

### NO APPOINTMENT YET

**BUT MR. OLNEY WILL UNDOUBTEDLY SUCCEED SECRETARY GRESHAM.**

### AND WILSON MAY SUCCEED OLNEY

It is certain that the Postmaster General's name has been under consideration in connection with the place of First Assistant Postmaster General Jones may also become a Cabinet Officer--Secretary Smith thinks the Silver Craze is dying out.

Special to the News and Observer. WASHINGTON, D. C., June 6. It will be officially announced at tomorrow's Cabinet meeting who the new Secretary will be.

Although the President has thus far refrained from making public his selection for the vacant position of Secretary of State, there is no reason to doubt that he has finally determined upon Attorney General Olney for that office. And it is believed that Mr. Cleveland is now endeavoring to fix upon a permanent Attorney General to succeed Mr. Olney, so that all the changes will be announced at one time.

It is almost equally certain that Postmaster General Wilson will be transferred to the Department of Justice. It is certain that his name has been under consideration, and it is also true that he would find the duties of legal adviser to the government much more agreeable to his taste than the administration of a purely executive office like that of Postmaster General. He is an able lawyer, and would, if appointed, be enabled to return to private life and the practice of his profession with the prestige of having held the highest legal office in the gift of the President.

It is known that Mr. Hoke Smith, Secretary of the Interior, also aspires to the position of Attorney General, in the event of the transfer of Attorney General Olney to the State Department. Mr. Smith is an able lawyer, and he is believed to have a desire to make a record for prosecuting the trusts, which has not been true of Attorney General Olney. The latter, in fact, is known to be of the opinion that the anti-trust law, when it shall be carried to the United States Supreme Court, would be declared unconstitutional.

Attorney General Olney pointed out to the President radical defects in this law before the decision of the Philadelphia court last fall in the Sugar Trust case. Mr. Hoke Smith, however, is understood to be anxious to appear as a prosecutor on behalf of the Government under this law whatever the result of the action of the Government might be when the case should reach the United States Supreme Court.

#### Mr. Wilson's Successor.

First Assistant Postmaster General Frank Jones was summoned to the White House last night, and this gave currency to the belief that he would be called upon to enter the Cabinet as the head of the Postoffice Department when Mr. Wilson shall have been made Attorney General. Such an appointment as this would be eminently a political one. Mr. Jones is from Illinois, a State where the entire power of federal patronage will have to be effectively exercised if the Democrats are to be kept from going over, bag and baggage, into the free silver camp.

There are a number of New York Democrats who still believe that their State is to get another Cabinet officer, and they think that Secretary Lamont's visit to New York had as much to do with the vacant Cabinet place as with the exercises at West Point. Among New Yorkers there is a belief that Frederick R. Coudert could have the Attorney Generalship if he would accept it.

Whatever foundation there may be for the report that Mr. Olney will be Secretary of State, there is excellent authority for stating that Mr. Uhl is to be retained as Assistant Secretary of State. He is not to be transferred to the Attorney Generalship, as has been suggested.

#### Silver Sentiment Dying Out.

Secretary Hoke Smith, who returned upon the death of Secretary Gresham from a trip to Georgia, feels much encouraged by the evidences he discovered in that State of the gradual subsidence of the silver craze. Mr. Smith said to a reporter: "There are men in Georgia now defending the policy of sound money who were talking silver sixty days ago. I find men who are working for salaries are beginning to wonder how the free coinage of silver could benefit them, and are discovering that to reduce the purchasing power of the dollar would be like reducing their salaries."

"My personal observation has been limited to Georgia, but from the reports received from other sections of the country I judge that the same thing is occurring elsewhere. I do not mean to say that there is not a strong silver sentiment in Georgia, but I do not think any one will deny that the cause of sound money has made great gains during the last two months."

Mr. Smith was asked whether the Memphis convention had produced any effect in the South. He replied: "Its effect has been good, undoubtedly, but many of the Southern people would have been better pleased if the convention had declared in favor of the repeal of the 10 per cent tax upon State banks. The South wants more money for local use and believes it can best be secured through the State banks. I believe that the repeal of this tax would eliminate the silver question from politics in the Southern States."

