ARTIST GIBSON SEVERELY HURT Miss Langhorne, His Fiancee, Also Injured in the Runaway.

RICHMOND, Va., Sept. 6.—News has ast reached here of a serious accident to Charles Dana Gibson, the famous artist, and his affianced wife, Miss Irene Langhorne. The two were guests of Mrs. Alexander Cameron at her home, Greenwood, in Albemarle county. Yesterday they were riding behind a spirited horse, Miss Langhorne, who is a splendid horsewoman, holding the reins. The animal became frightened and ran wildly down the rough mountain road, throwing out both occupants of the carriage. Mr. Gibson's left wrist was broken and he sustained many severe bruises. Miss Langhorne's left knee was broken, and she was also badly bruised. Her injuries will confine her to her room for at least two months.

SECRETARY HESTER'S REPORT.

The New Commercial Year Opens With a Smaller Movement.

New Orleans, La., Sept. 6.—According to Secretary Hester's weekly statement, the new commercial year of 1895—1896 opens with a smaller of the second statement. '96 opens with a smaller movement than last year when the crop was 9,901,251 bales, but is within 57 bales of the season before last. The statement covers the first six days of the commercial year up to to day, inclusive, making the amount of the new American crop brought into sight during that time 33, 532 bales, against 50,108 for the same six days of last year, 33,589 year before last, and 50,650 in 1892.

Foreign exports for the new year have been 5,242 bales, against 8,634 last year and the total takings of American mills North and South were 27,172, against 34.170, the latter including 11,152 by Northern spinners, against 19,-746. Since the close of the commercial year stocks at American ports and the twenty-nine leading Southern interior centers have been 1,118 bales, against an increase for the same period last year of 7,304, and show an increase of 67,738 bales under this date last year.

GOLD RESERVE GOING DOWN. The Bond Syndicate did not Stand to the Treasury Yesterday.

WASHINGTON, Sept. 6.—A telegram re ceived at the Treasury Department this afternoon states that \$1,600,000 in gold has been withdrawn for export from the sub-treasury at New York. Slight gains, however, were made at Chicago, and other points aggregate \$186,000, so that the true amount of the reserve at the close of business was \$98,613,529. The cash balance was \$181,577,168. The treasury cofficials maintain the usual reticence on the subject but there is no doubt that they were somewhat disappointed and surprised that the syndicate permitted the business day to close without making any deposit. From the first the officials have confidently believed that \$100,000,000 was the lowest point which the syndicate would permit the reserve to reach, and hence their inaction at this time is not understood. There is, however, no alarm felt as it is expected that the syndicate will come to the rescue on the first sign of uneasiness on the part of the public.

The Opening Not Postponed.

ATLANTA, Ga., Sept. 6. - The management of the Cotton States and International Exposition is surprised to know that reports have gone out to the effect that the opening of the Exposition will be postponed. This report is absolutely without foundation. President Collier was seen this afternoon on the subject and said to an Associated Press reporter "The report is groundless and the Exposition will be opened September 18th, if the world stands. The Exposition buildings are all done and the grounds are practically ready."

Bounty Cases to Go to Supreme Court.

WASHINGTON, D. C. Sept. 6 .- There seems to be no doubt that the Oxnard sugar bounty question, which was yesterday decided by Comptroller Bowler adversely to the Oxnard company on constitutional grounds, will go to the Supreme Court of the United States for final determination. In the meantime, all claims for bounty under the appropriation will be held up pending a final determination by the Supreme Court of the United States of the question of the constitutionality of the appropriation.

Indiana Murder and Suicide.

SULLIVAN, Ind., Sept. 6.-The most horrible murder and suicide in the history of this (Sullivan) county, occurred last night. James Ward killed Aaron Hunter, his father in law, and John Hunter, his brother in law. Ward cut Hunter, his brother in law. VALKYRIE, DEFENDER?

THE RACES FOR THE AMERICA CUP BEGIN AT NEW YORK TO-DAY.

NEW YORK PACKED WITH PEOPLE.

contest for the America's cup has ever aroused such intense and widespread interest on both sides of the Atlantic as the races between Defender and Valkyrie III, which begin to morrow off Sandy Hook. Not only are hundreds of strangers in town from Boston, Philadelphia, Baltimore, Chicago and many other cities of the far west, eager to witness the grand struggle between the two speediest yachts ever built, but the number of foreign visitors who are here for the same purpose has never been ex

The hotels are packed with guests and every available excursion steamer in the vicinity has been pressed into service to accommodate the thousands of sightseers who will witness the rare spectacle.

Such a big ruch for the ocean course has been anticipated for to-morrow that unusual precautions have been taken by the cup committee to have the course properly patrolled so that the racing yachts shall not be interfered with by the excursion fleet. The patrol force will be in charge of B. S. Osborn, who looked after the recent naval parade at the opening of the Har-lem Ship Canal, and Lieut. Delehanty, Supervisor of the Port. Col. Gillespie, of the Eugineering Corps of the United States Army, and Navy Yard officials, are all interested in securing fair play for the racers.

The committee has also issued a no tice to all captains of excursion boats and pleasure craft, urging the necessity of keeping an absolutely clear course, and doing all in their power to prevent interference with the racers, so that there may be no cause for complaint, as there was on several occasions during the international races two summers

Local forecaster Dunn says of to-morrow's probable weather:

"Taking it all in all, the conditions most likely to prevail to morrow will be favorable for the contest. There will be a brisk wind of from twelve to eighteen miles an hour. It will come at first from the northeast, shifting to southeasterly quarter. It is bound to be an on-shore wind. The indications are that the sky wild be overcast nearly all day; there may possibly be light showers, but it is not likely that there will be any heavy rain."

