

The News and Observer.

VOL. XXXIX. NO. 28

RALEIGH, N. C., THURSDAY, SEPTEMBER 5, 1895.

PRICE FIVE CENTS.

THE LARGEST CIRCULATION OF ANY NORTH CAROLINA DAILY.

HE LOST THE RACE

JOHN R. GENTRY BEAT JOE PATCHEN, BUT HE COULDN'T BEAT THE JUDGES.

WON THREE STRAIGHT HEATS

But the Judges Declared the Last No Heat, and Seven Heats Were Paced --McHenry Protested, and Refused to Pace Gentry Any Longer, Letting Him Jog Along to the Wire in the Last Heat--Judges Threaten to Deal With McHenry.

PHILADELPHIA, Pa., Sept. 4.—The attraction at the Belmont race track today was the special race for \$4,000 between Joe Patchen and John R. Gentry and it was the cause of more dissipation than any similar event in the history of the association. Had there been betting it is doubtful if Curry, the driver of Patchen, would have escaped mob violence. On the first heat, Gentry took the lead and led by a length throughout. The second heat was a repetition of the first. In the third heat Gentry again took the lead and held it to the wire, winning by a nose. It was apparent to the spectators, that Patchen was not being driven to win. Curry was hooted and jeered at, and cries of "take him out," "robber," and such like came from the grand stand. The judges declared this heat "no heat." The time was 2:08 1-4.

In the fourth heat Patchen went out in front and led to the wire, winning easily in 2:11. In the fifth there was further trouble. Patchen set a slow pace and led by two lengths until well onto the stretch. Here McHenry brought Gentry up and Patchen broke. Curry claimed that he could not prevent his horse from breaking, but the judges thought otherwise and declared this also "no heat," and ordered both horses out again.

McHenry said it was an outrage to make his horse pace any more, he being in no way responsible for Curry's misdeeds, but the judges ordered another heat. They took Curry down and substituted Dickerson, who had driven Fred Kohl. Patchen won the heat easily, Gentry not being driven out and was distanced. The judges waived the distance and ordered a seventh heat. Patchen took the lead and jogged the mile in 2:32. Gentry finished in about three minutes.

The judges said they would take action against McHenry to-morrow for the manner in which he drove the last two heats. The first heat of the race was the fastest mile ever made over the Belmont track. The best previous record 2:08, was made by Saladin on August 16th, 1893.

The other two events were easy wins for Fred Kohl and Lynne Belle. PHILADELPHIA, Pa., Sept. 4.—(Bulletin)—In the race between John R. Gentry and Joe Patchen, the pacers, for \$1,000 at the Belmont Driving Park, Gentry won the first heat by ten lengths in 2:06 1-4. This beats the track record of 2:08 made by Saladin.

Gentry Entered at Louisville. LOUISVILLE, Ky., Sept. 4.—The entries for the stake races for the meeting of the Louisville Driving and Fair Association, which begins September 9 and continues six days, have been completed. There will be ten races, for which stakes to the amount of \$22,000 are offered, none being for less than \$1,000. The most interesting event of the meeting will be the free-for-all pace for a purse of \$5,000, in which Robert J. John R. Gentry, Joe Patchen and Rubenstein are entered.

Gentry and Baronet to be Retired. Mr. L. Banks Holt, owner of John R. Gentry and Baronet, in an interview a day or two ago said: "The meetings of the grand circuit have many features which are distasteful to me, and I expect the withdrawal of both Gentry and Baronet will be the final outcome. Horses this year of all classes in the grand circuit are required to go at so great a clip and I am always fearing they will share the same fate as Pamlico, and feeling that they have already won honors and purses sufficient to equip them for the head of any breeding establishment in the United States, I am anxious to retire them to Alamance farm, where they may serve the purpose in advancing high class harness horse breeding in North Carolina. I wish to withdraw them and exhibit them at the North Carolina State Fair in order to aid in making it the greatest fair ever held in North Carolina. So you see there are many reasons for retiring these valuable horses, and the day is not far distant when North Carolina will shelter the fastest stallion in the bounds of our knowledge."

DR. WM. A. HARRIS DEAD. He Was President of the Virginia College for Young Ladies.

ROANOKE, Va., Sept. 4.—William Anderson Harris, D. D., President of Virginia College for young ladies, located at Roanoke, died this morning at four o'clock, in the 69th year of his age. The remains were taken to Staunton to-night and will be interred to-morrow morning in the Staunton cemetery.