#### A Week of Commencements.

This week has been one of commencements for the capital city. From more than one of the institutions has North Carolina had fair representatives that left this week with their diplomas. Miss Lalla Ruth Carr, daughter of Col. Julian S. Carr, of Durham, from Mount Vernon Seminary; Miss Lucy Worth London, of Pittsboro, from Gunston Seminary, Georgetown; Miss McVea, of Raleigh, from a kindergarten institute, and Mr. Joseph F. Hester, Bachelor of Laws, from the National Law School, all received their diplomas this week. The graduation exercises of the United

States Naval Academy took place in Annapolis to-day. Cadets Bagley and Johnston, of North Carolina, are in this year's class, the former will be assigned to the Montgomery and the latter to the Atlanta for the two years' cruise.

#### Southeastern Tariff Association.

Mr. J. E. Catlin, of Greensboro, is at the Shoreham. He is attending the fourteenth annual meeting of the Southeastern Tariff Association, which includes the States of Virginia, North and South Carolina, Georgia, Florida, Alabama, Mississippi, and Louisiana. Fifty five members were present Wednesday morning when the Association convened. The only business transacted was the presentation of the president's annual report, read by President Thomas Eggleston, who was overcome by heat before finishing and was borne from the room.

#### To Prosecute the Moonshiner.

Commissioner Miller of the Internal Revenue has just returned from West Virginia where he has been on his health. A certain North Carolina speaking of his return said: "Commissioner Miller has returned to prosecute in his fanatical way those poor North Carolinians who are eking out a scanty living by avoiding the revenue tax."

Hon. B. H. Bunn, of Rocky Mount, is here.

#### GUILFORD BATTLE GROUND.

The Eight Annual Celebration to be Held July 4.

Special to the News and Observer.

GREENSBORO, N. C., June 6. The eight annual celebration of the Guilford Battle Ground Company, on the historic battlefield of Guilford Court House will be held July 4, 1895.

The magnificent statue of Major Joseph Winston, presented to the company by ex-Governor Thomas M. Holt, will be unveiled and dedicated.

The oration will be delivered by George T. Winston, LL. D., president of the University of North Carolina. Subject: "The Life and Times of Joseph Winston."

The Guilford Battle Ground Company was organized May 6th, 1887, at Greensboro, North Carolina.

Its object is to redeem from waste the battlefield of Guilford Court House, and adorn it as a park and erect monuments thereon. It owns seventy five acres of this battlefield, which is laid out in walks, drives and avenues. There are eight monuments already completed, and one in course of construction. Five delightful springs are handsomely fitted up. Lake Wilfong, on the grounds, is a lovely sheet of water. Ten thousand people attend the celebration every year. The addresses all rise to the dignity of history. The Museum of Relics is a most valuable and interesting feature.

The battle was fought between Gen. Nathaniel Greene and Lord Cornwallis, March 15th, 1781. The British were driven from the State.

#### PRESBYTERIAN HIGH SCHOOL.

Third Year's Work Closed With Interesting Exercises.

Special to the News and Observer.

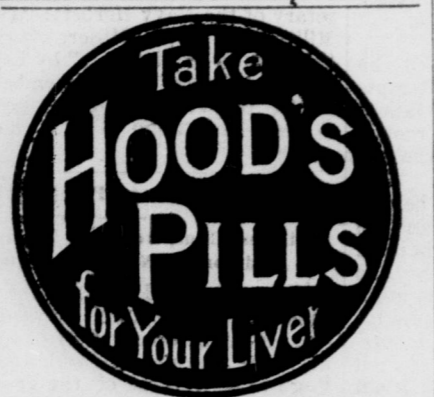

MEBANE, N. C., June 6.

The third annual commencement of the Presbyterian High School of North Carolina were conducted here on Tuesday night. President J. B. Shearer, D. D., of Davidson College, preached the annual sermon and Col. E. W. Kerr, of Clinton, addressed the Literary Societies. All the exercises of the school were simple and interesting and speak well for the faculty and those in charge.

