TWO MURDERERS PUBLICLY HANGED AT SALISBURY VESTERDAY.

FIVE THOUSAND PEOPLE PRESENT.

The Condemned Men Made Short Talks and Showed Little Fear of Their Impending Doom -- Both Confessed Their Crimes .- Their Necks Were Broken and Death Resulted Without a Struggle .- The Bodies Turned Over to Relatives -- Story of Their Crimes.

Special to the News and Observer.

SALISBURY, N. C., July 25. The condemned negroes, Whit Ferrand and Anderson Brown, who were in jail here awaiting the death penalty, were publicly executed shortly before noon today. An immense crowd, estimated between five and ten thousand people, witnessed the hanging.

All the morning the streets were alive with living, moving, surging humanity. No such crowd has ever assembled in Salisbury before as was here to day to see the two criminals thrown into eter-

At about 10:30 o'clock Sheriff Monroe, left the jail with the prisoners. The procession moved up Main street, followed by the hydra headed throng, a detachment of Col. Chas. F. Fisher Camp, No. 31, United Confederate Veterans, acting as guard. Reaching the gallows, a mile and a quarter from the court house, near the Concord road at about 11:20 o'clock, the criminals were led upon the scaffold, making no demonstration and showing little or no fear. Both made brief talks, thanking Sheriff Monroe for the kindness shown them while in jail, and bidding friends good

By invitation Sheriff Smith, of Mecklenburg; Sheriff White, of Iredell; John A. Anderson, of the Charlotte News, and several reporters of the Daily Her-ald were on the scaffold for a short while with the prisoners and bade them

good bye. At 11:45 the drop fell and the bodies of the two men were swinging between heaven and earth. The fall, five feet ten inches, broke their necks and death resulted with scarcely a struggle. In exactly eighteen and a half minutes the

negroes were pronounced dead by attending physicians.

The bodies were turned over to relatives for burial. Ferrand will be buried near his home in the upper part of this county, Brown near town. The crowd was orderly and quiet. It was the first double hanging in Rowan since 1830. Both of them confessed their crimes.

Anderson Brown's Crime.

On the night of March 2, 1895, Brown in a fit of jealousy entered the house of Callie Roberts, his mistress, and finding her in bed, put a pistol to her breast and fired the fatal shot, which caused her death in a few days. He quietly left the house and next morning when arrested by a policeman was at work. He said in his confession, "I and the woman, who was 23 years old, had a fuss; it ended in a shot of a pistol. Her sister urged her to do what she did. I am sorry it happened. I thought much of her. I asked her, though, to let me out and she would not.

"I don't say that I should not be punished but I say this, it ought to have been known to everybody what the cause of the trouble was. The question was not asked how it came on. I was asked if I wanted to say anything after I was sentenced but I did not say anything. No one seemed to want full particulars of the matter, so no one knows. A man should have known full particulars when he goes to have one killed on hearsay.

Anderson was placed in jail and at May term of Superior Court was tried, found guilty and sentenced by Judge Brown to be hanged to-day. While in jail he was as gentle and quiet as a child, meekly awaiting the awful day. Last Sunday he was baptized and received into the Methodist Church. He expressed his willingness to meet his God.

Ferrand's Bloody Deed.

The crime of Ferrand was more sen sational. It was committed five months ago last Saturday, near Cleveland, in Rowan. A warrant, charging several negroes with disturbing the neighborhood, was issued. Deputy Sheriff H. C. Owen deputized three men to find the negroes. Three of the men were arrested without trouble in their camp. Ferrand ran. One deputy took the three prisoners back to Cleveland and the others went in search of Ferrand. Deputy Webb came upon him and Ferrand advanced as though to surrender, but, instead, jumped on Webb, wrenched his gun from him and shot him in the wrist with a pistol. Webb was allowed to walk away, Ferrand keeping the gun and pistol.