Dr. Harris was born in Albemarle county, July 21, 1827, and was one of the foremost educators in the South, having been president of the Wesleyan Female Institute at Staunton for about 27 years. Before that, he had served as president of Martha Washington College at Abingdon, Va. Dr. Harris moved to Roanoke in 1893, and established Virginia College which is now one of the leading institutions of learning in this section of the country.

CAPT. A. H. A. WILLIAMS DEAD.

He Was Taken Suddenly Worse and Died at Eight O'clock Last Evening. Special to the News and Observer.

DURHAM, N. C., Sept. 4. Capt. A. H. A. Williams, ex-Congressman from this, the Fifth district, died at Chase City this evening at eight o'clock. He had been sick for quite a while with Bright's Disease, and had gone to Chase City for the benefit of the mineral water. He seemed to improve slightly under the treatment there. No longer than a day he was reported as resting easier and his condition was said to be improved. The news of his death came to-night as a surprise, in spite of the fact that he had been sick so long.

He had a relapse this afternoon and died within a few hours.

DR. SPAINHOUR A DELEGATE

To the Ethnological Congress--Mr. Scott Thinks we are not Talking Politics Much. Special to the News and Observer.

WASHINGTON, D. C., Sept. 4. Mr. W. W. Scott, law clerk in the Treasury Department, who has been on a month's leave of absence to his home in Lenoir, N. C., has returned to Washington. Mr. Scott says the people are not talking politics much now, for the good crops have given them other things to think about. He says the silver sentiment is very strong but there are a good many "sound money" men also.

Mrs. H. D. White and her mother, Mrs. Jackson, who have been visiting relatives in Raleigh, have returned to this city.

Mr. Lee S. Alford, of the Government Printing Office, returned yesterday from a month's visit to relatives in Johnson county.

Maj. Wm. S. Stanton, of the Engineering Corps, who has been stationed for some time at Wilmington, N. C., has been ordered to Oswego, N. Y. He will be relieved by Lieut. Col. D. P. Heap, of Portland, Me.

The Smithsonian Institution has appointed Dr. J. M. Spainhour, of Lenoir, N. C., a delegate to the Eleventh Congress, Historical, Ethnological, Archaeological and Geographical, of the Americas, to be held in the city of Mexico, October 15 20, 1895.

Arrivals. Walter Murphy, Salisbury. W. D. Mendenhall, Greensboro.

TARBORO'S BIG "OPENING DAY"

Large Crowd Present--All the Warehouses Filled with the Golden Leaf. Special to the News and Observer.

TARBORO, N. C., Sept. 4. This is "opening day" on the Tarboro tobacco market, and the town is crowded with visitors. All three of the warehouses here are filled with tobacco, and many thousands of pounds will be sold today and to-morrow. Prices rule high, and the farmers seem well pleased with their luck here. The men at the head of this movement say that they expect to establish in Tarboro a tobacco market second to none in Eastern North Carolina, and all the prospects point to their complete success. This means a new era for Tarboro, an era of rapid growth. And the visitors appreciate Tarboro's bountiful hospitality.

There were about two hundred thousand pounds of tobacco on the market, prices ranging as high as one dollar a pound, with a large number of buyers on the floor and sales continuing until night, yet all of the tobacco was not sold. A game of ball was played this afternoon between Tarboro and Wilson, resulting in a score of 14 to 12 in favor of Wilson.

A grand concert was given to-night, after which there was a german and banquet. The Naval Post band of Norfolk furnished the music.

TEMPERANCE IN HALIFAX.

County Temperance Society Organized on a Non-Partisan Basis. Special to the News and Observer.

SCOTLAND NECK, N. C., Sept. 4. A non-partisan temperance meeting was held in Halifax yesterday. A good crowd gathered and the Halifax County Temperance Association was organized. Rev. R. P. Froy, of Weldon, was elected president; O. B. Taylor, of Scotland Neck, first vice-president; W. F. Coppedge, of Halifax, second vice-president; E. E. Hilliard, of Scotland Neck, recording secretary; Rev. J. H. Frizzell, of Anselma Springs, corresponding secretary; G. K. Moore, of Hobbgood, treasurer. An executive committee was appointed. An existing committee was appointed. An existing committee was appointed. An executive committee was appointed.