This school occupies the barracks and grounds of the old well known Bingham School, and although only established here three years ago has been quite successful. The Presbyterians of North Carolina could not have selected a better site for their school. The location is central, and for moral and religious influences, the community is not surpassed in the State. With this competent Christian gentleman in its teaching force, and with its many additional advantages, the school bids fair to enjoy increased prosperity the coming year.

The faculty has been increased by the addition of Herbert Bingham, A. B., University of North Carolina, and J. M. Oldham, A. M., University of North Carolina, which makes a faculty equal to any High School in the South.

When so many people are taking and deriving benefit from Hood's Sarsaparilla, why don't you try it yourself? It is highly recommended.

### What to Thank God For.

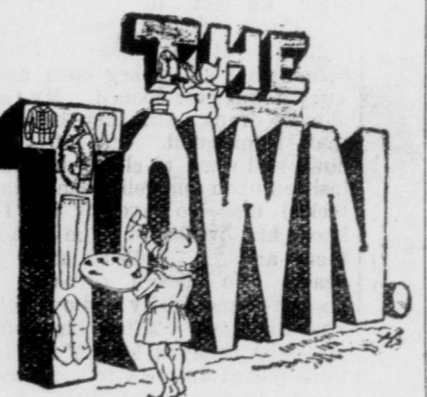

"I have been a dyspeptic fifty years; thank God for it!" exclaimed an old clergyman. Why this burst of pious gratitude? Because his brothers had good digestion, which they ruined at last with high feeding, and all died of gout and kidney disease. He could eat but little, and so lived feebly--and long. His brothers did more work in their short lives than he in his long one.

But what of it? Who wants to dwell inside of an iceberg to keep from being sunstruck? We desire neither dyspepsia, gout, nor nervous prostration. Yet we Americans are getting to have all three, with a vengeance. We work and fight for all we are worth to make money (succeeding or failing, as it may be), and are then snuffed out early by some nervous disease, or by quick consumption. Politicians, doctors, lawyers, ministers, teachers, business men--are taking that short cut to the grave. Why? How? Let a great Scotch physician (who went the same road himself two years ago) explain.

He says: "Nervous maladies are of modern origin. They arise from that almost universal ailment, indigestion, with its symptoms of impaired appetite, sickness, vomiting, flatulence, heartburn, acid eructation, colic, constipation, etc. The diseased stomach cannot supply the brain and nerves with the necessary pabulum; and then the liver, and finally the whole organism, breaks down."

There you have it--plain as a primer--the whole deadly process. Now it is to stop this business at its fountain-head, the stomach, that the Shaker Digestive Cordial has been prepared and placed before the public by the Shaker Community, of Mt. Lebanon, N. Y. It is not a mere "tonic" or a sedative. It doesn't propose to dull the sense of disease but to remove the cause of it--indigestion, dyspepsia. It promotes a free flow of the natural digestive juices, abates inflammation of the mucous membrane, prevents fermentation, and sends the digested food on to nourish the body.

No, no; don't thank God for dyspepsia. You are not likely to, after a taste of it. Thank him for a strong and capable stomach, sensibly used. Then thank the Shakers for a medicine to make it so. Trial bottles (immediate effect) ten cents; at almost all druggists.

For the cure of all diseases of the KIDNEYS, BLADDER and URINARY PASSAGES. BOTTLED AT THE LINCOLN LITHIA SPRINGS LINCOLNTON, N. C.

TRENTON, N. J., December 21, '94. George Richards, Esq., President Board of Managers, State Hospital of New Jersey: My Dear Sir: In reply to your inquiry as to cur observations relative to the use of the LINCOLN LITHIA WATER, I have to say that it has been used quite extensively in this hospital during the last twelve months, and the results following its administration have been in many cases more than gratifying. The most happy results have followed its use in chronic rheumatic complaints, and in vesical and urethral irritation where there was frequent and painful urination with hyperacidity of the urine. In the latter class of cases its action has been prompt in giving relief.

The various standard Lithia Waters have been used in this hospital, but I place the LINCOLN LITHIA WATER second to none of them.
