THE LARGEST CIRCULATION OF ANY NORTH CAROLINA DAILY.

ALL THINGS ARE READY

THE PREPARATIONS FOR THE SPRINGFIELD CONVENTION COMPLETED.

OVER 1,000 DELEGATES PRESENT.

The Silver and the Gold Men Claim a Large Majority of the Delegates-A 16 to 1 Free Silver Platform Will Be Adopted-The Platform May Go Outside of the Currency Question-Gov. Altgeld to be Serenaded-A Display of Fireworks Made En Route.

CHICAGO, Ills., June 4 .-- Final preparations for the trip by the Chicago and Cook county delegates to the silver convention at Springfield were completed last night at the headquarters of the Democratic Central Committee. Secretary Robert E. Burke has arranged everything, and a train load of Democrats will be hauled into Springfield at 6 o'clock

Immediately upon its arrival the delegates, with the band and marching club as an escort, will proceed to the Executive Mansion to serenade Gov. Altgeld. A grand fireworks display will be made en route, and this will prove one of the principal events of the convention.

Leaving the Governor's residence the delegates will be escorted to the hotel, where more pyrotechnics will be indulged

All told there will be from 700 to 800 persons in the Cook county crowd, including the delegates. Secretary Burke claims that of 346 delegates fully 325 are for the free comage of silver at 16 to 1 and will vote for this platform in the convention.

On the other hand the Honest Money League claims there will be at least 75 votes against this proposition in the Cook county delegation. Secretary Burke estimates the number of free silverites in the convention at 880 out of 1,076 delegates. It is practically certain all of the business of the convention will be concluded Wednesday.

Representative's Hall will be cleared

for the convention Wednesday—desks removed, chairs placed, flags and bunting displayed.
In an interview last night Chairman

Heinrichsen. of the Democratic committee, stated

"Up to this time delegates chosen amount io 1,000. Every county, with the single exception of perhaps one, will be represented, and my figures show that out of the 1,076 delegates, 1,000 of them will be for free silver at a ratio of 16 to 1 without international agree-Whether the convention will take up any other question but that of currency, I cannot say, but all are of the opinion that the platform adopted will not go outside of the currency question and things closely related thereto.

"I feel confident that we have taken the right step and at the right time. This talk of its being too far in advance of the next Presidential campaign is all

THE MEMPHIS CONVENTION.

All the Railroads will give Reduced Rates to Delegates and Visitors.

ATLANTA, Ga., June 4.—Commissioner W. W. Findley, of the Southern States Passenger Association, has announced that cheap rates will be given on all the Southern railroads to the Convention called by the Bi-metallic League of the State of Tennessee, to be held at Memphis on the 12th and 13th instant.

Therate allowed will be on the certificate plan, one fare and one third. This means that tickets will be sold full fare going and one cent a mile returning from the convention, certificates of attendence being the full requisite to secure the one cent rate on the return. In this way it is to be seen that the trip to Memphis and return from various points throughout the South will cost no more than four cent a mile round trip.

The meeting will be composed of all classes of professional and business men, and while it is only reasonable to presume that most of the members will be Democrats, there will be no party lines drawn and the gap will be down for men of all parties to come in and participate in the discussion of the political issues of this day and time.

The convention will be addressed by Senator Vest, Senator Harris, Hon. W. J. Bryan, of Nebraska; Hon. J. C. S. Blackburn, of Kentucky; Congressman John Allen, of Mississippi; Senator Wal-thall, of Mississippi, and Senator Daniel, of Virginia, aud many other distinguished advocates of silver as a money standard, from all the States from Virginia to Texas.

THE SOUTH CAROLINA CASES.

Judge Goff's Decision to be Reviewed by the Circuit Court of Appeals.

RICHMOND, Va., June 4.—The Dispatch will say editorially in the morning:
"The case of the South Carolina Su-

pervisor of registration whom Judge Goff enjoined a few weeks ago from the performance of his duties has been appealed to the Circuit Court of Appeals now in session here, and will be heard on appeal in that court to-morrow, be-fore the Chief Justice and Judges Hughes and Seymour.