Designer Walson of the Valkyrie said to day to a reporter:

"I am going down to the race ex-

He said this seriously, but neither he nor any of the other Valkyrie people looked very downcast.

The result of the measurers, work on the yachts was a great surprise. No good judge thought that the English yacht would give over a minute and a half in a thirty mile course, to the De fender, yet many capable critics said that the challenger would give a minute; but that she should yield less than half a minute was astonishing to all the smart people. However, here are the figures, and they speak for themselves:

Defender: Length on load water line, 88.45; from after end of main boom to forward point of measurement, 181.79; from toreside to foremast to forward point of measurement, 73 55; extreme of spinnaker boom, 73.36; main gaff, 64.95; topmast, 57.42, one-fifth, 45 94; height upper side of main boom to topsail halard block, 125,48; sail area as per rule. 112.26; sailing length as per rule, 100.36

Valkyrie III: Length on load water line, 88.85; from after end of main boom to forward point of measurement, 186.02; from fore side foremost to forward point of measurement, 78.94; extreme of spinnaker boom, same length main 59.50; topmast, 55.98, one-fifth, 44.78 height upper side of main boom to topsail halyard block, 129.80; sail are a as per rule, 114.14; sailing length, as per ile, 101,49.

When Mr. Hyslop brought the meas urements to the New York Yacht Club he said that the Valkyrie would have to allow the Defender 29.10 seconds. It was only his business, he added, to turn the measurements over to the regatta com mittee, and let that committee decide what the time allowance would be. Nevertheless he felt that 29.10 seconds was the fair thing. The committee considered the question for a long time and at 19:25 p. m., posted up a notice on the club's bulletin board to the effect that the allowance would be 29 seconds, leaving off Mr. Hyslop's added one-tenth of

a second. The races will perhaps be very close, but no tenths of seconds will separate

the boats at the finish. It will be noticed that the load water line lengths of the ships show only a difference of forty hundredths, in favor of Defender, and that the length of Defender's gaff went considerably toward reducing the small advantage gained on the water line. It will also be seen that the sail area does not show so great a difference as was expected and that the general rating of 100.36 for Defender, as against 101.49 for Valkyrie, displays a

margin between the boats so small that obody guessed it.

The Regatta Committee issued the folowing circular to night: "The course of the America's Cup races will be laid out by Lieutenant C. M. Winslow, U. S. N., of the New York Yacht Club, who will be in charge of the tug Edgar Lucken-bach. Mr. Winslow took the tug down the bay today to adjust compasses and test the patent log. Lieut. H. Morrell, U. S. N., also of the New York Yacht Club will be in charge of the Lewis Luchenbach, which has been chartered for the purpose of making one end of the line in case the start be shifted from the lightship. This tug will also mark the second float in course No. 2, and will assist the patrol fleet when not otherwise engaged."

On the announcement of the time allowance the betting altered somewhat

and went to even money.

LONDON, Sept. 7.—The Chronicle says this morning: "If Valkyrie III does not hoist the winning flag today or on Tuesday, we shall probably never build a yacht that will do as well in the dry air of American waters as in the moist winds of Albion. Yet we may be sure that the rivalry now established will not

WASHINGTON, D. C., Sept. Mr. Walter E. Faison, Chief of the Consular Bureau of the State Department, was to day appointed temporarily as Solicitor of the Department of State, vice Judge Dabney, who has resigned to fill the office of Professor of Law in the University of Virginia. Mr. Faison is thoroughly acquainted with the work of his new office, having discharged before the duties of Solicitor. It is very prob-able that his appointment will be made permanent.

Mr. Faison is a North Carolinian, and was born in Sampson county. He practiced law for several years at Clinton, and later received an appointment as law clerk in the State Department at Washington. He has held office during successive administrations, and sometime ago was made chief of the consular bureau of the State Department. He filled this office with singular ability and faithfulness, and won the confidence and high regard of the late Secretary Gresham. At the time of the ap-pointment of Judge Dabney as solic itor Mr. Faison was prominently mentioned for the place, and had Secretary Gresham known him then so well as he did afterwards, Mr. Faison would have received the appointment. Evidence Yesterday All Regarding the Murder of Blanche Lamont. SAN FRANCISCO, Cal., Sept. 6.-The taking of testimony in the trial of Theo-

ing the three days in which witnesses have been on the stand all that has been established is that Blanche Lamont is dead and that her body bears marks of violence. The police and detectives are still gathering testimony to strengthen the prosecution. It is now said the defence will rely largely on the improbability of the prosecution proving its case beyond any doubt. To-day's witnesses in the trial were introduced by the prosecution to complete the evidence that Blanche Lamont was murdered. Policeman Riehl, who accompanied detective Gibson to Emanuel church on the day Blanche Lamont's body was discovered, testified to the condition of the corpse and to the presence of blood on the floor near the girl's head, on the belfry stairs and on the floor where it had dripped from the steps. He stated there was no evidence of a struggle there, the inference being developed by the defence that the murder was committed downstairs, but the body was carried to the tower. The defense will try to show that one man could not have borne this burden unaided. The prosecution will try to prove that Blanche weighed only 110 pounds, and that Durrant could have carried her with little difficulty. O. G. Noble, uncle of Blanche, was called by the District Attorney to again establish the identification of his niece, both in the church and subsequently at the morgue. J. F. Hallett, a morgue deputy, told how he and another deputy had taken the body from the church to the morgue. Policeman T. J. Coleman swore that on April 14, when searching in Emanuel Church for evidence of the murder, he found two door knobs which had been broken off the beltry door and afterwards con-
