BY TELEGRAPH.

REPORTED BY THE ASSOCIATED PRESS.

FORTY-SIXTH CONGRESS.

WASHINGTON, April 16.—SENATE.—The Senate resumed the consideration of the army bill.

Rock said the Democrats were determined on their first access to power to repeal all laws passed in time of war

unavailable to the time of peace, and forming dangerous precedents which would become the permanent principles of our system

government if left alone. He quoted freely from historical authorities to show the pernicious results of military interference

with civil functions, and to refute the assertion of Mr. H. that the money had not been withheld by the Commons to force the King's consent to legislation.

He said rather than have the army used as it had been, and as it might be again, he would favor its abolition, and establish a militia.

Dawes followed in opposition to the pending measure.

During his speech he yielded to Mr. Butler, of South Carolina, who stated that his colleague, who was present, was present, ready to take his seat.

Mr. Hampton on crutches was led forward by Mr. Butler, and sworn in by the President pro tem., Mr. Thurman, taking the modified oath.

Harris.—Under the call of committees this morning, Mr. Stephens, of Georgia, chairman of the committee on coinage, weights and measures, reported a bill for the interchange of subsidiary coin for legal tender money in sums of ten dollars and multiples thereof, and making such coin legal tender in all sums not exceeding twenty dollars.

The report of the committee states that the bill is based upon provisions referred to the committee.

Mr. Conger, of Michigan, raised the point of order that no bill on the subject had been referred to the committee, and that therefore the committee had no right to make a report.

The House, in committee of the whole, resumed the consideration of the legislative appropriation bill. After discussion, the amendment to repeal, after March, 1890, the acts creating the Southern Claims Commission, and to transfer to the Court of Claims all cases then pending before the commission, was rejected. The committee disposed of all the bill except the portions specially reserved for general discussion.

The report of the committee in respect to the mode of selecting grand and petit jurors, repealing the jurors' test oath, and also in respect to Supervisors of elections and Deputy Marshals.

The debate commenced. Mr. Lewis of Alabama made a legal argument against the election law, and declared that the "South was solid" for any illegal or unconstitutional purpose, or out of antagonism to the North.

Sen. Ford of Alabama also argued upon the necessity and justice of repealing the jurors' test oath, and modifying the Supervisors of elections.

Congressional Committees.

WASHINGTON, D. C. April 16, 1879.—The Senate committee on privileges and elections to-day commenced the hearing of argument in the Spafford-Kellogg case, upon the question whether or not the action of the Senate hitherto has made the controversy res adjudicata.

Ex-Congressman Shellabarger began the argument in the maintenance of this proposition, and will be further heard to-morrow.

Redemption of Bonds.

WASHINGTON, April 16.—The Secretary of the Treasury, in a circular issued to-day, offers at one-half of one per cent. above par, and according to the terms of subscription, \$150,000,000 of the four per cent. funded loan of the United States the proceeds to be applied to the redemption of the United States ten-fourty bonds.

In addition to this amount \$4,466,300 of these bonds being the residue of the sum needed to redeem the ten-fourty bonds will be reserved for the conversion of ten dollar refunding certificates.

Fatal Shooting Affair.

BALTIMORE, April 16.—A shooting affair occurred this morning, resulting in the death of one of the combatants and mortally wounding of the other. Last fall, a shooting occurred between Danwood B. Hinds and a young man named James, because of the alleged seduction of Miss Lizzie James, a sister of James, by Hinds. The lady died some time since. This morning, Mr. James, the father, met Hinds on Calhoun street, when both drew pistols and commenced firing. Several shots were exchanged, resulting in the death of James and mortal wounding of Hinds.

Mandamus Issued.

COLUMBIA, S. C. April 16.—The Supreme Court has unanimously ordered a mandamus to issue compelling the State Treasurer to pay out of the funds now in the treasury the latter for 1879 of the recognized debt of South Carolina. This payment has been hitherto withheld in obedience to an injunction obtained in the United States Circuit by the holders of the unrecognized bonds, the status of which is still in litigation.

Election Returns.

DETROIT, Mich. April 16.—Official returns of the State elections, though incomplete, are sufficiently so as to make certain the Republican majority about 4,000. Of the total vote thus far received Campbell, the Republican candidate for Justice of the Supreme Court, received 122,000 and Shipman, coalition, 128,000.

The Would-be Assassin.

St. Petersburg, April 16.—The name of the would-be assassin of the Czar is Alexander Solovoff. He is schoolmaster of Tropez, in the Government of Pleskov. He will be tried by the highest criminal tribunal. The Prosecutor General, Senator Loubed, who is charged with the preliminary inquiry, has commenced his labors.

The Egyptian Difficulty.

PARIS, April 16.—No progress is yet made in solving the Egyptian difficulty. The French and English Cabinets have made no determination, and have therefore no proposals to the Porte. It is not believed that the deposition of the Khedive will be attempted.

The Observer.

Pronounced Better.

BALTIMORE, Md., April 16.—Bishop R. E. Ames, of the Methodist Episcopal Church, is ill at his residence in this city.

For several days his death has been looked for, but this morning his physician pronounced him better.

MISCELLANEOUS.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person flows through it at least the half hour to have the bile and other impurities strained or filtered from it.

Mr. H. says the liver is not a gland, but a filter, and its function is to purify the blood, and to secrete the bile, which is used in the digestion of food.

It is not a gland, but a filter, and its function is to purify the blood, and to secrete the bile, which is used in the digestion of food.

It is not a gland, but a filter, and its function is to purify the blood, and to secrete the bile, which is used in the digestion of food.

Price 25 Cts. and \$1.00

LUNGS

The Fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on.

\$10.00 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Freesia Acid, can be found in the GLOBE FLOWER COGNAC SYRUP, which has cured people who are living to-day with but one remaining lung.

No greater warning can be done than to say that Consumption is incurable. GLOBE FLOWER COGNAC SYRUP will cure it when all other means have failed. Also, Cough, Asthma, Bronchitis and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga. Hon. Geo. Peabody, as well as those of other remarkable names.