"The assignment of errors by the Attorney General of South Carolina to the decree of injunction issued by Judge Goff in the case is as follows

"1. That the suit is, in effect, a suit against the State of South Carolina and in violation of the eleventh amendment of the National Constitution

"2. That the supervisor of registration who was enjoined is not amenable to the United States Circuit Court in his political capacity, and all the matters and things complained of relate to the political duties of the office.

"3. That the bill presents no question

arising under the constitution and laws

"4. That the bill presents no case upon which a bill in equity lies, plain and adequate remedies at law being available to redress the matters com-

"5. That the jurisdictional amount of \$2,000 necessary for the Circuit Court is not affirmed in the bill.

"6. That there is no sufficient averment of irreparable injury and statement of facts supporting it in the bill, and positively sworn to.

"7. That the Circuit Judge erred in holding that the registration laws of South Carolina are in violation of the Constitution of the United States and deprive the plaintiff of his rights as a citizen of the United States.

"All of these questions are cogniza-ble on appeal by the United States Circuit Court of Appeals sitting here, except the third and seventh, which present Federal questions, and are cognizable in the Supreme Court of the United

"The appellate court of the circuit may therefore docket the case, and consider the grounds of appeal; and, if in the course of the trial it finds it necessary to do so, it may certify the Federal questions up to the Supreme Court for its direction, and may afterwards proceed to deal with the case on all ques tions raised on appeal.

"This is what the appellate court meant on Friday last when it announced that it was unanimously of the opinion that it had jurisdiction to hear the ap-

"The case will, therefore, be heard tomorrow on the appeal as a whole. It may be that the appelate court will be of opinion that the suit below could not be maintained on the grounds assigned other than, and irrespective of the Federal questions raised in the third and seventh assignments of errors. If so, the case will not get to the Supreme Court. But, if the appellate court should be of opinion that there was no error in respect to five of the assignments, then the case will go to the Supreme Court on the third and seventh assignments.'

GOLD RESERVE GOING

WITHDRAWALS FOR REDEMP-TION PURPOSES HAVE BEEN LARGE.

OVER \$100,000 A DAY DRAWN OUT.

Since January 1st the Treasury Has Lost \$55,162,000 in Gold Paid Out to Redeem Paper Money .- The Belmont-Morgan Syndicate Has to Pay in Only \$8,000,000 More --- Reserve Now Stands at \$99,250,000 -- Treasury Officials are Uneasy.

Washington, D. C., June 4.-Since January 1st the Treasury Department has lost within \$10,000,000 as much gold as it gained by the sale of bonds to the Belmont Morgan syndicate. The gold lost—\$55,162,000—was paid out in the redemption of United States notes and Treasury notes and most of these notes, at least seven-eights, have been presented for redemption at New York city.

On February 8th the agreement with the Belmont-Morgan syndicate went into effect, and by its terms the syndicate agreed to protect the Treasury gold as much as possible. Of the \$55,162,000 lost since January 1st, but \$6,000,000 are chargeable between February 8th and June 1st. During the month of May gold withdrawn for redemption purposes has aggregated \$1,000,000, or at the rate of about \$33,000 a day. For the first two days of June the withdrawals amounted to \$101,000.

These figures show, in the opinion of Treasury officials, that the Belmont-Morgan syndicate is using all legitimate efforts to protect the treasury gold, but they also show that more gold is being with drawn they is required for regions. withdrawn than is required for ordinary business purposes. The syndicate has now fulfilled its contract within \$8,000,-000, and is said to be ahead of its pay ments. The treasury gold reserve stands at \$99,250,000, and if withdrawals in large amounts are not made for redemption purposes, when the \$8,000,000 gold owed by the syndicate is paid in, the gold reserve will foot up fully \$106, 000,000.

What the effect will be upon the Treasury, after the expiration of the syndicates contract is a subject that is not discussed at the Treasury, but judging from the past the gold withdrawals will be much heavier than for the past four months and will naturally weaken the gold reserve.

Aside from the gold received from the syndicate during the past four months, the Treasury has had several other sources of supply. The gold received from custom duties has been light—not aggregating one-tenth of one per cent. From original coinage the gold received has aggregated several million dollars, while in exchange for silver certificates of small denominations for removal of the crops in the South and West, con-siderable gold has found its way into the Treasury.

