates containing the electoral votes.

The programme now, it is said, is to stay on any declaration of the result of the November election until after the 4th of March. In that event Mr. Fessenden will become President of the United States.

The provisions of that Act so far as they relate to the matter in hand, are that in case the offices of President and Vice-President shall both become vacant, the Secretary of State shall forthwith cause a notification thereof to be made to the Executive of every State.

If the electors shall be appointed by the popular vote, as at the late election, there is no doubt about the result. New York, Connecticut, New Jersey and a solid South, including Florida, will give us 188 electoral votes beyond dispute.

The solid South, including Florida and excluding Louisiana and South Carolina, in order to escape the trouble and excitement of another election will not improbably appoint electors by direct legislative action.

The Illinois Legislature is composed of 101 Radicals, 98 Democrats and 8 Independents. The Brooklyn Eagle defines an Illinois Independent to be a man who "believes that property is a crime, that rail-road stockholders are land pirates, and that free-freighters are a sweet boon, and that such is the kingdom of heaven."

Our Fayetteville correspondent reports continual failures of the mail from this place. These are inexcusable, and our correspondent may be assured that they will be prevented if it be possible.

There is a rumor—and more than a vague, says the Cincinnati Enquirer—that the New York Graphic has not proved the financial success its projectors anticipated.

A RECENT letter to the Richmond Whig from L. Q. W., its Washington correspondent, reiterates and confirms the statements that the extreme Radicals propose to arrest the Democratic Government.

GEN. HAMPTON.

The following timely utterances we print from the Lynchburg, Virginia, News, and give them our hearty endorsement, except in so far as it is stated that North Carolina has at any time gone into any "Walker movement."

Several of our contemporaries seem disposed to censure Gen. Hampton for his course in writing to the Presidential candidates, and intimate that he is showing signs of leaning on the strong side.

The Chicago Times speaks of General Grant as the White House medium "under the influence" of Zach. Chandler's "spirit."

LETTER FROM FAYETTEVILLE. Mail Failures—Progress Backward—Postmaster General Reagan—Bartholomew Fuller, Esq., Editor.

FAYETTEVILLE, N. C., Jan. 4, 1877. ENJOYING OBSERVANCE.—The snow and cold weather seem to be a most excellent opportunity for officials who neglect their duty.

When Mr. Tilden comes into power his first thought should be to secure to the country a reliable mail service. And may I not incidentally remark that during the Conference on Monday last, the Hon. Mr. Postmaster-General Reagan's removal I yet he was a man, who always said that he would have no clerk in his department who couldn't "parse better" and "spell better" than himself.

BRITISH DAYS FOR SOUTH CAROLINA.—Columbia, S. C., Jan. 4.—Messrs. Merrimon and Cameron, of the Senatorial committee, had hard words yesterday during the examination of witnesses from Laurens county, when the former, feeling insulted, threatened to report the matter at Washington if the language was repeated.

DEATH OF REV. DR. BRONKING.—Rev. Dr. Wm. L. Breckinridge, brother of the Rev. Robert J. Breckinridge, and last surviving son of United States Attorney General Breckinridge under Thomas Jefferson, and much of the late General John Breckinridge, died on the 28th inst. at Raymore, Cass county, Missouri in the 78 year of his age.

The Public Finances.

(Special Dispatch to the Observer.) The large falling off in Customs receipts for December has caused the liabilities of the Government to exceed the receipts for the month by \$2,355,148, that being the amount added to the public debt since the November statement.

For six months ending December 31, the public debt has decreased \$5,518,003, which is \$2,338,428 less than the decrease for the corresponding six months of last year.

The coin balance in the Treasury, after deducting coin certificates is \$49,337,418, of which \$1,442,723 is in subsidiary silver coin. Against this there are liabilities for accrued and due interest on the public debt to the amount of \$42,127,012, leaving the actual cash gold in the Treasury, \$5,067,684, exclusive of silver.

During the 12 months just ended, the amount of legal tenders outstanding has decreased \$7,728,136, and fractional currency \$1,738,866. Since April last there has been a falling off in the amount of subsidiary silver coin, which more than compensates for the aggregate contraction during the 12 months in legal tenders and fractional currency.

Imperial Honors. In the latter part of last year, an act of the British Parliament permitted Victoria to call herself Empress of "India" in her Asiatic dominions, the title being confined to India, and only last year the title was made at Delhi carrying out the privilege thus granted.

The Albemarle Country.

(From the Elizabeth City Economist.) Turning from the past, we enter upon the new century of our country, of which none of us shall see the end.

WILMINGTON.

(From the Hillsboro Recorder.) It is gratifying to see the steady and somewhat rapid strides Wilmington is making. And this, not as the result of State pride and determination to build up one State emporium, but in spite of it.

The coin balance in the Treasury, after deducting coin certificates is \$49,337,418, of which \$1,442,723 is in subsidiary silver coin. Unprincipled Self-Preservation.

J. P., in a letter from Washington to the New York Sun, thus details the four conspicuous conspirators in the present crisis. Each of them have, in the present degree, all the bad traits and wicked propensities that have culminated in such traitors as Judas Iscariot and Benedict Arnold, such conspirators as Warwick and Simon de Montfort:

These last are bringing to pass the results so much desired. The depth of water on the bar and on the shores is so much reduced that the vessels of a tonnage once excluded from the harbor now easily load at the wharves of the town.

AMERICAN BEEF.—The Mark Lane Express asserts that 500 tons of fresh American beef reaches England weekly.

IVORY.—Fifty thousand elephants are killed every year to furnish the ivory which is used in England alone. The National Ivory came from Zanzibar, the silver-gray from regions south of the equator, and the favorite ornamental material from Siam.

ILLINOIS SCHOOLS.—The total number of pupils enrolled in the public schools of Illinois during the past year was 687,446. There were over 22,000 teachers. The total expenditure for the year was \$2,468,539.58. The balance on hand at the end of the year was \$1,080,330.24. The average monthly wages paid to male teachers was \$47.96; to female teachers, \$33.30.

WELL AUGURED.—Deacon Child, the "leading citizen" of Indianapolis who swindled the insurance company of which he was president, sent this letter to the editor of the "Sun" in which he writes: "I have never loved Julia, and so we thought we had better leave her married, and have the thing settled." Julia is his deserted wife, and Jessie is the sleeping wife.

DOG LOVER.—A WHITE SETTER, with red ears and throat, was lost by the late Mr. G. H. M. BREWER. Reward will be paid for its return to Jan 4-21. GEO. M. REEDER.
