THE THREAT OF REED RULES.

One of the Fasion Congressmen who have come to Raleigh to give the Legislature a good start, said in a company of gentlemen a day or so ago that he should advise his co-operation friends to session on the first day unseat the Democratic Senators from the 4th (Halifax), 5th (Edgecombe), 9th (Duplin, Wayne (Mep.,) of Henderson; M. before sentence was passed upon him. If it is the purpose to unseat one third of the Democrats, it will probably be done without the Tom Reed method in order to pretend to the people that it was done after investigation. The Boss is too shrewd to permit execution by electricity. He knows it will be more popular to use the old fashioned gallows with which North Carolinians are familiar. There is a desire to turn out a dozen or more Democrats before the vote for Senator is taken. Whether they are turned out before or after will depend somewhat on the outcome of the Senatorial complica tion. It is believed that most of the contestants are Republicans, and if they can secure partizan advantage, will out-Reed, Reed in haste and unfairness. If so, where do the Republicans come in? Or, do they come in at all?

In its salutatory, the Daily Caucasian said it would be a straight Populist joura representative because he is "a Republican of ancient degree." The love of the Caucasian for the 1868 Republicans of "ancient degree" would be marvelous if its editor was not relying on 1868 Republicans of "ancient degree" to put House, and is personally liked by many him to succeed the deceased Judge, for he has made a fine impression upon the him in the United States Senate.

The presumption is that if sufficient notice had been given, imprisonment would have been enforced. "If," says the Journal, "the officers of the Guard cannot enforce attendance at military exercises the Guard is practically worthless and the Legislature should remedy the defect."

"CARRY OUT THE TRADE."

This is the cry of Pritchard's followers. They allege that it was a part of the conspiracy that Butler was to have the long term and Pritchard the short term, and they say that it would be as bad faith to refuse Pritchard the short leaves the Mott-Lusk combination in the term, as to deny Butler the long term.

If the Legislature would appoint a commission de lunatico inquirendum to ascertain whether Mott, Pritchard, Ewart or Holton is the real Republican daddy of Fusion, it would be of great service to the Populists.