Under the treasury regulation authorizing the exchange of the world's Fair souvenir half dollars for gold, more than \$700,000 has been received from this source. The supply of souvenir are being fast exhausted. The amount of paper money presented daily at the treasury for redemption in gold is now being watched with interest.

MURDERER AND SUICIDE.

Shoots His Neighbor From Ambush and Then Hangs Himself.

BETHLEHEM, Pa., June 4. - Early this morning Jacob Lucky shot and killed his neighbor, John Mullock, and after two other attempts at suicide, hanged himself from the limb of a tree, ten feet from Mullock's dead body. The murder was a cold blooded affair

and was premeditated, Lucky lying in ambush for Mullock and shooting him down as he returned from work.

Lucky was angered at Mullock a week ago when his wife was found harbored by him. She had fled to Mullock's house for protection and to escape from Lucky's cruel treatment. Lucky then swore to have vengeance against Mullock and killed him this morning, their first meeting since the family fued. Both worked in the iron mill. Lucky leaves a wife and two children and Mullock a wife and three children.

SOME FATAL RESULTS

MANY VICTIMS OF THE FIERCE HEAT OF THE PAST THREE DAYS.

A COLD WAVE IN THE WEST.

The Thermometer Drop# From 90 To 65 in a Few Hours in Chicago -- A. Fall of Ten Degrees in Washington --Thirty-five Policemen Overcome By Heat in Philadelphia -- Seven Deaths in Pittsburg and Ten in Washington --A Terrible Wind Storm in Ohio.

CHICAGO, June 4.—After a recordbreaking spell of eight days, with the thermometer sticking to the 90 mark all the time, the promised cold wave came this afternoon, accompanied by a strong wind, which soon spread a cool atmosphere over the suffering city. At 1 p. m. the official temperature was 86, the highest for the day, and at 7:30 a drop of 21 degrees to 65 was recorded in the auditorium tower. The indications are for

cooler weather. Phillip Marthurie, who was prostrated yesterday while working, died to-day at Mercy Hospital. John Scontlan, a carpenter, while working on a building, was overcome by the heat and may die. John Reynolds, while riding on a locomotive, fell to the ground on account of the heat and is in a serious condition.

Seven Deaths in Pittsburg.

PITTSBURG, Pa., June 4.—The heat in Pittsburg to-day was even greater than on yesterday and several deaths and an increased number of prostrations from this cause are reported. The distress among the poor and in the mills and factories is particularly severe, and in the city generally has been very great. Seven deaths were reported to noon.

Getting Cooler in Washington.

Washington, D. C., June 4.—The thermometer is 10 degrees lower to day than yesterday and a refreshing breeze has blown all day, and there have been no heat prostrations nor even serious discomfort from heat.

The officials and hospitals report that six deaths occurred yesterday, immediately caused by heat prostratious, while as many more perished from sickness augmented by hot weather. The most prominent victim was James Tilton, son of the late Commander Ed. G. Tilton, U. S. N., who was stricken in the street and died in a few hours.

Policemen Overcome by Heat.

PHILADELPHIA, Pa., June 4.—As a result of the policemen's and firemen's parade in a glaring sun yesterday, 35 licemen are off duty to-day, and three of the number may die. The latter are Henry Patterson, Harry Meyers and Dumas Meyers. They were overcome by the heat while marching, and are now in a serious condition. Several of the others off duty are in a serious condi-

Terrible Storm in Ohio.

COLUMBUS, Ohio, June 4.—The storm which struck this city at 2 p. m., was, in its suddenness and severity, the worst that has ever been experienced here. It came like a shock and a great deal of damage was done to goods on exhibition at store fronts. Many trees were blown down and windows broken.

West of the city the telegraph poles were blown down for a distance of 2 miles. No rain fell during the strom but clouds of dust made darkness equal to that of twilight.

BASEBALL YESTERDAY.

New York Finds No Trouble in Defeating the St. Louis Team.

New York, June 4.—The New York's played baseball to-day and had no trou-ble defeating the St. Louis team. Clark pitched in excellent form, not a hit being made off him after the fifth inning. He received fine support. Clarkson well for the first six innings, but after that he was hammered all over the field. Peitz was fined \$25 and ordered out of the game in the fourth.
