TROUBLE AHEAD FOR THE SPEAKER IN SELECTING HIS CHAIRMEN.

SCHE PROBABLE APPOINTMENTS

Mr. . tle May Get the Chairmanship of the Committee on Rules if Mr. Loud, of California, Doesn't Want ite. Ir. Dingley, of Maine, Will Probably Draw the Big Prize and be Placed at the Head of the Committee on Ways and Means.

WASHINGTON, D. C., Dec. 6.-(Special.)-It is generally believed that Congressman Settle will be made chairman of the committee on claims, the place formerly held by Congressman Bunn. Mr. Settle was a member of that committee during last Congress. Congressman E. F. Loud, of California, held the most prominent part on that committee next to Mr. Bunn, and until the last few days it was thought he gives the chairman. the last few days it was thought he would be given the chairmanship. He held a similar place on the post-office committee, of which Mr. Henderson was chairman. He prefers the chairmanship of the latter committee, and it is almost certain that Mr. Settle will be appointed chairman of the former. Nothing positive has been given out yet, and the committees will not be made known to the public until about

made known to the public until about

The members who have been closet-ed for brief times with Mr.Reed declare that they have little knowledge as to what the Speaker intends to do regarding committe appointments. A constant stream of visitors have been re-ceived by Mr. Reed, but hey have emerged with a paucity of information. They say that the Speaker listens to all they tell him about the commit-tee places, which they think should be allotted to themselves and their friends, and then say that there is plenty of time yet and he will give the matter his most careful consideration. Not even by insinuation does he let fall any scraps of information. It is said on good authority that Mr. Reed has slated but few of the many new mem-bers for their positions yet; that he intends to meet them first and take their measure personally.

It is understood that one of the chief

It is understood that one of the chief difficulties Mr. Reed is contending with is the appointments from his own State. Messrs. Dingley, Boutelle and Millikin would each be entitled to a chairmanship under ordinary conditions, because they are among the oldest members in point of service. The naval affairs would fall to Mr. Boutelle and public buildings to Mr. Millikin, but to have the Speakership and three chairmanships given to a State with chairmanships given to a State with four members might provoke feeling in the least favored delegations. How to make an equitable adjustment of this matter and incur no resentments is about the most knotty problem with

which the Speaker has to deal.

Speculation is rife and hardly a member in the House but has a theory which he is ready to defend with an array of logic. The most interesting ray of logic. The most interesting part of the general discussion continues to relate to the probability of the chairmanship of the committee on Ways and Means. According to the composition of the committee in the Fifty-second and Fifty-third Congresses, Mr. Payne, of New York, would be entitled to that place if seniority of rank were to decide the appointment, but it is pointed out that Mr. Dingley, of Maine, has a prior right.

right.

There is a general impression that Mr. Babcock, of Wiscousin, will be named as chairman of the committee on District of Columbia, while the chairmanship of the committee on labor seems to be assured to Mr. Phils, of Pennsylva mittee is generally conceded to Mr. Boutelle. Mr. Dalzell is said to be slated for the headship of the Judi-ciary Committee, which some supposed would fall to the share of Mr Stone, of that State, Mr. Daniels, of New York, is regarded as certain to head the Committee on Elections, and Mr. Grosvenor that on Rivers and Har-

Mr. Pickler is the ranking member on the Committee on Invalid Pensions and is said to be sure of securing the chairmanship. Mr. Fletcher or Mr. Hepburn will probably go to the head of the Committee on Interstate Commerce; Mr. Sherman, of New York, is said to be slated for Indian Affairs, and Mr. Hull, of Iowa, for the Committee on Military Affairs. The Committee on Pacific Railways is regarded as morally certain to fall to the lot of Mr. Powers, of Vermont.

