WEEKLY TRADE REVIEW

GENERAL BUSINESS HAS BEEN INTERRUPTED BY THE ELECTION.

AND AFFECTED BY MILD WEATHER

The Controlling Power at Present is the Effort to Readjust Prices After the Remarkable Rise of Last Summer-Great Combinations Struggling to Prevent Decline-Cotton Mills Doing Well and the Demand for Textiles Steadily Improving.

New York, Nov. 8.—R. G. Dun & C.'s Weekly Review of Trade, which issues to-morrow, will say:

"It has been a broken week, and just before and after elections in the most important States, operations rarely have much significance. Business may be largely affected in time, but as yet there is scarcely any indication what the effect will be. The controlling power at present is the effort to readjust prices after the remarkable rise of last summer in important materials and products, with the struggle of great combinations

to prevent decline. Cotton mills do well, as the halt and hesitation in cotton does not stop buying of goods, and many believe goods safe at current prices, even if cotton is not. The market for raw cotton is held at 8.81 cents in spite of a highly re-spectable estate of only 6,435,000 bales for the year. Even at that the supply of 9,400,000 would be more than enough. but other estimates are much higher.

Wheat falls back with great reluctance from its summer rise of 20 cents, but has declined 1 1-4c for the week, western receipts being 8,019,910 bushe's, against 3,845,032, for the same week last year. Belief in a crop much smaller than last year's has to resist actual receipts of 43,725,368 bushels in six weeks, against 30,446,005 last year, and Atlantic exports have been only 9,093,424 bushels, flour included, against 13,347,619 last year. The exports in winter wheat from some States are also better.

Corn comes forward largely, receipts being more than double last year's, when nearly a million bushels went abroad. The rapid marketing of supplies of wheat from Russia and Argentine, and the larger exports of corn from this country, both tend to lessen the future demand for American wheat.

Failures for the week have been 280 in the United States against 261 last year, and 49 in Canada, against 42 last year. Bradstreet's Review of Trade.

NEW YORK, Nov. 8.-Bradstreet's to-

morrow will say: The interruption to general trade throughout the country, incident to election, has been emphasized by unusually mild weather, which checks demand for clothing, heavy weight textiles and other seasonable goods. Jobbers almost of the large distributing centers report that orders now received are largely of a fill-

ing in character. Except for iron, steel and cotton, the larger portion of advices in prices of commodities reported since March last, has largely disappeared. Earlier anticipations of continuous advices in prices and demand this way the outgrowth of and demand this year, the outgrowth of the activity of two and three months ago, have met with disappointment. But there is little reason for the reaction in sentiment by many who discuss business conditions. Every wave of increased demand since the tide began to rise in March, has resulted in net gain. Sentiment of traders generally is that the outlook promises an active spring trade, and that the holiday season will prove satisfactory. The feature of the business week among larger eastern cities is an improve demand ford textiles, with increased strength in iron at Pittsburg after the recent reaction.

FIRST DINNER AT BILTMORE. Repast at Mr. Vanderbilt's Monday Evening.

Asheville Citizen. Biltmore House, with its stately magnificence of architectural evolution in sculptured stone and massive elegance, has passed from the builder's finish to reception of its owner, and covers for the initial repast in the chateau were laid Monday evening, when Mr. Vander-

bilt entertained at dinner Mr. and Mrs.

Richard H. Hunt, of New York, who have been his guests on the estate dur ing the past fortnight. The apartments beneath the north

roof of the mansion are finished, but within the southern walls there are rooms not yet completed. In the library the artists are placing two immense canvasses on the ceiling that lately arrived in America from Venice, where they were purchased by Mr. Vanderbilt, and taken from the ceiling of a room in a Venetian palace.

Gov. Carr in Atlanta.

Gov. Elias Carr is in Atlanta on a pleasure trip, accompanied by his wife and two daughters. When seen by a Journal reporter, Gov. Carr said: "I Journal reporter, Gov. Carr said: am not here in my official capacity, but simply on a visit of pleasure to see the exposition. I have no progamme at all and don't know what we shall do while in the city, except to take in the points of interest "We will remain here three or four

Everything is quiet in North Caro-

lina," continued the Governor.