Some time afterwards two officers came upon Ferrand behind a tree. He snapped his gun at them and they advanced, firing at him. One load took effect in his face. Deputy Owen came up with another officer and stopped the firing. He called to Ferrand to surrender. This he refused to do, but he finally agreed to surrender and said he would not shoot unless shot at. Owen ad-

expired immediately. As Owen fell Ferrand struck at him with the gun and then jumped on him. The other officers rushed up, pulled him off the dead man

and tied him securely.

There was talk of lynching, but the sheriff and his deputies kept off the frenzied men and saved the prisoner from harm. He was taken in a round about way to Lexingtou and placed in jail. He was brought to Salisbury sev-eral weeks afterwards. At May term of court he was sentenced to be hauged.

AN EXECUTION IN RICHMOND. Phillip Norman Nicholas Hanged for a

Double Murder. RICHMOND, Va., July 25.--Phillip Norman Nicholas, the murderer of James Mills and William J. Wilkerson, was hanged here this morning. The drop fell at 10:06 and his neck was broken.

Nicholas was confirmed as a member of the Catholic Church this morning at 6 o'elock in his cell by Bishop Van Dev-yer, and mass was celebrated there. He evidently took much comfort from this. He was attended on the scaffold by Fathe. Wilbers but made no statement and was absolutely cool to the last without any bravado. Very few persons witnessed the execution.

Nicholas was an unmarried man and lived in a house occupied by James Mills, with whose wife he had for some time been intimate, and in consequence there was much bad blood between the

The crime was rather peculiar. Nicholas persuaded Mills and Wilkerson to accompany him in a boat across James river to secure a bee tree. They demurred at first, as they could not swim. On their way over, the boat filled with water and sank, drowning Mills and Wilkerson. On examination it was found that there were two augur holes in the boat, where none had been the day before, corresponding in size to an augur belonging to Nicholas. Later on two corn cobs were found floating in the river which fitted the holes.

Suspicion pointed strongly to Nicho las, who, on several occasions, told dif-ferent tales, and it was remembered that he had several times threatened Mills'

On the 10th of December, 1892, he was arrested and lodged in the Henrico county jail, and subsequently convicted of the crime. The same scaffold was used upon which three negroes a short time ago were executed.

WINSTON, N. C., July 25. The \$300,000 cotton mill to be established at Mayodan, near Madison, will be an immense enterprise. Col. F. H. Fries, President of the company, has gone North to purchase the machinery for the mill. Timbers are being gotten out now for the large dam which will extend clear across the river. It will be made sufficient to develop the entire water power of the Dan at that point. The Union Sunday School excursion of colored people, from Greensboro to Winston, on Monday, got into trouble on their return home. When the train reached Walnut Cove the Railroad Company made a demand for payment of excess of passengers, the contract stipulating that all passengers over sixty to a coach were to be paid for extra. This made the excess several dollars. After a time the train ran on to Summerfield where it was again side-tracked until the

excess money was paid.
The North Wilkesboro Land Cempany sold \$18,191 worth of lots at their sale yesterday. The managers lost \$15 on the excursion to Wilkes. The train cost \$225. Two of Winston's Methodist Sunday

TWENTY WHITE MEN KILLED.

Four Troops of Cavalry Have Been Ordered From Fort Robinson, Nebraska, to the Scene of the Disturbance-Not Believed That Foot Troops Will Be Called Into Action-Indians Now on the War Path Ordered to Return-Gen. Scofield Returns.

WASHINGTON, D. C., July 25.-Gen. Vincent, acting Adjutant General, has received a telegram from Brigadier General Commission has been ordered eral Coppinger, saying he has ordered four troops of cavalry at Fort Robinson, Neb., to preceed at once to the scene of the disturbance at Jackson Hole, and that he will go there in person to investigate the situation and conduct the military operations. Fort Robinson is the nearest available cavalry station. Forts Russell and Washakie are garrisoned with infantry. As foot troops are not of great service in an Indian campaign, it is not believed that the latter will be called into action.

Commissioner of Indian Affairs Browning has forwarded a dispatch to Agent Teter to Fort Hall Agency in-structing him to order the Indians now on the war path to return to their reservation quietly and peaceably before the military detachment ordered to the scene of the trouble reaches there, and the commissioner says he wants it understood that he advises the Indians as a friend, desirous of their best interest and welfare.

