A NEW HORSE THAT MAY BE BROUGHT UPON THE POLIT-ICAL RACE-TRACK.

SIBLEY PROPOSES A NEW PARTY.

He Believes That John Sherman and President Cleveland Will Vote Together Next Time, and He Wants Silver Men to Come Together Along New Lines-Does He See in This a Path to the White House ?-- Will Butler Shine in the New Party ?

Special to the News and Observer.

CARY, N. C., Aug., 16. Congressman John C. Sibley, of Pennsylvania, is an unique figure in American politics. He is *sui generis* and about the only one of his tribe. He is a millionaire several times over and a man of vast business interests. And yet he devotes much of his time to discussing the questions that move the people.

He is popular among the masses, too. When he ran for Congress it was after being petitioned by the voters of an ad-joining district and he is said to be the only man ever elected to Congress from a district in which he did not reside. He gives all his employes a short yearly va-cation, and has never had a strike among all the men who work for him. He says he has never taken interest for money loaned and has never owned a bond.

He was once a Republican, has been for a number of years a Democrat, and now announces that he will follow the man of any party who will lead him to the Mecca of free silver.

He was resting easily in his room when I called on him. Senator Marion Butler was lying on the bed, Dr. Cyrus Thompson and several other Alliancemen were seated around the room.

Mr. Sibley talks to the point and shoots straight from the shoulder. Whatever he means, he says on the spot. They were discussing silver.

"Do you think either one of the principal parties in this country can be trusted to restore silver to free coinage?" I asked him.

"I am afraid that while the disposition would be good," was the prompt reply, "and while the rank and file of both parties are honest and sincere in their intentions regarding silver, the party machinery is so completely in control of the politicians and coporations that the honest intentions will not be carried out."

"Which one of these parties do you re-gard as most favorable to silver?"

"The Republican party is more completely under the domination of the gold element. It is largely a question of lo-cality. The Republicans of the West, and the Democrats of the South are for free silver. Both Democrats and Republicans in the large cities of the East, in the marts of commerce, are for gold, and they are not going to be confused and thwarted to party lines. My individual judgment is that Grover Cleveland and John Sherman will vote the same ticket in 1896. Secretary Morton indicates this in his letter in which he plainly declares that the time for straddlers is past and all those who favor the gold standard must stand together. Maj. McKinley, who has been the representative of the idea has been the representative of the idea of a high protective tariff and is the High Priest in the High Tariff Temple, and Secretary Carlisle, a pronounced free trader who has been trying to de-stroy that temple will, I think, both vote the same ticket in 1896, rather than see bi-metallism restored."

PICNIC AT SCOTLAND NECK The Masons and Odd Fellows of Hali-

fax County Take a Day Off. Special to the News and Observer.

SCOTLAND NECK, N. C., Aug. 16.

Under the auspices of the Masons and Odd Fellows of Scotland Neck there was that the directors of the North Carolina Railroad are seriously considering the given a grand picnic in Capt. W. H. Kitchin's grove near town yesterday. advisability of leasing the said road for a long period of time; and whereas, in the opinion of this body, no greater ca-lamity could befall our beloved State For weeks and weeks great preparation had been made. A large number of in-vitations had been sent out throughout than to put this, with one exception, the only railroad of any importance remain-ing in the hands of its original stock-holders, under the control of a foreign corporation; and whereas, there yet rethe surrounding country and to the neighboring lodges of the orders and a large crowd came in response to the invitation. Speeches were made by Capt. Kitchin, Judge Spier Whitaker and Mr. Claude Kitchin. The subject of Capt. main six years before the expiration of the present lease, giving ample time for the submission of this great question to the people of North Carolina for their decision at the ballot-box, Kitchin's address was Masonry and the Odd Fellows orders. He said that though there was a prejndice against them in certain quarters, they were productive of Now be it resolved, by the North Car-olina Farmers' State Alliance, assembled

great good to humanity. He declared that Masonry antedates Christianity 1,500 years and that it has been the right bower of the church, and that these orders do much good that the church of God cannot do. The speaker laid down a high standard for the orders,

Resolved 2nd. That a copy of these resolutions be forwarded to the Governor saying that a true Mason or Odd Fellow must be a righteous, moral, upright man and if not characterized in his life by all these Christian principles he has no business belonging to either one of these orders.

At the close of his speech Capt. Kitchin invited the great crowd to dinner and about eight hundred people marched down and partook of the tempting feast. Some twenty or twenty-five barbecues had been prepared, and about 50 gallons of Brunswick stew, which is made better in Eastern Carolina than anywhere else.

After dinner the crowd repaired to the speaker's stand and loud calls were heard for Judge Spier Whitaker, of Raleigh. He responded in happy vein. He congratulated himself, on being a native of the grand old county of Halifax where there is always so much of whole souled and open-handed hospi-tality. He said that he had lost a bet on Capt. Kitchin's speech, for he though he would not talk politics at a Masonic and Odd Fellows picnic, but Kitchin could not stop without men-tioning the name of Grover Cleveland. Mr. Claude Kitchin was called for and responded in a few happy remarks, and the crowd spent the remainder of the afternoon in happy social converse.

"How do you regard the last Congress?

"When the Congress has been un-trammeled and not dictated to by federal power and not influenced by the enormous patronage of the government, we have always had a clear majority for the free and unlimited coinage of silver; supreme necessity is a President who fa-vors this reform."

Senator Butler interjected: "If we had a President of any party who was an honest man, a patriot, an American, and who had the interest of this country at heart in the White House, the last Congress would have given the country substantially the financial relief demanded."

"Is free silver sentiment on the in-crease in Pennsylvania?" I asked Mr. Sibley.

"Let me tell you," he said, "if this question were left to the people of Penn-sylvania to vote upon directly, divested of all other issues, it would carry the State by more than 200,000 majority. This country is plastered with mortgages upon the homes and farms of the people, but tenfold worse are the mortgages upon the brains of the people."

The Releigh-bound train blew and the Congressman and the Senator picked up their grips and walked quickly away to the station.

Does Mr. Sibley see in this new party a path to the White House?

Uses Mexican Mustang Liniment

On his horses, on his drivers.

BALFIGH. N. C., Feb. 8, 1895.

Lyon Mfg. Co., Brooklyn, N. Y.

Gentlemen :-- Having seen Mexican Mustang Liniment extensively advertised here induces me to tell you how useful it is to persons in the livery business. I have used it for the past 18 years on my horses for almost everything that horses are subject to. For sprains and stiff joints I do not think it has an equal, and for such things as harness galls and rubs it is wonderful.

I once had a very fine driver who was thrown from his carriage in a runaway and so severely bruised about his shoulders and breast that I did not think he would ever be able to get on a carriage again. I remembered, however, what Mexican Mustang Liniment did for my horses in case of bruises and had him use it constantly, and in about two weeks he was as good a driver as ever, and not an ache or pain remained.

I know you must get tired of receiving such letters, but I thought I would add one more testimonial to the usefulness of Mustang Liniment. Yours truly, W. H. LANCASTER.

For 18 years in Livery and Transfer business.