Huntingdon Swept by a Cyclone. NASHVILLE, Tenn., Sept. 4.—A report has reached here that thirteen houses at Huntingdon, Carroll county, were demolished by a cyclone to-day. One man is reported to be seriously injured.

FIVE MEN ASPHYXIATED

THEY MEET DEATH FROM DEADLY FUMES IN A PROVIDENCE GAS HOLDER.

QUITE A PECULIAR ACCIDENT.

The Men Were Overcome by the Gas Before They Knew It--One Had Almost Reached the Bottom of the Stair When He Died--Foreman and the Rescuers Overcome While Digging for the Unfortunates--He is at Death's Door.

PROVIDENCE, R. I., Sept. 4.—Five employes of the Providence Gas Co., went to their death in the cellar of the Westfield Street Gas holder about 2 o'clock this afternoon asphyxiated by gas being the cause. The names of the dead are:

COLTON, James, 35, single, Bird street.
HLEY, John, 45, married, with six children, Thornton Pike.
M'ANUS, John, married, Borden and Mary streets.
BURNS, Lawrence, 19, single, East Providence.
N'MAMEE, John, 36, single, Brook street.

The accident was a peculiar one. For several days leaking gas has been detected in the holder and to-day the company sent six men and a foreman to repair the leak, which proved to come from a defective valve connecting the four-inch main, which supplies the Westfield street holder with gas from the main holder on Globe street. The men had just returned from dinner at 1 o'clock and going down the wooden stairs which led from the entrance of the holder to the cellar below, began to work on the broken valve. They disconnected it and tied a cloth bag about the large main extending in from the street when the bag gave way and an immense volume of gas rushed out. In less time than it takes to tell it, all were overcome with the exception of one, who managed to grope up the stairs where the fresh air enabled him to recover sufficiently to reach the street.

Immediately after it became known that the men were there and unable to get out, willing hands attempted to go to the rescue, but nothing could be done while the escaping gas rushed up the stairs. Foreman Charles Allen did all he could but there was no cut-off in the street and he knew not what way to turn. The police were quickly on the spot and roped off Westfield street and Medical Examiner Palmer stood in the doorway to prevent anybody from going down the stairs.

At the foot of the stairs lay one of the men who had almost reached the bottom stair when he was overcome and sank back with a look of anguish on his countenance. Soon after 3 o'clock the gas company sent a gang of men to dig up the street and get at the main shut-off further along, it being understood that no other means of shutting off the gas could be attained, and even then it meant two hours' work. Foreman Allen took a hand in the excavation and was overcome before the digging had proceeded far.

He was taken to the Rhode Island Hospital in the ambulance, which arrived a short time before. His life is despaired of.

LUDLOW ST. JAILBIRD CAUGHT.

Charles Allen, Who Escaped on Independence Day, Found in Springfield.

SPRINGFIELD, Mo., Sept. 4.—Charles Allen, one of the Springfield, Ill., post-office robbers, who broke out of the Ludlow street jail in New York on July 4, last, was caught here to-day. He was arrested on a telegram from Park, 20 miles south where he had flim-flammed the postmaster and several bankers out of small sums. Claude Webb, a confidence man, recently chased out of St. Louis, was caught with him. Allen's picture sent out by M. D. Wheeler, Inspector at Washington, D. C., offering \$3,000 reward for him, tallies perfectly with the prisoner, and there is no doubt but that he is the right man. Letters found in Allen's pockets show that he has gone under the aliases of P. M. Hogan, M. D. Miller and Charles Robinson. These letters, which are from his wife, are dated Oakland, Cal., and found him at many points between that place and this city.

Joseph Killoan and another man, who escaped with Allen in July, each have \$3,000 reward hanging over their heads.

Dedication of Chickamauga Park.

CHATTANOOGA, Tenn., Sept. 4.—Preparations are going forward vigorously for the dedication of the Chickamauga-Ohattanooga National Park. Indians are already abundant that there will be from 35,000 to 40,000 people present. Provision has already been made in hotels and private houses to take care of 20,000, and in temporary buildings for from 10,000 to 15,000 more. The Governors of twenty-two States and their staffs have already reserved quarters during the three days. The first detachment of United States regular troops arrived from the Columbus, Ohio, Barracks and went into camp on the Dyer field. Others will follow Thursday.

Col. Muldoon Gets the Contract.

