

PROPHECY FULFILLED

BUTLER CHOOSES A SEAT IN THE SENATE ON THE RE-PUBLICAN SIDE.

NORTH CAROLINA'S GOLDFIELDS.

The Annual Report of the Geological Survey Gives Some Interesting Facts in Regard to North Carolina and its Minerals--A Commission Merchant who has Many Agents in this State Disappears--Senator Ransom Much Improved--Simmons at the Capitol.

WASHINGTON, D. C., March 15. Senator Ransom has prophesied all along that Marion Butler would be found acting in harmony with the party in the Senate that is antagonistic to the Democrats. The truth of this prophecy is now confirmed by Butler himself, who has requested that his desk in the Senate be placed on the Republican side.

The annual report of Director Walcott, of Geological Survey, has been made to the Secretary of the Interior. The report is full of many interesting facts about the Survey in North Carolina. The total area surveyed during the past year was 33,000 square miles, 23,000 of which was new work, and 7,000 a revision of work previously done.

The chief section of his report is in regard to gold in the South, and North Carolina takes the most conspicuous place in this list. In regard to the examination in Georgia and the Carolinas the report says, "The auriferous deposits of this region are divided into three groups, one in Georgia trending in a northerly direction through Dahlonega, in that State. It has important expansions in Alabama and North Carolina."

A second belt extends in a similar direction west of the South mountains in North Carolina. A third belt trends in the same direction through Charlotte, N. C., reaching into South Carolina and nearly to the Virginia line."

The director said to me that during the present year a careful examination would be made into the gold deposits between Nash and Warren counties. It is thought by some prominent geologists and gold experts that the vein in that section is one of the most valuable in the world.

About the first of the year a firm was established here under the name of Davis, Hill & Co. for the sale of butter, eggs, apples and other produce. Agencies have been established all over the States of Maryland, Virginia and North Carolina.

These agents were paid a salary of \$12 a month and from the amount of produce being sent in they have performed their duty to the very letter. But one of the firm has disappeared and the member who had no interest in the firm, but whose duty it was to establish agencies, is left here alone. His salary is unpaid and produce coming in must be refused.

The agents in North Carolina are sending the larger part of this produce and they will have to stand responsible to those from whom they purchased. People in small towns should be more careful and not jump at every offer made by a slick-tongued man from the North. Some of these agencies have run in debt for hundreds of dollars and the firm that they look up to is insolvent for many thousands.

Among the army orders issued to-day was a leave of absence for six months granted on surgeon's certificate to first lieutenant Joseph B. Batchelor, Jr., of the twenty-fourth infantry. Lieutenant Batchelor is a brother of Messrs. Plumber and Stark Batchelor of Raleigh. His father is one of the most prominent lawyers of Raleigh. Lieut. Batchelor has been in ill health for some time and it is hoped with the aid of the leave that he will be able to again return to duty in the fall. He will visit North Carolina during his leave.

During the past few weeks quite a number of experiments have been made on the star service in Madison. It is understood that these changes were made at the request of Senator Pritchard. Frank Turrentine, of Wilmington, who have been a page in the House of Representatives during the Fifty-Third Congress, left on the boat to-night for his home. He is a bright boy and was about the most popular page.

Miss Julia Tull, of Morganton is the guest of Mr. and Mrs. Charles E. Cooke, 1346 Wallack Place Northwest. Miss Tull has for some weeks been visiting friends and relatives in New York city and Philadelphia, and is stopping here while on her way home.

A society event of next week will be a reception given by Miss Jennie Hayward, 1106, O Street Northwest, in honor of her cousin, Miss Sophie Griffins, of Raleigh, who is now her guest. Senator Ransom is here. He has given up his stick and looks improved in health since his trip home. He will be here until Sunday. Revenue Collector Simmons, of Raleigh, is here to see revenue officials. He saw the Deputy Commissioner today and talked over the income tax. He will be here until Sunday.

