

DUTY OF SILVER MEN

THE SOUTH SHOULD NOT SUPPORT A CANDIDATE AGAINST FREE COINAGE.

THE NEXT NATIONAL CONVENTION.

Over Half of the 743 Delegates Claimed for Gold are From Republican States --These Should Not Be Allowed to Dictate the Nominations--The South Ought To Keep Out of All Entangling Alliances--It Cannot Win in a Struggle With the North.

Special to the News and Observer.

WASHINGTON, May 14. The estimate made by the New York Times of the relative strength in the National Democratic Convention next year, of the monometalists and bi-metalists, is far from being conclusive against silver, for two good reasons. In the first place it falls a long way short of a two-thirds majority, which is 604. The gold party, therefore, must muster up 131 more delegates, in order to secure the nomination; and this they will do, if gold can accomplish it.

But this is not the worst of it. For, considerably more than one-half of the 473 delegates claimed by the Times, will come from Republican States; and the question naturally arises, whether the Democracy will cheerfully acquiesce in support of candidates selected for them by the Republican States--by States that will assuredly vote the Republican ticket as the day comes around. The unflinching Republican States are the following:

Table with 2 columns: State Name and Delegate Count. Includes Maine (12), Massachusetts (30), Minnesota (18), Iowa (26), New Hampshire (8), New York (72), Pennsylvania (50), Rhode Island (8), Wisconsin (24).

In view of these indisputable facts, I can imagine nothing more absurd than for the Democratic party to go into Convention with delegates sent from these Republican States. It is the old story of the spider inviting the fly into his beautiful house. But if this policy is to be adopted, the more economical plan will be for the Democracy to request the Republicans to nominate a ticket for them after choosing their own candidates. For the above-named States will not only vote the Republican ticket in November, 1896, but they will send sound monometalists to the Democratic Convention, pledged to vote for no man who has a squinting at the free coinage of silver.

It is not the ordinary case where the difference of opinion in the sections turns upon the men to be selected, and not upon essential measures. Where that is the case, it is not so objectionable to admit the representation of States that will certainly vote against the ticket, since the delegates may be cordially devoted to the cause which animates the majority of the party, or they may be divided on the issues. This was the case in 1884, when the united South defeated the nomination of Mr. Van Buren. The annexation of Texas was the great purpose of the Southern Democracy. The northern wing of the party was divided upon it, and the South, by the aid of the Two-Thirds Rule, won the day, defeated Van Buren, and nominated Polk.

But the South cannot win now, in such a struggle with its Northern allies. It then had the all-powerful institution of slavery at its back. Now it is the North that is backed by the great money power of the world. There is, therefore, but one resource left. The South should refuse to go into a convention thus constituted, and refuse to support any man who is not in favor of the free coinage of silver.

DANIEL R. GOODLOE.

TRADE RELATIONS WITH CHINA

An Interesting Report From Consul General Thomas R. Jernigan.

WASHINGTON, D. C., May 15.--The Department of State has received an interesting report from United States Consul General Thomas R. Jernigan, of North Carolina, stationed at Shanghai, China, on our trade relations with that empire. Noting a falling off in the importations of domestic cottons from the United States as well as Great Britain, Mr. Jernigan advances the opinion that the manufacture of cotton cloth by China and Japan is responsible for the decrease. In 1863 the first spinning mill was erected in Japan, with 5,416 spindles; in 1880 there were sixteen mills with some 43,700 spindles. The statistics regarding the industry in China have not been published, but a conservative estimate is that the end of this year will witness 360,000 spindles, 3,000 looms, besides numerous cotton gins ready to operate in fifteen cotton mills.

In Japan the mill owner pays from 8 to 20 cents per day in silver for his hands, while in the United States laborer, he says, is paid for in gold. During 1894 one dollar in gold has been equal to two dollars of Japanese silver, which makes clear, according to his reasoning, that the mill owner in the United States is paying twice as much for labor as the Japanese.

Mr. Jernigan says that he does not wish to intimate that the price of labor in the United States should be regulated by the price of labor in oriental countries, but unless some standard of international value for the payment of labor is agreed upon the products of the oriental laborers will become a dangerous rival to that of the American laborers. Silver, he says, is used by one-half of the world and gold by the other half, and while wages in one half are paid in a depreciated currency, and in the other half in an appreciated currency, a rivalry between the respective products of the labor of each is encouraged with the advantage in the outset to the products of the laborers paid in depreciated currency, especially when the latter can supply his daily wants with such a currency, which he willingly receives and remains

contented therewith. Such apparent advantage is no longer offset by the superiority of the machinery heretofore employed in the manufacturing which was confined to the other half of the world now using gold. The same machinery is now used in China and Japan as in other countries.

SHOT BY A PARISHONER.

An Insane Woman Kills the Abbe De Broglie in Paris.

PARIS, May 15.--Abbe De Broglie, a brother of the Duke De Broglie, was shot dead to-day by a woman named Amelet, one of his parishoners, who had become insane.

The deed was the result of belief on the part of the woman that the Abbe had circulated calumnious reports regarding her. She called upon the priest to-day and demanded that he sign a statement which she had prepared retracting the reports which she alleged he had put in circulation. Upon his denial that he was responsible for any of the statements of which she complained and his refusal to sign the document she drew a revolver and began firing. Four of the bullets lodged in Abbe's head, causing almost instant death.

The woman, after emptying her revolver at the priest, went immediately to the Carmelite church, where she confessed to a priest and demanded absolution.

Small-Pox in Virginia.

RICHMOND, Va., May 15.--Staunton reports eight new cases of small pox and Lexington six new cases.

The Result in Raleigh the Forerunner.

Sanford Express.

This is the first time any number of the people have had an opportunity to condemn the workings of the late Fusion Legislature at the ballot box. The result of the election in Raleigh has caused the Fusionists throughout the State to pause and reflect, and well they may, as this is a forerunner of what will come to pass in North Carolina in '96.

Marvelous Results.

From a letter written by Rev. J. Gunterman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at John Y. MacRae's drug store. Regular size 50c. and \$1.

A Bad State of Affairs.

The people of the South are being deceived in the purchase of imitation medicines. It's poor consolation to a sick man to be told that the medicine offered him certainly won't do him any harm. Wrong; it will do great harm. It allows the disease to progress instead of stopping it, and this is most dangerous, because the disease will soon be beyond cure. This is the best reason why you should be sure to get the right medicine. Don't risk your health in trying any of the many Liver Medicines which sprung up in the South to be sold in place of Simmons Liver Regulator, put up by J. H. Zeilin & Co., with the Red Z on every package, this was the medicine of your fathers, and they lived long. Have nothing to do with anything else, or any druggist or dealer who would persuade you that the many imitations under different names are just as good. It's not true. The people who buy them heap up their miseries. Beware!

Larabee's Rheumatic Liniment

is an old and valued remedy, which has enjoyed a constant patronage for over sixty years, proving its wonderful worth and efficacy in all painful diseases, such as Rheumatism, Neuralgia, Catarrh, Toothache, Lumbago, Backache and other ailments where pain is attendant. Try it. For sale by all druggists or by mail 25 cents.