CHATTANOOGA, Tenn., Sept. 4.—Tennessee Chickamauga Park Commissioners have awarded the contract to Col. Muldoon, of Louisville, Ky., for four monuments for the park, to cost \$2,000 each, the monuments to be of Tennessee marble and bronze.

DURRANT'S MOTIVE

HIS BOON COMPANION WILL GO ON THE STAND AS HIS ACCUSER.

WHAT CLARENCE WOLFE WILL SAY

Durrant Spoke to Him of Blanche Lamont's Beauty and Purity and Stated in Words too Plain for Print His Devilish Intention--From His Own Circle His Condemnation Comes Like a Thunderbolt--Progress of the Trial.

SAN FRANCISCO, CAL., Sept. 4.—When the trial of Theodore Durrant was resumed to-day, hundreds struggled to get admission to the court-room. The prosecuting attorney commenced the introduction of evidence to-day. The first witness was C. G. Noble, the uncle of Blanche Lamont. He testified to her disappearance on April 3, and the finding of her body in Emanuel Church on April 14. Cross-examination was waived.

The next witness was Dr. A. S. Barrett, autopsy physician at the morgue, who described the autopsy. He said death was due to asphyxiation. On the left cheek were several marks made by finger nails. Asphyxiation was caused by strangulation. He expressed the opinion that the finger marks on Blanche Lamont's throat were made by only one person. There were no solids and very little liquid in her stomach, this statement carrying out the theory that the girl was murdered between 4 and 5 o'clock in the afternoon. The discoloration of the girl's neck gave evidence of there having been a violent struggle.

The cross-examination was continued until the noon recess, and occupied the larger part of the afternoon session, but elicited no points of advantage to Durrant. The police in the afternoon brought to the court room a model of Emanuel Church exact in every detail, to be used in the trial to illustrate the testimony of the witnesses.

SAN FRANCISCO, CAL., Sept. 4.—At the Durrant trial to-day the taking of testimony was begun. The first witness was Dr. Barrett, who performed the autopsy on Blanche Lamont.

The Examiner says the prosecution has a witness whose testimony will show a motive for the murders—something that has been lacking heretofore, on account of Durrant's standing in social and religious circles. The name of the witness is Clarence Wolfe, and it is said that he will swear that in April, or the day before Blanche Lamont was murdered, he and Theodore Durrant held a conversation which explains with terrible significance the young student's motive for killing the girl. Wolfe has told the police and will tell the jury that on the afternoon in April he and Durrant held the conversation which meant so much concerning the pretty girl, whom both knew only for a few months.

Durrant commented upon the beauty of Blanche. In a tone of exultation and not of respect, he assured Wolfe that she was a pure girl, and that he intended to rob her of that virtue which she so prized.

This overwhelming testimony which Wolfe will give has been kept a profound secret by the prosecution. The defense and the public have held that the young friend of the accused would take a stand only to speak a good word for the man whose life is at stake. Intimations were given that Elmer Wolfe would be dragged into the case in a manner little to his liking, but there was no suspicion that Durrant had confided to his friend the ignoble purpose which inspired him. He spoke in words far plainer than those which have been published. He left no possible doubt of what he meant.

The source of this evidence is, in the opinion of Capt. Lees, one of the strongest proofs of its reliability. Had some one who enjoyed no more than a simple acquaintance with Durrant come forward with it there might be some doubt, but its sponsor here is one who possessed the student's confidence, shared with his pleasures and took part in much of the daily routine of his life. From his own circle his condemnation has come like a thunderbolt.

Buckner Pulls Out of the Race.

LOUISVILLE, Ky., Sept. 4.—Gen. Simon Bolivar Buckner, at a card to-day in his home paper, the Hart County News, announces his withdrawal from the race for United States Senator. The General states that in many legislative districts personal interests are against party success, and that candidates supposed to be favorable to him are, nevertheless, a target for opposition in the party. He says that untrammelled by any candidacy of his own he can't more earnestly urge the support of the whole Democratic ticket and advocate the platform of principles as construed by every member of the party at the time of its adoption.

Dr. Taylor Fatally Injured.

WASHINGTON, D. C., Sept. 4.—A special to the Times from Richmond, Va., says Rev. Dr. Taylor, of Rome, Italy, one of the most prominent foreign missionaries of the Southern Baptist Convention, was thrown from a buggy at Appomattox Court House to-day and sustained probably fatal injuries. He has served a number of years in Italy from which country he has just returned to visit his son, Rev. Dr. G. A. Taylor, of Appomattox.