NEW YORK CITY'S POLICE

The Lexow Committee Decide to Report Two Bills Making Changes.

ALBANY, N. Y., March 14.--A meeting of the Lexow New York City police investigating committee was held in the Senate judiciary room late this afternoon. The committee decided to report two New York City police bills, Senators Canter and Bradley dissenting.

After the session Senator Lexow said it had been decided to make the present police commissioners themselves the reorganizing body. After Mayor Strong's regime the commissioners are to be elected.

It is provided that no political organization shall nominate more than two commissioners; also, that the two receiving the highest votes shall be declared elected and the two others receiving the next highest votes shall be appointed without reference to their party affiliations, thus giving a third party a chance.

Senator Lexow called particular attention to the changes made with a view to increasing the efficiency of the force. The superintendent is here after to be known as the chief of police and is given largely extended powers. He will have absolute control of all assignments and transfers; he may suspend without pay, and no promotion can be made except on his recommendation and under civil service rules which have also been decided upon.

Provisions are further made for a deputy chief of police and for six inspectors. The idea of the inspectors is to divide the city into districts and have each head of the police for his respective district reside in it instead of at headquarters.

The committee also decided to adopt the recommendations of the Lexow Committee that one inspector and four captains be selected to make the civil service examination of applicants for places on the force, subject to the approval of the civil service board.

NOT A CANDIDATE.

Labor Commissioner Lacy Has Not Been, Is Not, and Will Not Be a Candidate For Mayor.

RALEIGH, N. C., March 14. To the voters of Raleigh:

It is with great pleasure I find so many of my neighbors and friends desire me to be a candidate for Mayor of the Capital of the great State of North Carolina. I was born here and am very proud of it, but more proud of the fact that my humble course in life has drawn to me so many friends, who have so much confidence in me. I fully appreciate the honor some desire me to try for, but I am engaged in a work that I am very much interested in, one that has great possibilities for good in it, by educating the people up to an understanding that the State has a right and duty to perform in looking after her citizens, without regard to the position they occupy; also to give the wage earners some tangible feeling of citizenship, therefore I want my friends to understand that I am not, have not been, and will not be a candidate for the honorable position of Mayor.

A Murderer Commits Suicide.

NEW ORLEANS, La., March 14.--F. A. Daugherty, who murdered Charles Chambers over a business difficulty Monday on Red river bridge, committed suicide in Caddo jail during last night by severing his jugular vein with a small knife. Both men were prominent. Chambers for years resided in Gainesville, Texas, and was cashier of the National bank there. His brother, Frank, is a member of the firm of Rogers, Peet & Co., of New York. Daugherty leaves a large family.

In Honor of his Fifty-First Birthday.

ROME, March 14.--In honor of the fifty first birthday of King Humbert, his majesty this afternoon issued a proclamation of amnesty to a large number of prisoners of certain classes. Among those set at liberty is Captain Romani, the French officer who was condemned last November to 14 months imprisonment for spying. Amnesty is also extended to most of the participants in the riots at Massa Diarraasa, as well as to many of the Sicilian rioters who are serving terms in prison.

Four Men Buried in the Ruins.

LARAMIE, Wyoming, March 14. Four men were buried under the walls of the Commercial Trading Company's building which was destroyed by fire early this morning. James Foster was taken out dead and Geo. Cordiner, a university student, was fatally injured. The total loss is \$150,000; insurance \$60,000.

Baseball Yesterday.

JACKSONVILLE, Fla., March 14.--The first and second teams of the New York club played again this afternoon. The regulars winning. The feature of the game was the heavy batting. Score--Regular team 14; second 8.

Weston R. Gales in Norfolk.

The Norfolk Virginian has the following notice of Evangelist Weston R. Gales: "Colley Memorial Church is thronged from night to night. The meetings are full of interest. Never has one preached in Norfolk who excels Mr. Gales in wealth of power and pathos. There were twelve men and women who took their stand for God last night and many men asked for prayer. The services continue at 4 and 7:30 daily. The cottage prayer meetings conducted from house to house daily have had the effect to enlist individuals and families in the great work and to involve the whole community in revival sympathy and effort with the church. Hundreds are under the powerful influence of the meeting and scores are returning to the Lord."

