Mr. Lindsay Thinks That Thanksgiving is Now a Political Institution but Nobody Else Agrees With Him and Senate --- Change of Rules in the had met every demand of that office House.

Senator Moody, of Haywood, R., expressed some doubt as to the existence of the office of county commissioner for any considerable length of time, and the bill was re-referred to be revised to meet that possible contingency. The bill was introduced by Senator Paddison, P.

S. B. 104, H. B. 75, relating to the charter of the town of Winston, was taken from the calendar and passed its second reading.

S. B. 21, to provide for the registration of chattel mortgages separate from real estate mortgages was tabled.

To Institute a Populist Thanksgiving. S. B. 42, to make the call of the Gov. ernor for thanksgiving orthodox was put on its second reading.

Senator Lindsay, who introduced the bill, said that in the domain of politics, religion was frequently driven out. and therefore this bill might seem silly. He thought, however, that when the stated time for calling on the people, by proclamation of the Governor, there might be some special thing to give thanks for. The custom now is to call on the people to give thanks for material prosperity, but at least nine tenths of the people had no cause to return thanks fo Lee. material blessings, and the proclamation

was therefore absurd on its face. Another idea advanced was that it was neither in accordance with the Protes tant or Catholic religion, because it was not an orthodox proceeding for any ruler to order the people to prayer. When he did, he called on sinners as well as good people. He did not think that, any minister of any denomination would take such a course as to call on sinners to return thanks for anything; for the evidence of the Word was that "the prayers of the unrighteous availeth nothing." He said further that also the day was noted as one of a sacred chara ter, yet it was a day on which the baseball players, the horse races and in fact everybody who had anything to be thank ful for spent riotously, while people who were not materially prosperous could not afford to observe the day. He spoke to the effect that he believed the tendency of this "official" Thanksgiving was to have an evil effect on the morals of the people. Senator Starbuck thought that the bill might be improper. He had heard of the idea that the prayers of the righteous availeth much, but he had never heard that the prayers of the wicked availed nothing, and he did not believe it was in the Bible He thought a sinner ought to be allowed to return thanks if he had anything to be thankful for and wanted to do so, and he moved that the bill lay on the table.

Senator Adam .. D., wanted to correct a statement made by Senator Moody concerning the present Governor. Senator Moody had doubtless made the statement as a bit of pleasantry, but there were dupes who might believe it. The present Governor had never been tainted with Populism or Radicalism. S. B. 70, an act defining lard and regulating the sale thereof was taken from the calender. Senator Moody stated that certain persons had requested a hearing on this bill, and that in order that they might be heard, he would move that the bill be referred to the Committee on Judiciary. The bill was re-referred.

Two Important Resolutions.

Senator Starbuck, R, introduced the following resolution :

"That a committee of nine, three on the part of the Senate and six on the part of the House of Representatives, be appointed by the president of the Sen-ate, and the Speaker of the House of Representatives, to be known as the Joint Committee of the Senate and House of Representatives on Municipal Government. That the Speaker of the House shall designate the chairman of the committee; that all bills, resolutions and petitions in reference to the matter of municipal government be referred to said committee; and it shall be the duty of said committee to prepare and report as early as possible to this General Assembly proper bill or bills providing for the repeal of the present system of county government, and for restoring to the people the right of County Commissioners, or any officers who may hereafter be substituted for County Commissioners, and Ju-tices of the Peace and other local offices '

Tourgee Comes Empty Handed.

I have already stated that Judge Tourgee, though unvailed by the commissioners, failed to appear and explain how it was that he drew \$3,700 of the \$241,354, which Swepson swore that he paid out for votes to carry through railroad bills Judge Tourgee was a member of the State convention, so-called, which remodeled the Constitution. He was not a lawyer, but was otherwise well educated, and, doubtless, the brainiest man in that body. Judge Pearson told me that when Mr. Tourgee came to Raleigh in December, 1867, as a delegate to the convention, he advised with him, the Judge, about going before the members of the court, as an applicant for license to practice law.

After conversation with him, the Judge advised him not to apply until he pursued the study further. Yet Tour-gee took the lead in the radical work of overthrowing the old time honored common law practice, and substituted in its place what is called "the Code of civil procedure." He was chosen by the convention as one of two or three others to codify the laws of the State, at a salary of \$2,000 per annum, which he held for two or three years; while in April, 1868, soon after the adjournment of the convention, he was elected a Judge of the Circuit Court. an office with a salary attached of \$2,500.

He Goes Away Full Handed.

He held the Judgeship for ten years, although the Constitution of the State limited the term to eight years. But the Supreme Court, by a subtle construction of the Constitution, managed to spin out the terms of the Judges two years longer than the letter of the Constitution would imply. The Judgeship and the Codification of the laws, as long as the latter office lasted, were held and the two salaries drawn at the same time, amounting to \$4,500 per annum. Mr. Tourgee was not singular in this privilege of holding two lucrative offices at June 17, one time; and the practice gave rise to the witry designation of such lucky fellows, by my friend James Fountleroy Taylor, that they were "Double humped dromedaries.

But he will, no doubt, be flattered by the high place to which I have assigned him among his co-laborers.

Changes in the Rules.

The resolution introduced by Mr. French, of New Hanover, on Thursday, consisted of annotated changes on the margin of the old rules and was not in shape to be available, until yesterday, for intelligent statement here.

The following changes are contemplated and will doubtless be made when the resolution is taken up.

In Rule 6 of the old rules "one day" is changed to "two days.

Two new rules are added, and in the new rules are numbered 13 and 14 Number 13 reads as follows: "Smoking shall not be allowed in the hall."

Number 14 reads: "House shall meet every day (except Sunday) at 10 a. m.'

In Rul- 28 (new Rule 30) the following is stricken out: "and no motion to reconsider shall be taken from the table except by a two third vote.
