## Britisher Determined,

CONSTANTINOPLE, Nov. 29, via Sofia, Bulgaria, Nov. 29 .- The political situation remains critical, and the crisis may be expected within the ensu-

ing twenty-four hours. The Sultan, who is only more thor-oughly under the influence of the palace party, led by Izzet Beystill, de-clines to give the firmans applied for by the representatives of Great Brit-ain, Russia, Italy and Austria for the ain, Russia, Italy and Austria for the passage of extra guardships through the straits of the Dardanelles. This is the more extraordinary, as on Tuesday Twefik Pasha, the Turkish minister of foreign affairs, personally assured Sir Philip Currie that the Porte had determined to study immediately the determined to grant immediately the permission required. It would thus seem that while the Turkish ministers are apparently in favor of granting the firmans, the "palace party" priests, chamberlains and others, who are the real advisors of Abdul Hamid, are op-posed to it as calculated to lower the dignity of the Sultan. Meantime the Mussulmans are grewing uneasy, look-ing upon the threatened advent of the extra guardships as nothing less than a warlike demonstration before Constantinople. This is a dangerous feature of the

affair, and is adding to the anxiety felt on all sides.

In spite of the threatened storm, however, the Sultan persists in his refusal to issue the firmans and has again made an evasive reply to the Brit-ish ambassador's representations on the subject. But, Sir Philip Currie, when assured by Twefik Pasha that the firmans would be forthcoming, promptly telegraphed to the admiral in command of the British Mediterran-ean squadron instructing him to despatch a gunboat in the disposal of the British embassy. As a result the twin screw torpedo Bryad, 1,070 tons was despatched to the Dardanelles and is expected to the Dardanetics and is expected to pass right on to the Bos-phorus. The failure of the Porte to grant permission for the passage to the straits of the Dardanelles thus puts Sir Philip Currie in a somewhat em-barrassing position, the only escape from which is to order the Dryad to proceed and insist that she he allowed to pass in, backing up the order by force, if that should be necessary.

The Sultan is known to be in a state of greatest agitation by the news that the extra British gunboat is heading for the Dardanelles, on the strength of the assurance given the British ambassador by the minister of foreign affairs, and, consequently, the position of Twefik Pasha is not a pleasant one. that the outbreaks were the work of "a few misgaided persons." The latter was sent for at midnight and an exciting interview took place between him and the Sultan, during which the latter bitterly and darefully reproached Twefik Fasha for his ac-tion in the matter. The Pasha tried to justify bimself by recalling that the granting of the firmans had been agreed to in substance by the Sultan and that be, as in duty bound, so in-formed Sir Philip Currie when the latter sent an argent message asking for a prompt reply to several communications on the subject. The Sultan insisted that it was impossible to issue the firmans as it would cause rioting in Constantinople and that the powers should be content with the measures taken by the government to maintain order and not hamper the authorities by making a demonstration likely to undo all the good he was endeavoring to do. The Sultan then instructed Twefik Pasha to do everything possible to induce the British Ambassador to countermand his order for the gunboat. Sir Philip, however, refused to do so, saying that he was tired of being trifled with and reminding his visitor that Great Britain was acting entirely within her treaty rights and upon the assurance of a responsible member of the Turkish government that the Porte had decided to grant the permission for the extra guard boat then past the Dardanelles Twefik Pasha returned to the palace in a very unenviable frame of mind and announced the failure of his mission to the Sultan. The latter is s said to have been fratic with rage and drove the Twefik from his presence with fierce revilings. The President of the State Council, Said Pasha, who is supposed to have some influence with Sir Philip Currie, was thereupon querried and sent for and reached the apartments of the Sultan after 1:30 a.m. Abdul Hamid eagerly besought him to go immediately to the British Ambassador and spare no effort to induce him to order the recall of the Dryad. The entreaties of Said Pasha seem to have had weight with the Ambassador, for Sir Philip finally consented to place the whole matter at that late hour once more before his government and to await further instructions. Although he is understood to have carte blanche as to what steps he thinks it necessary to take in treating with the Sultan. The British Ambassador is awaiting a reply from London. The Turkish officials believe the Marquis of Salisbury, acting upon the understanding that nothing is to be done to hinder

Philip to direct the commander of the Dryad not to enter the Dardanelles a present Abdul Hamid appears to have completely lost his head and the public service is entirely disorganized.

United States Minister Terrell, has received details confirming the reported massacre of christians and the des truction of American mission property at Marash, on November 18. It is nov established beyond a doubt that the schools of science attached to the American Mission and other buildings were pillaged and set on fire, and that two other buildings belonging to the Americans were ransacked.

Mr. Terrell's advices also confirm the statement that no protection was afforded the Americans or their property, in spite of the promises of the Porte, until eight hours after the rioting. The American missionaries, telegraphing under date of Tuesday last, November 26, from Marash, say they are all safe under the protection of the Turkish authorities. An estimate is being made of the damage done and the Turkish officials says they are doing everything possible to recover the property looted from the American buildings. Every report which reaches Constantinople, not only confirms the stories of reported outrage but adds to the list of horrors recorded and swells the death roll by hundreds daily. Blood, fire and famine have been stalking unchecked if not encouraged throughout the Asiatic dominions of Turkey and the hour, it is again said, cannot long be delayed when Eurpoe must ery "Halt" and the cross be upraised against the green banner of Mahomet.