Highest of all in Leavening Power.--Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

JUDGE'S FAMOUS CARTOONIST.

Bernard Gillam Recommends Paine's Celery Compound for Exhaustion.

The Buffalo News, in a recent article remarks upon the fact that "Bernard Gillam, the cartoonist of Judge, is one of the few living men whose cartoons have ever changed a vote in the U. S. Senate.

Bernard Gillam is a young man, but 35. He received his art education in England. He is to-day the foremost cartoonist of America. In 1880 he came to Harper's Weekly as the colleague of the immortal Nast. His work afterwards for Frank Leslie's and Puck well fitted him for bringing Judge to its present success. In 1886 Mr. Gillam went into partnership with W. J. Arkell, and bought Judge. The full page colored cartoons, Mr. Gillam's special province on Judge, equal the remarkable efforts of the great Keppler, in Judge's older rival.

There is probably no form of brain work that is so exacting and so intense as the work of the great artist on the large comic papers. To turn out brilliant ideas with the regularity of machinery and yet keep their work up to the high standard set by their splendid reputation, makes fearful demands upon their nervous vitality. Mr. Gillam knows what severe work means. The nervous strain of his responsible position has at times brought him near to prostration and the giving up of his work.

The University team will play a match game of ball with Lafayette College, of Easton, Pa., in Raleigh April 2d. April 15th is the date for the appearance of the Glee, Mandolin and Banjo clubs.

Bucklen's Arnica Salve.

They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by John Y. MacRae.

An effective remedy must first enter the blood to cure rheumatism. Local treatment for a constitutional disorder will do no good. Rheumatism, gout, blood-poisoning, scrofula, etc., are diseases lodged in the blood. Just why Paine's Celery Compound cures, while other remedies fail, is because all its ingredients effectually aid the system to rid itself of any poisonous humors in the blood.

Hundreds of cases have within this year been reported directly from persons, between the ages of 45 and 65, suffering from acute Bright's disease, who have been permanently cured by Paine's Celery Compound. It stops the gradual structural changes in the kidneys, restores their vigor and removes such alarming symptoms as the gradual loss of strength, pallor of the face, shortness of breath, pain in the back and sides, dropsy and a puffy condition of the skin.

Every overworked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's Celery Compound. It is food for the brain and nerves. It sends new, healthy blood through the arteries. It makes people well.

In every city in the United States physicians every day are not only prescribing, but themselves using, Paine's Celery Compound for weakness and nervous debility, for curing the effects of poor and unhealthy blood, disorders of

liver, kidneys, stomach, heart and the nervous system. I want every man and woman in the United States interested in the Opium and Whisky habits to have one of my books on these diseases. Address B. M. Woolley, Atlanta, Ga., Box 380, and one will be sent you free.

position has at times brought him near to prostration and the giving up of his work. He says in a letter dated New York, November 13, 1894:

"No tonic that I have taken has done me so much good as Paine's Celery Compound. When I am run down or exhausted after particularly exacting work on cartoons and in other artistic occupations, I have found a dose of the compound exceedingly beneficial as a restorative for the nerves."

The racing speed of the marvelous new processes for swiftly carrying out men's ideas is taxing to their utmost the nervous systems of countless men and women.

A cry of protest is going up all over the country from medical men against the suicidal waste of nerve force. Preachers, editors, lawyers, even doctors themselves, from their daily round of hard, anxious work--every brain worker in fact, who labors draws heavily upon his nervous vitality, must take alarm at the first sign of brain-tire, pressure, fullness or tension in head, or nervous fatigue.

Every overworked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's Celery Compound. It is food for the brain and nerves. It sends new, healthy blood through the arteries. It makes people well.