Agent Teter sent a reply, stating that he had sent trustworthy Indians to de-liver the message to the Bannocks in the

NORTH CAROLINA LEADS.

Nearly a Million Dollars Invested in Cotton Mills During Past Week.

BALTIMORE, Md., July 25 .-- Reports to the Manufacturers' Record show a large increase in the traffic of southern railways, especially those in the coal and iron regions. The Alabama Car Association reports having handled nearly 21,000 cars in June, against 12,000 in June of last year. The improvement in railroad affairs is bringing to the front a large number of railroad extensions of existing systems, and also quite a num-ber of short lines, which are being organized in many parts of the South, every

State being represented.

The number of cotton mills organized for the week is even 'larger than usual, and includes two mills to cost \$200,000 each at Greensboro, N. C., and two more being worked up at the same place, but not yet definitely assured; a \$200,000 mill at Lumberton, N. C.; a \$100,000 mill at Tocca, Ga.; an increase in capital of over \$200,000 for the enlargement of a Tennessee mill; a \$60,000 mill company at Salisbury, N. C; a new mill in Alabama, a \$50,000 mill at Athens, Ga; and a knitting mill at Newport News, to turn out 200 dozen garments a day.
Other important even's of the week

nclude bids for contracts for extensive wharves, docks and piers for the Southern Railway at Norfolk; a \$300,000 cigar and tobacco company in Florida, and a number of miscellaneous enterprises in different parts of the South.

THE MASSEY-PILOT SUIT.

People Crowd the Court Room to Hear Capt. John S. Wise.

NORFOLK, Va., July 25 .-- Capt. John S. Wise occupied nearly the entire time of the City Circuit Court to-day in argung the evidence in the Massey-Pilot libel suit.

A tremendous crowd was out and it required the combined efforts of the entire force of deputy sheriffs to keep the people from jambing each other to the point of injury, and interfering with rder and decorum in their efforts to get nto the building.

Capt. Wise spoke for nearly five hours, eginning with an excoriation of the plaintiff, said by old attorneys to be the most scathing they ever heard to fall from human lips, He took the evidence from human lips. He took the evidence up and argued it in detail, denouncing Mr. Massey's statements as to his in comes as bare faced lies.

The argument is pronounced by friend and foe of the parties to the suit to have been masterly. The peroration was a magnificent flight of oratory, the crowd finding it difficult to keep from applauding the orator's tribute to Virginia and to Virginians. There is a suspicion that cannot be verified, that Mr. Massey will himself make his own argument.

THE BIMETALLISTS ARE HAPPY OVER THE RESULT OF THE ELECTION.

THE DELEGATES WERE PLEDGED.

The Complexion of the New Parliament Shows Increased Friendship for the Views of the Bi-Metallists -- Sir William Harcourt's Course on the Financial Question the Cause of the Liberal Defeat -- The Cause of Silver Gaining Ground Rapidly.

LONDON, July 25. - The Times publishes a column letter from Mr. Bertram Curtis, President of the Gold Standard etence Association, and a member of the firm of Glyn, Mills, Currie & Company, in reply to the statements made by Mr. Henry C. Gibbs, a director of the Bank of England, and President of the British Bi-Metallic League, in the Times of July 13, controverting the arguments made in the manifesto of the Gold Defence Association.

Mr. Currie says that in spite of time and labor spent in the controversy, the Bi-Metallic League is still silent as to any specific plan in which the bi-metallic theory is to be remedied, as to the proposed ratio, as to the methods of enforcing the ratio, or as to the consequences which would follow its estab-

Summing up the situation from this standpoint, Mr. Currie said: "The bimetallists are enthusiastic, ill-advised agitators, instead of practical reform-

The Bi Metallic League has shown increased activity during the past week. Its committee has been in constant session since Monday. The league now occupies large offices in Cornhill, and its members are all delighted with the result of the general elections. The bi-metallists had workers in every district and in Wales. They circulated eight-feet posters stating the nature of their propaganda, and especially pointing out the attitude of Sir William Vernon Har-court, the ex-Chancellor of Exchequer, on the question. All these posters were printed in Welsh.