"We have had no elections recently, and have taken no part in the prevailing political excitement.

"Last year we lost everything. You know," said he, "the fusionists elected both Senators."

Invitations have been issued to the marriage of Miss Etta, daughter of Mr. and Mrs. Archie A. McLean, of Robeson county, to Mr. J. F. L. Armfield, of Mr. Wednesday evening, November

Mrs. C. A. Battle, wife of Gen. Cul-len A. Battle, of Newbern, died on Wed-nesday at Petersburg, Va., at the resi-dence of her son, Rev. H. W. Battle, pastor of the leading Baptist church in that

WHAT AILS THE PEOPLE?

The True Cause of Most Physical Troubles Made Perfectly Clear. "What are the principal ailments of the American people?"

This question was recently put by a re porter to Dr. Ephraim Cutler, whose name siands foremost in the ranks of the medi cal profession. His answer was:

"Bright's disease. "The great increase of this fearful malady is attracting universal attention. Everyone is anxious to know how it is brought on. "What causes it, Doctor." The physician paused for a few minutes before replying, and then said: "I can best explain that by a very simple illustra-tion. Any one who eats beefsteak knows what is fat and what is lean. Now, if the musele of the steak is partially changed to fat, it is called 'fatty degen eration.' In the same way, with the human body, if the kidney substance changes into fat, it is called 'Bright's disease' Bright's disease is fatty de generation, and not one person in twelve is free from some form of kidney or liver

'May I ask if there is any cure of these complaints?" the reporter in-

"Yes," replied the doctor, "there is, if people will only take the right remedy at the right time. As a rule, it is only when they break down, lose appetite, find their complexion sallow, a constant white coating on the tongue, and inflamed eyes that they suspect any thing is wrong. American genius has found it possible to arrest diseases of the liver and kidneys and to positively cure Bright's disease. The discovery of Warner's Safe Cure has been a God send to the world. There are thousands of men and women who are alive to-day and kept in health entirely through its use. This fact is now known and admitted by physicians in every portion of

the globe."

The words of the doctor are true and they demand the serious consideration of everyone who reads these lines. Bright's disease is, undoubtedly, the most alarm ing of all our modern diseases. It often comes without warning, has few symptoms of its own, but shows the signs of almost all other complaints. Any man or woman who is at all "out of sorts" should not hesitate, for it is a well-known truth that "delays are danger-

THE SPORTSMAN'S PARADISE. Eighteen O'possums Caught up one Persimmon Tree.

Special to the News and Observer.

AURORA, N. C., Nov. 8. Mr. W. T. Bryan was out hunting last night and caught five o'possums and a fine gobbler. But Horace Jenkins, colored, did better than that He caught eighteen o'possums, all of them being up one persimmon tree. A few days ago three of our citizens went out wild goose hunting returning at night with 60 fat geese, the result of one day's to try Mrs. Person's Remedy. I was such as deer and bear.

relatives here.

Dr. J. W. P. Smithwick, of Bertie, has located in this place for the practice

of medicine The co'ton crop has about all been gathered and sold. The farmers in this section are complaning that their corn crop is almost as short as the cotton

There is nothing that causes women OO LOEWELL CO greater discomfort and misery than the constantly recurring headache. Men sufless with headache. "My wife's health was very indifferent, having headache continually, and just two packages of Simmons Liver Regulator released her from all headache and gave tone and vigor to her whole system. I have never regretted its use."-M. B. DeBord, Mt. Vernon, Ky.

Strength and Vigor

Given by Hood's Sarsaparilla Abscess, Varicose, Veins, and Other Troubles.

"I wish to testify in behalf of Hood's Sarsaparilla. Different physicians and my friends had given me up. I was treated for spinal disease, consumption and varicose, and an abscess or my left hip. I was simply awful and I could not walk for many months. I had to be carried and handled like a child. I became reduced in weight from 132 to 70 pounds. At last a friend persuaded me to try Hood's Sarsaparilla and I have

Cained in Several Ways and now weigh 125 pounds. The abscess on my hip is almost well and I have gained strength and vigor. I

Hood's Sarsa Cures gladly recommend Hood's Sarsaparilla to other sufferers." Mrs. Ella Brillhart, Abilene, Kansas.