Regarding the Committee on Appro

priations, opinion is equally divided beetween Mr. Henderson and Mr. Can-

A novel innovation is mentioned as very likely to be made by the Speaker in regard to the Committee on Eelec-

He is considering a plan to divide the work on contested election cases by forming two election committees in this House. The plan, if adopted, would greatly facilitate the work of disposing of the contests before the House, and would give the contestants who may be found to be entitled to seats for which others now hold certificates their rights sooner than they

might otherwise obtain them.

There are thirty-two contests or hand, and they will furnish much work for one committee to grapple with. The business of this committee corresponds largely to that of a court, as it hears all the evidence in every case and then votes upon it and reports to the House.

The Director of the mint has submitted to the Secretary of the Treasury his annual report. It covers the op-erations of the mints and the assay offices of the United States during the fiscal year 1895, together with the statistics of foreign countries relative to the production and coinage of gold and silver and the monetary condition

of each country. As these figures will soon be in de mand, I give the most important of them—as follows:

The value of the gold and silver estimated to have been used in the industrial arts during the calendar year 1894, was approximately \$21,541,652,

REED'S DIFFICULTIES of which \$10,658,604 was gold and \$19,883,048 was silver.

'The estimated metalic stock in the

"The estimated metalic stock in the United States on July 1, 1895, was, gold \$636,229,825; silver, \$625,855,949; a total of \$1,262,084,774.

"The estimated product of gold and silver in the United States during the calendar year 1894 was, gold 1,910,813 fine ounces, of the value of\$39,500,000; silver, 49,500,000 fine ounces, of the coinage value of \$64,000,000. The estimated production of the world for the calendar year was, gold, 8,738,788 fine ounces, of the value of \$180,626,100; silver, 167,752,555 fine ounces, of the coinage value of \$216,892,200, commercial age value of \$216,892,200, commercial value, \$106,522,900.

"The Director gives an estimate of the approximate stock of money in the principal countries of the world. He places the stock of gold at \$4,086,-800,000; the stock of full legal-tender silver at \$3,439,300,000; stock of limited tender silver at \$631,200,000, making a total silver stock in the world of \$4,070,500,000; the uncovered notes are placed at \$2,469,500,000.

Mr. W. H. Fairless, of Portsmouth, Va., who was born and reared in Cam-den county, is being supported by his friends for a good appointment under the re-organization of the House. He was a candidate for the postmaster of the House. Mr. John B. Hussey has worked industriously in his behalf since Congress convened, and it is claimed has interested Mr. Settle in his behalf. Mr. Fairless has the endorsement of the Southern Republicans, as well as the endorsement of the chairman of the State Central Committee of Virginia.

Mr. Lewis Jenkins, a brother of Mrs. Cicero Harris, has been appointed to a position in the Inter-State Commerce.

A CHILD EATEN BY A HOG.

A special to the Columbia State, from Conway, says: Near Pine Bluff, N. C., a sort distance from the South N. C., a sort distance from the South Carolina line, quite a remarkable instance of swinish ferocity occurred yesterday. While Marshall Williamson, a negro school teacher, was absent from home, one of his children was attacked in his yard by a hog. One arm and one side of the child's face was eaten off by the vicious creature before the child was rescued. There were no grown people around at the time, and as the child was small, the brute made a meal of it without much brute made a meal of it without much trouble. The child died last night.

Uses

Mexican Mustang Liniment

On his horses, on his drivers.

Lyon Mfg. Co., Brooklyn, N. Y. Gentlemen:-Having seen Mexican Mustang Liniment extensively advertised here induces me to tell you how useful it is to persons in the livery business. I have used it for the past 18 years on my horses for almost every thing that horses are subject to. For sprains and stiff joints I do not think it has an equal, and for such things as

I once had a very fine driver who was thrown from his car riage in a runaway and so severely bruised about his should ders and breast that I did not think he would ever be ab to get on a carriage again. I remembered, however, wha.
Mexican Mustang Liniment did for my horses in case bruises and had him use it constantly, and in about t weeks he was as good a driver as ever, and not an ache

ness of Musiang Liniment. Yours truly,