Secretary McNeill, talking over the situation with a representative of the Associated Press said that most of the Conservative delegates were pledged to bi-metallic principles before accepting the nomination. He added: "The complexion of the new Parliament shows increased friendship for our views. In Wales, they have hitherto not understood the difference between monometallism and bi-metallism and have been wont to accept Harcourt's views as law and gospel. Let me tell you, sir, William Vernon Harcourt is the individual who is responsible for the defeat of the Liberals. His ideas were narrow and bigotted and it is generally conceded | ject. that he is not a financier. You may state as a fact that he has relied during his occupancy of the exchequer upon the financial views of a banker, Mr. Montague. When the cause was presented last February, Sir William Harcourt was its most determined enemy in the Cabinet. It is a significant fact that Mr. Shaw Lefevere, the late President of the local cipal reason for his defeat that many of the voters in his constituency withheld their support owing to his hostility to

bi-metallism. "The cause is gaining great ground in England. We lost a few Liberal friends; but this has been more than equalled by

THE HOLMES CHARNEL HOUSE.

New Victims of this Fiend are Being Daily Discovered.

CHICAGO, July 25.—The Holmes char-nel house yielded new horrors to-day. Several more bones and a small piece of dress goods have been found there. The discovery was made when the search was esumed in the basement of the Holmes' premises this morning. One of the bones found was a shoulder blade, evidently that of an adult, while the other, a socket bone, was smaller and appeared to be that of a child. The police by the discovery to-day, were confirmed in their belief that the skeletons being uncovered are those of the missing, Mrs. Connor and her daughter Pearl.

Mrs. Patrick Quinlan, wife of Holmes' ex-janitor was found by the police and given a severe cross-examination. She had been reported as missing, but declared that she had made no attempt to nide herself. What evidence she was able to give against Holmes, the police refused to say, and Mrs. Quinlan had evidently been instructed by the detecives to maintain strict silence regarding

the case. The story that Quinlan's 11 year-old daughter had been murdered by Holmes was disposed of to-day when Mrs. W. L. Doyle called at the police headquarters and declared that the girl was with her father's parents ten miles from South Haven, Mich. Mrs. Doyle said that her mother owned the house in Toronto in which the bodies of the Pietzel children were found. It is evident that through Mrs. Doyle the police have learned of another of Holmes' alleged victims who had not heretofore been heard of. In talking to a reporter, Mrs. Doyle said that one of the prettiest of the women who ever came under Holmes' influence is also

"Her name was Miss Cigrand, and she was originally from Indiana," said Mrs. Doyle, and she was on the point of giving further information when the police curtly ordered her to cease talking, and ended the interview.

OFFICIALS ARE NOT SURPRISED

The Spanish Commander Did Right to Fire Into the Schooner Lane.

WASHINGTON, D. C., July 25 .- The reported firing on the Carrie E. Lane, an American schooner, by the Spanish cruiser off the Cuban coast, has not yet been reported officially to the State Department, and, in the absence of a definite statement of fact, the officials de-cline to express an opinion on the sub-

The important point to be established in this case is the exact location of the Lane when she was signalled to stop. The Captain's statement is that this was off Cape Antonio, but he does not say whether or not he was within the threemile limit. If he was he could not claim exemption from responding to a demand to establish his identity, as was contended by Secretary Gresham in the Alliancia case, for his was not a vessel following a regular route but one cruising from port to port in the West Indes.

In view of the fact that several filibustering expeditions have succeeded in landing in Cuba from the coast of Jamaica, and other of the West Indian Islands, officials here are not surprised that the Spanish commanders should exercise every precaution to make sure of the innocent purpose of any small sailing craft seen hovering about the Cuban coasts, and it is felt that this particular commander acted within his rights if he fired a shot across the bow of the Lane, if she failed to stop when signalled in regular form. The small size and appearance of the schooner, it is said, was against her, and calculated to excite suspicion as to her object.