From Erzeroam some additional news was forthcoming to-day but it only served to paint the picture blacker and redder. More attempts to extricate the Christian population of that city and vicinity have been made and the Armenians who survive are actually being induced by their priests to embrace Islamism to save their

A despatch from Kharput, dated yes terday, November 27, reports that it has established that the American mission buildings which were recently destroyed by rioters, previous to the massacre of about 800 christians were set on fire by the Kards in the presence of the Turksh police, who made ab-solutely no effort to prevent them from so doing. It is added that the Mussulmans also took part in the incendiarism, al though the American missionaries and the unburned houses were protected by a detachment of about one hunared soldiers. Unly slight confidence is felt in the security of the American missionaries who remain at Kharput, and the non-arrival here of letters from them, giving details of the recent disturbances at Kharput, leads to the belief that, in spice of the prominences made by the Porte, to Mr. Terrell, they have been interrupted by the Turkish aut horities.

Further advices from the provinces stablish the fact that the local Turk isb officials are continuing their efforts to force the Armenians, under serious threats, to sign addresses of gratitude to the Sultan and to declare

THIRD DAY OF THE CONFERENCE

A Large Number of Preschers Passes the Examination of Character Yesterday .... An Enthusiastic Sunday School Mass Meeting -Dr. Barbee's Address on the Publishing House Interest -- Dr. Kilgo's Report of Trinity College Work.

REIDSVILLE, N. C., Nov. 29.-(Special.)-The Western North Carolina Conference met in its third day's ses sion this morning at 9 e'clock

The routine business under the head "Are the preachers blameless in life and official administration?" was taken up and a large number of preachers passed the examination of character. One young preacher in making his report gave 117 baptisms and twelve accessions. Inquiry was raised as to what became of the large number of baptisms. The young preacher replied: "One hundred and sixteen of them were infants." (Laughter.)

When Central church, Asheville, was called, Dr. Creitzberg, the pastor, reported a fine year and everything up in full, whereupon Dr. James Atkins arose and said: "Bishop, Asheville produces good Christianity as well as good climate.

Dr. Kilgo, President of Trinity College, was introduced to the conference and his report of the college was re-ferred to the board of education.

When pastor Jones reported Hendersonville station, he remarked that they had better climate than Asheville, whereupon Dr. James Atkins arose and said, "Bishop, if he says that, we will have to arrest his character."

Rev. George W. Ivey, one of the most homored and best beloved members of the conference, in making his report stated that his collections were not up in full, but that he had the gratification of having made a faithful effort to get them. He said, "Bishop, I rode fiteen miles for fifteen cents." Dr. Barbee addressed the conference

on the publishing house interest. He represented the house as having a very flourishing business. He said that there is no church between the earth and the sky that is so true to herself as the Methodist Episcopal Church South. In speaking of the Nashville Advocate Dr. Barbee said, "There is no editor in all this land in any church or out of it, that is the equal of Dr. Hass. His great editorials are an education in any family. When you pick up that paper you can challenge the whole world to show its peer." The Doctor's counsel to the young preachers was very timely and richly enjoyed by the conference.

In the afternoon many of the committees were in session. A considerable part of the work of a Methodist Conference is done in the committee rooms

to-morrow will say: The volume of general trade shows a falling off compared with the preced-

ing week, largely owing to the inter-vention of the Thanksgiving holiday, but in part to the continued effect of mild weather East and South, storms in the Central West, and the usual disinclination of buyers to add stocks dur-ing the closing month of the year.

Western jobbers report activity no-ticeable in clothing, woolen goods, rub-bers, shoes and holiday specialties, with some increased demand for coal and light hardware.

General trade remains unchanged at the South, with mercantile collections in some instances improving, the tendency of cotton to move slowly, and the movement of merchandise smaller than in October.

On the Pacific coast a smaller volume of business is reported from San Francisco, with shipments East of wheat, which strengthen the local grain market. Exports of wheat, (flour included as wheat) from both coasts of the United States and from Montreal amount to 2,460,000 bushels, as compared with 2,916,000 bushels last week, 2,667,000 bushels in the week a year ago, 2,440,000 bushels two years ago, and 4,533,000 bushels in the week three years ago.

was destroyed by fire this morning about three o'clock. Mrs. Carter and her seven children, her brother, C. T. Rawles, and two servants were sleeping in the house when the fire broke out. Mr. Rawles was awakened by the smoke and aroused the other members of the household. Their escape by stairway being cut off, rescue was affected by the aid of ladders. Practi-cally nothing was saved, the members of the family not having time to se-cure garments other than their night clothes. The house cost about six thousand and was insured for four

Rev. R. B. Johns and Rev. J. N. Cole embers of the North Carolina Con ference, were requested to meet with that committee to confer about the editorial management of the North Caroina Christian Advocate.

At 7:30 p. m. a great Sunday-school mass-meeting was held. This is a de partment of Christian work that the Western North Carolina Methodists are trying to develop into larger power and usefulness. They gave it one of the best hours of the conference, and a great company of earnest workers were present. Rev. J. W. Jones presided.

The meeting opened with a beautiful and fervent song service. Rev. Dr. Barbee offered the prayer. Prof. H. M. Hamill made the address. He stated that he felt very much at home at a Methodist Conference. He said that he was rocked by a good old Methodist mother and that his father was a Methodist preacher for fifty years. Professor Hamil delivered an ad-

dress of very great wisdom. It had in it inspiration and power that set the Sunday-school work forward. Every pastor rose up with the purpose of giving more faithful attention to their nois, who was cashier in the sergeant Sunday-schools.