DEFENDER-VALKYRIE RACES.

The Regatta Committee Announces the Programme of Races.

NEW YORK, Sept. 4.—The regatta committee of the New York Yacht Club to-day announced the programme of rules governing the America's cup races. Their principal points follow: Sailing directions—The start will be made off Sandy Hook Lightship, the preparatory signal being given at 10:50 a. m., and the starting signal at 11:00.

Courses—No. 1, (Letter C).—From the starting line, to and around a mark fifteen miles to windward, or to leeward and return, leaving the mark on the starboard hand. No. 2, (Letter D).—From the starting line, ten miles to and around the mark; thence ten miles to and around a second mark, and thence ten miles to a finish line, turning the marks on the outside of the triangle, to port and starboard, according as the yachts are sent around.

Starting and finishing lines—Will be between a point on the committee boat designated by a white light on the main shaft or stake boat if they start in further out to sea. The lines will be at right angles with outward and home courses respectively.

In case of serious accident to either yacht, prior to the preparatory signal, she will display letter "M," and shall have sufficient time to repair before being required to start in the next race.

In case the start is postponed or the starting point is shifted from the lightship, a preliminary signal will be made by firing a gun and displaying the yacht ensign at the fore.

The racing rules, time allowances and system of measurement of the New York Yacht Club shall govern.

Best three out of five races, outside of headlands, over courses each thirty nautical miles in length, and with a time limit of six hours.

The first, third and fifth races shall be to windward or to leeward and return. The second and fourth races shall be around an equilateral triangle, one leg (and the first, if the wind permits,) being to windward. One day shall intervene between each race, unless by special agreement. A race postponed or not finished within the time limit shall be decided before the next race in the series is taken up.

The races will be started off Sandy Hook Lightship, the preparatory signal being made at 10:50 a. m. But if on the day of a race to windward or leeward, the course cannot be laid from the lightship, then the race will be started from some point further out to sea. Although the measurements of Defender and Valkyrie III will not be announced officially until Friday, and possibly not until Saturday, enough has been learned about the spars and hulls of the boats to make a reasonably correct estimate of the racing lengths of the yachts and the time allowance given by the challenger. It is the first time since the big sloop began contesting for the cup that the American boat has had to take the time, although it will not be as great as was expected. The racing lengths as estimated by a well known designer and yachting expert are 101.38 for Valkyrie and 100.22 for Defender. Under the rules of the New York Yacht Club this would mean an allowance of a little less than a minute on a thirty mile course.

TO FIGHT THE TOBACCO TRUST.

Plug Manufacturers in League to Resist the Encroachment of the American Tobacco Company.

NEW YORK, Sept. 4.—Much interest was manifested in the meeting at the Holland House to-day of the plug tobacco manufacturers. Gathered in the hotel were the representatives of such large plug tobacco firms as Pierre Lorillard & Co. and Buchanan & Lyall, of this city; D. Mayo & Co., of Richmond, Va.; Sorg & Co., of Middletown, Ohio; Scotten & Co., of Detroit, Mich.; Finzer Bros., of Louisville, Ky.; the Liggett & Myers Tobacco Co., of St. Louis, and the Pepper Tobacco Co., of St. Louis.

The plug tobacco manufacturers are at present at odds with the American Tobacco Company, and assert that the company has encroached on their territory by the manufacture of plug tobacco. One threat of the plug tobacco manufacturers is that they will manufacture cigarettes and give them away to purchasers of plug tobacco.

The meeting, which was behind closed doors, lasted two hours. Col. M. C. Wetmore, of the Liggett & Myers Tobacco Co., of St. Louis, was president, and the secretary was J. H. Drummond, of the Drummond Tobacco Co., of the same city. After the meeting Mr. Drummond said that there had been a general discussion at the meeting as to the advisability of manufacturing cigarettes and that the majority of those present were in favor of the move.

"But," added Mr. Drummond, "the manufacturers of cigarettes will engage in that branch of the business individually, so that it will be in no sense a combination or a trust."

The meeting adjourned to meet at the same place to-morrow at 4 p. m.

\$300,000 Fire in Boston.

BOSTON, Sept. 4.—One of the most disastrous fires that has occurred along Boston's water front in years started on the docks at East Boston this morning, and before it could be controlled, destroyed three piers, two large storehouses, a freight shed, fifteen loaded freight cars, and a large quantity of freight, and slightly damaged a number of dwelling houses. The loss is estimated at \$300,000; partly insured.

