

GENTRY COMES HOME

AND PATCHEN COMES WITH HIM FOR A DAY AT REIDSVILLE.

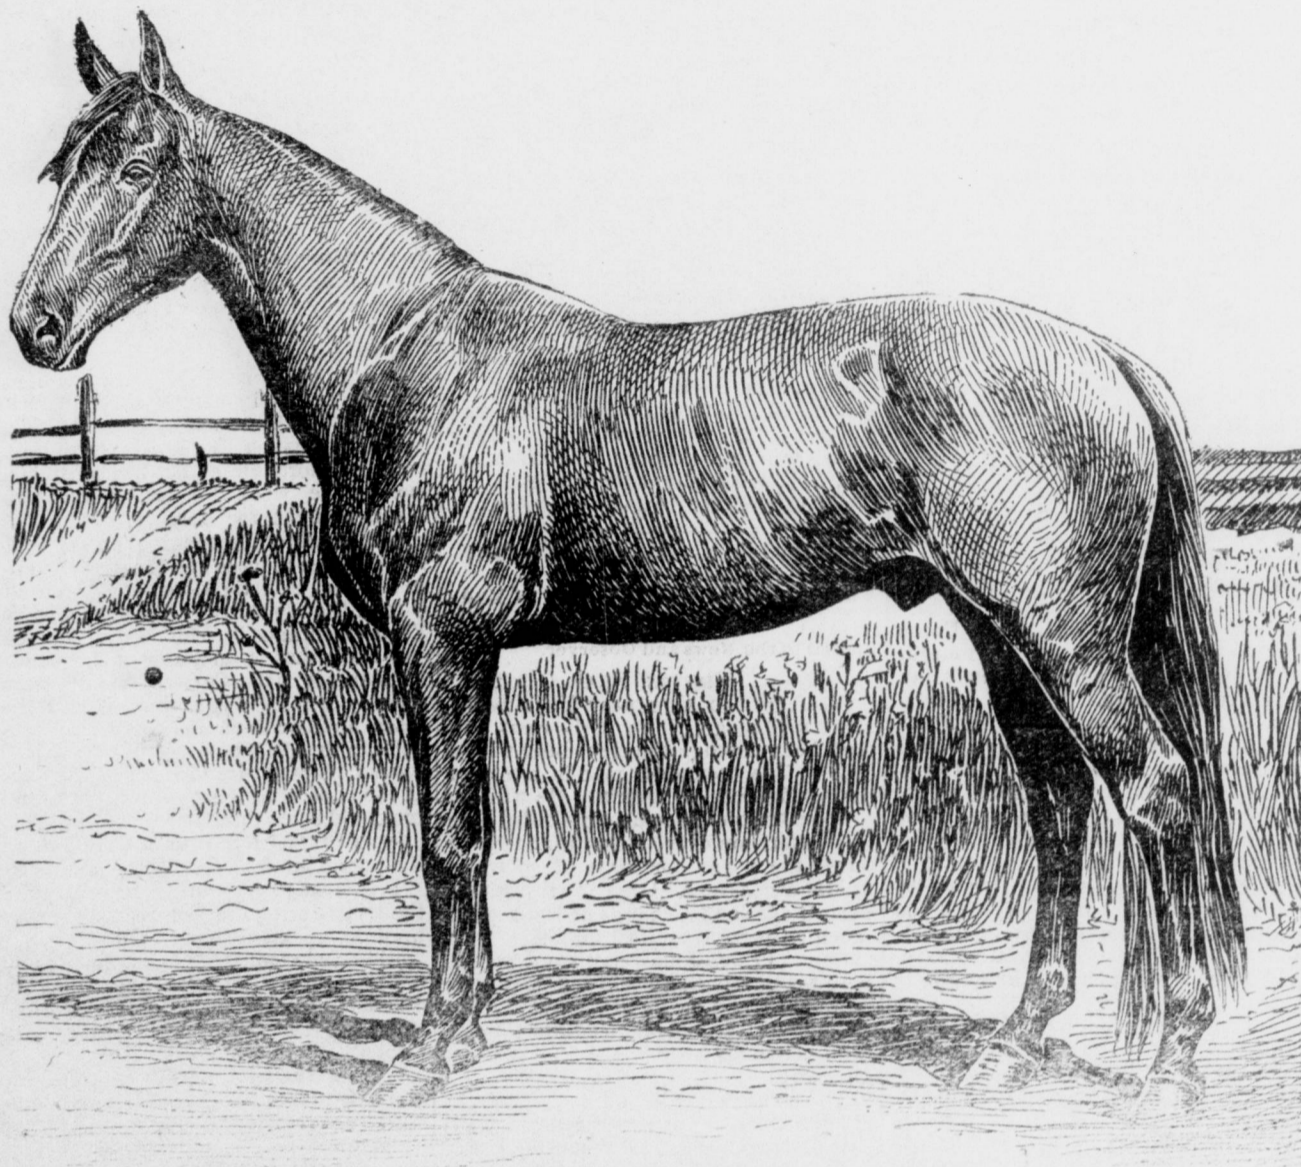

THE WORLD'S RECORD BREAKERS

The North Carolina Whirlwind and Kansas Cyclone to Meet on Tar Heel Soil to Contest for the Closing Honors of the Season--Reidsville Wild Over the Arrival of the Pacing Kings--Thousands of North Carolina Lovers of Sport Will See Them on Thursday, the 31st.

Special to the News and Observer. REIDSVILLE, N. C., Oct. 23. Everybody and everything here and hereabouts is on the qui vive over the approaching contest between the world's stallion champions, John R. Gentry,

Raleigh Thursday morning will connect with Greensboro with a flyer that will put them in Reidsville in time to see the great race. Both horses will be driven to win as this is the closing of the season's circuit, and honors won now must last till next season. Gentry goes from here to his home at the Alamance farm where he will spend the winter. Patchen will return to his home in the West. Gentry, Patchen and Robert J. have done the grand circuit and have drawn crowds in all the large cities. They quit the season with honors about even, with the two stallions to settle the question as between them here on Thursday next. The season has been a triumphant one with the three great pacers. Neither horse has clipped anything from last season's record, but the two stallions have touched their best time on one or more occasions, Gentry did the wonderful feat of pacing a third heat in 2:03 3/4, breaking the third heat record of the world. Everybody here expect an exciting

