Washington, D. C., Dec. S .- Secretary Gage has submitted to the department from all responsibility; that in one case of state his report upon the action of legal advisers of the Spanish legation the treasury department in suppressing filibustering expeditions to Cuba in vio-lation of the neutrality laws, a synopsis of which was furnished by the department has no information warranting it to request of which was furnished by the depart- that any proceedings be instituted; that ment is as follews:

whether the Spanish authorities in-formed these consuls of the alleged expeditions, and whether if not, some measure of responsibility does not rest on the Spanish authorities for the alleged departure of these vessels, or, if the consuls were notified, whether some measure of responsibility does not rest upon them. The suggestion is made. not to shift the responsibility, but to show that if these alleged expeditions started without the knowledge of the treasury officials, they also departed without the knowledge of the officials of other nations, whose action was a necessary preliminary to clearance.

"With the vessels referred to, it is alleged that there have been associated about a dozen harbor tugs, three or four lighter ships a few small steamers, and about half a dozen of small sloops and schooners, in all less than fifty. On the Atlantic and Gulf coasts in 1896. there were 10,668 sailing vessels under 200 tons, and 2.917 steam vessels of 1,000 tons, or less, a total of 13,585 vestigating the situation in this city. The Spanish authorities have repeatedly asserted that all of the sea ports of Cuba were in their possession. "In all, sixty alleged expeditions are examined. NEW SILVER MEXICAN BONDS

The New Issue of Sixty Millions in Active Demand in Europe, Mostly Bought by

Small European Investors.

City of Mexico, Dec. 8 .- The chairman of the Deputies has approved the bill authorizing the Minister of Finance to issue a new series of 5 per cent. silver bonds of the interior debt to the amount of \$20,000,000, making the total author-ization \$60,000,000. The bill is now before the Senate. These bonds are issued to convert the floating debt into the form of subsidies, port works, payments, tc. and as a means of making the internal debt uniform. These bonds are always in active demand in Europe, where they are mostly held by small investors, who regard them as an excellent form of placing their savings. The bonds are quoted at 78 to 80 in this market.

There is much interest shown in Mr Bryan's approaching visit, and the dis position is to treat him as a distinguished American, without regard to his political standing as the chief of the Democratic party. He will be cordially received by the Government and shown many attentions. The American resi-dents in various cities are organizing reception committees.

San Francisco, Cal., Dec. 8.-Late this afternoon the Supreme court dispelled the last hope of W. H. T. As the remittur was ordered issued forthwith and the court holds that execution can only be stayed now by the issuance of a cer-tificate of probable cause, it only remains to re-sentence the condemned murderer

greatly outweighed any chance of profit from the exceptionally high money rewards offered to vessel owners by the Cubans.

"Eight revenue cutters with crews of 317 men armed with fifteen guns, have cruised 75,788 miles, occupying 129 months in the aggregate, patrolling the coast to prevent filibustering expeditions. They have captured seven vessels and 115 men; have broken up two expeditions and have held under surveillance thirteen vessels under suspicion. From time to time several revenue cutters have been employed on temporary duty.

"Perhaps the strongest statement in the report is this: If the Spanish patrol of 2,200 miles of Cuban coast has frustrated one half the number of expeditions which were frustrated by the United States authorities along a coast line of 5,470 miles, not one man nor one cartridge would have been illicitly landlarly to the expedition that left on the Miss Emma Mann, of this port two days, landing men and arms, wood home. and was not molested by the Spanish