THE FRAKER SWINDLE

A DRUMMER'S SHARP DETECTIVE WORK IN UNEARTHING THE KENTUCKY FRAUD.

PROMINENT MEN IN THE DEAL

If Their Names Were Given Out, the Blue Grass State Would be Shocked--But the People and the Insurance Companies Seem to Have Made Terms That Will Keep the Prominent Kentuckians Thoroughly Under Cover.

St. Louis, Mo., Sept. 4.—J. S. Hackley, one of the best known drummers in the United States, whose business address is Louisville, Ky., and whose residence is Moberly, Mo., is the man who out-stripped the best detective talent in "turning up" the big life insurance swindle, Fraker. Mr. Hackley arrived in St. Louis to-day. In speaking of the case, he said:

"One of the important witnesses is dead. He was drowned in Kansas on August 13th, the day after the insurance companies paid the money over to J. E. Lincoln for the Fraker estate under order of the court, and the other is now in jail at Springer, N. M., awaiting trial for burglary. The first man was drowned under the name of Phillips. I have excellent reasons for believing, however, that his name was Jim Triplett. Triplett, George Harry, who is now in Mexico jail, charged with burglary, and an old negro, who has since died, were with Fraker when he was supposed to have been drowned. I have known both Fraker and Harry for nearly 20 years and when I read the story of Fraker's drowning while on a fishing excursion with such a crook as Harry, I was at once struck with the strangeness of his companionship as evidence of rascality. I have been quietly at work on the case since and from the first I was convinced that Fraker was alive.

"I came to the conclusion that George Harry was the only person with any knowledge of the affair from whom I could force definite and conclusive information. So I began to track him. After treating him, I decoyed him to Moberly, and without letting him know that I had anything to do with it, I had the Marshal of the town, who is a friend of mine, arrest him for carrying concealed weapons. After he had been in the lock up a day without knowing definitely what charge would eventually be lodged against him, I called on him. After an hour's conversation I got from him not only all the details of the conspiracy of the Fraker swindle on the insurance companies, but also the exact location of the doctors hiding place in the woods of Minnesota.

"Then I hurried to Topeka, Kan., and told the officers of the Kansas Mutual Life Insurance Company all I knew. Fraker's arrest soon followed and that is all I will say about the matter at present.

"Had not the insurance companies been after Harry and Triplett, I was asked.

"Of course they had, but they could get nothing from them. I know positively that Mr. Herrick, attorney for the Kansas Mutual Insurance Company not long ago, offered to lay \$15,000 in Harry's lap and guarantee him immunity if he would tell him Fraker's whereabouts."

Further than this Hackley would say nothing. That feature of the story which Mr. Hackley refuses to discuss is pronounced by others who have given the case close attention from the start and who have inklings of what it is, as the most sensational of all the elements which comprise the conspiracy. It is hinted that in it are involved the names of two or three prominent citizens of Missouri, who if mentioned would shock the State. It is probable, so it is said, that the insurance companies themselves have made such terms with these men for obvious reasons, that will be no sort of action against them which will reveal their identity or the important part they took in the conspiracy.

BASEBALL YESTERDAY.

At New York (first game):	R.	H.	E.
New York	3	0	0
Pittsburgh	0	1	0
Batteries: Clark and Wilson; Foreman and Merritt. Attendance, 7,000.			
At New York (second game):	R.	H.	E.
New York	5	0	0
Pittsburgh	0	1	0
Batteries: Rusie and Farrell; Moran and Merritt.			
At Brooklyn:	R.	H.	E.
Brooklyn	1	1	0
Cleveland	0	1	1
Batteries: Daub and Grim; Wallace and O'Connor. Attendance, 5,000.			
At Washington:	R.	H.	E.
Washington	0	0	1
Cincinnati	2	0	5

At Boston:	R.	H.	E.
Boston	0	4	2
Chicago	0	1	0
Batteries: Sullivan and Ganzel; Donohue and Terrill. Attendance, 2,900.			

More Large Shipments of Gold.

WASHINGTON, D. C., Sept. 4.—Telegrams were received to-day by the Secretary of the Treasury stating that \$1,700,000 in gold had been withdrawn at New York for export, and that J. P. Morgan & Co. had deposited \$2,500,000, which leaves the true amount of the gold reserve at the close of business to-day \$100,115,172.