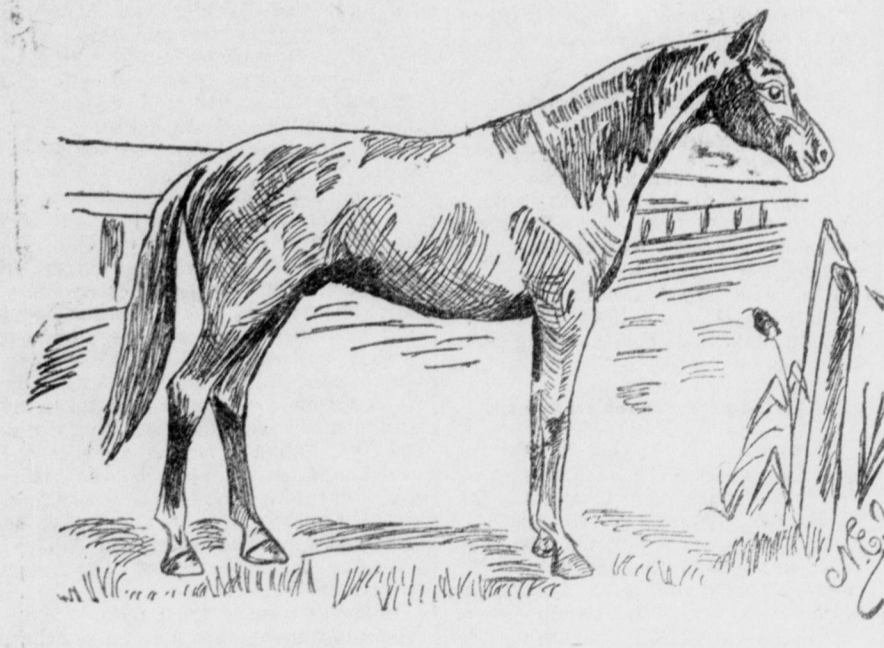

THE FLOW OF THE SAP.
Nothing Goes Downward in a Tree Except the New Growth.
RALEIGH, N. C., Oct. 26.
To the Editor of the News and Observer: I hope you meant that statement in this morning's issue, about the sap running down the trees at this season of the year, as a silly thing as that. So long as there are green leaves on a tree it is taking moisture from the soil and evaporating it into the air. Nothing goes downward in the tree except the new growth, and no moisture ever gets into the soil from the roots of trees. There is no such thing as a descent of the sap. The crude sap water always goes up, never down in a tree. The material for growth is made in the leaves and sent thence to every part where any growth is going on, even to the most remote rootlet. Roots are produced by the assimilation in the leaves, and their only office is to draw water in which the food for the plant is dissolved from the soil

John R. Gentry 2:03 3/4.

2:03 3/4, and Joe Patchen, 2:04. The famous pacers have arrived, and their arrival has created a sensation. They are in splendid trim and Gentry seems anxious to try the metal of his antagonist on his (Gentry's) own dung and hill. Patchen is as trim as alark, is going to make the North Carolina horse do some lively shuffling, or disappoint his friends. With Gentry comes one of his owners, Mr. J. F. Scott, and a retinue of aids, his other owner, Mr. L. Banks Hoyt, will be here on Thursday and see for the first time this season his great horse on the turf. Patchen is in charge of Curry, his celebrated trainer, and a crew of assistants. They travelled from Tennessee here in a specially prepared express car, and came all the way by express. These are the most famous horses to-day in the world, and on Thursday next will enter such a contest as has never been witnessed in this or any other Southern

race on Thursday the purse is \$2,000. There will be other interesting races, but of course the great pace is the over shadowing event. The races in Reidsville have been great heretofore, but in comparison with the Gentry and Patchen race they are "as moonlight unto sunlight, as water unto wine." All are invited who believe with Sam Jones that "there is no harm in going to see a horse race. The harm comes in the little scrubby men who stand around and bet on races." **Reduced Rates to Reidsville.** The Southern Railway Company will sell tickets from stations on their line to Reidsville and return, one fare for the round trip for parties attending the race between John R. Gentry and Joe Patchen. Tickets will be on sale Oct. 26, 27, 28, 29, 30 and 31st and November 1st, final limit November 4th inclusive. The rate from Raleigh will be \$3.45.

Joe Patchen 2:04.

State, except, probably, Kentucky. North Carolinians will have an opportunity of witnessing their own king of stallions outpace the winds and outpace the Kansas whirlwind, unless he makes pacing motions in the air and hits the track only every once in a while. Reidsville, Greensboro, Danville and other tributary towns are getting ready to close up shop and come in bodies to see the great contest. North Carolina loves Gentry, and appreciates the boldness and enterprise that prompted one of her public spirited citizens to own him at great cost. Lovers of sport everywhere appreciate the brave, black Kansan, Gentry's only rival, in the stallion world, who comes on Gentry's heels to contest for the last honors of a triumphant season. The Reidsville race track is one of the best and fastest tracks in the country. It is ready for the lightning fuses heels of the great pacers. Trains will run from every direction during Thursday forenoon, and Reidsville is preparing to greet such a crowd as seldom assembles in this part of the country. Tell your people from Raleigh, Durham and other points that the train leaving

Do you make doughnuts this way?
For frying, Cottolene must be hot, but don't let it get hot enough to smoke or it will burn. To find if it is hot enough, throw into it a single drop of water. When at just the right heat, the water will pop. Genuine has trade marks--"Cottolene" and steel's head in cotton-plant wreath--on every tin.

Peace in the family depends largely upon trifles, little things that please or provoke. Heat is one important thing; half a homes' discomfort often comes from a stove that poisons the air and warms the room in spots. "Rapid Transit" stoves give an equal amount of heat in all parts of the room and insures a good ventilation. We have the best line of heaters in the city.
