BUTLER'S BRAG

HE AFFECTS TO BELIEVE THE DEFEAT OF THE DEMOCRATS PERMANENT.

HIS VIEWS ON FREE SILVER.

He says the people are opposed to the present financial policy but he doesn't think it has changed before 1896—He is ready to drop free coinage and declares that it is not worth a snap of his finger—Views of Republicans on the Fusion Victory—A Northern Lady Pleased with North Carolina.

Special to the News and Observer.
WASHINGTON, D. C., Jan. 2.—Marion Butler is here. He was interviewed by the Star and he declares to believe that the defeat of the Democrats last November is permanent. If he thinks the party is dead, he would advise to buy a coffin and bury it an hundred feet deep, otherwise, in 1896, he would find it the widest corpse among of conspirators ever tackled. He says that the southern people "rebelled and overthrew the oligarchy" that controlled it. He uses the word "oligarchy" several times in his interview, evidencing his faith in that word as a rallying cry. By that same sign and he had his lit le coterie of bosses will be overthrown.

Regarding silver he says that free coinage of silver is "the representative of change" and that the people are opposed to the present financial policy. "There has got to be," he continued, "some substantial, tangible thing to fight for, and the free coinage of silver being recognized as the standard of the present policy, the people are for it: But what they really want is a change involving the entire overthrow of the present financial policy. The storm center of politics is the financial question, and the free coinage of silver furnishes a tangible issue."

"Do you think there is any prospect of all the opposition to the existing financial system and policy uniting in one national party?"

"Certainly, I do not see how it can be otherwise. I look to '96 to bring about an alignment on the financial question. I do not see how any change can be accomplished before that time, and I believe the latter will come then. In the South there has been a revolution in the Republican as well as in the Democratic party. New men are at the front in that party."

Being interpreted, this means that he is ready to drop "free coinage," and declare it not "worth the snap of his finger" if it should be secured. The chief characteristic of a Populist is this: He is ready to drop everything he has fought for as soon as he sees a chance of getting it, and clamor for something he knows it is impossible for him to get.

The Fusion Victory.
At the White House this morning I met two well known Republican members from the West. I had not seen them before since the election. "There is nothing in the result in North Carolina for the Republicans to rejoice over," said one of them. "A victory by fusion with the Populists is certainly a blow to the Republican party in the State, which will be more disastrous than any number of defeats." The other said: "I have observed that fusion with the Populists in the West has won the admiration of the Democratic party in our section. I fear it will have the same effect with my party in North Carolina."

Likes North Carolina.
The most enthusiastic lover of North Carolina I have met in a long time is a lady who has spent some time in Raleigh and made some investments there. She was passing through Washington, heard that I was a North Carolina pro of the State, and said she came to see me because she wanted to talk to some one who shared her enthusiasm. "There is no place in the world like it," she said, "and no climate so positively delicious, and no people so frank, clever and hospitable. I believe it is destined to hold a vast population and attract there the pursuit of health and fortune." She is right.

There are more North Carolinians here now than ever before in the history of the country. The New Year Reception, given by Mr. and Mrs. Joseph Daniels, 165 North Carolinians called. Nearly all of them hold positions here.

Mrs. Charles W. Dabney assisted Miss Moran in receiving on New Year's day here. Mrs. Dabney's friends in Raleigh will be glad to know that her health is fully restored. She has been an invalid for several years. She and Mrs. Joseph Daniels, 165 North Carolinians called. Nearly all of them hold positions here.

Mr. G. E. Leach has returned from a business trip to New York.

Mrs. Morehead, of Charlotte, is one of the society leaders of the city this winter as she was last season.

C. B. Edwards, Jr., and wife are domiciled on Capitol Hill. Mr. Edwards likes his position in the Government Printing Office.

General Von Werder, who was absent from the gathering, has tendered his resignation to the Kaiser and Prince Hohenzollern.

The Amnizer says that Prince Hohenzollern accepted the chancellorship upon the condition that he was to retain it only until the passage of the anti-revolutionary law, and that he should be relieved, his successor having already been agreed upon by the Kaiser and Prince Hohenzollern.

It is generally believed that the succeeding chancellors will be General Von Walder.

JAPAN AND CHINA

DANGER THREATENS PEACE NEGOTIATIONS BETWEEN THE TWO COUNTRIES.
ADVISORY COUNSEL FOSTER.

The Japanese Suspicious of the Good Faith of Their Enemies in the Overtures for the Suspension of Hostilities—Though Japan has Indicated Her Willingness to Treat, Her Commissioners Will Hardly Give Any Recognition to Mr. Foster—The Chinese Negotiating for Money and Munitions.

WASHINGTON, D. C., Jan. 2.—Danger threatens the peace negotiations between China and Japan, and from present indications it is exceedingly probable that hostilities may be renewed with even greater vigor, and the cry of "Go to Pekin" once more become the slogan of the Japanese forces. Despite a prevailing belief to the contrary, it is not unlikely that the Japanese government will decline to make further postponement of the actual commencement of the negotiations in order to await the arrival of Mr. John W. Foster, the Chinese advisory counsel, and it is improbable that arrangements for the settlement of the dispute will have been completed before Mr. Foster reaches Hiroshima, where the representatives of both of the warring powers will meet.

TEXTILE STATISTICS.

North Carolina Leads All in New Mill-Except N. Y. and Penn.

BOSTON, Mass., Jan. 2.—The American Wool and Cotton Reporter in its semi-annual review of mill construction throughout the country to-date, makes some very interesting data. During the past six months the improvement in the general business situations has been reflected in no unimportant manner in the undertaking of the construction of a large number of textile plants. In the first six months of the year 1894 the number of new mills was 113, a wonderful showing considering the condition of the business world; since the middle of the year the construction of no less than 147 textile plants have been undertaken, an increase of 31 as compared with the previous six months. The record for the year 1893, was 82 mills, and in 1892, 61 mills, and in 1891, 47 mills, and in 1890, 33 mills, and in 1889, 21 mills, and in 1888, 16 mills, and in 1887, 11 mills, and in 1886, 7
