

HENRY B. PLANT HAS PASSED AWAY

Great Florida Developer Dies in New York.

HEAD OF PLANT SYSTEM OF NUMEROUS RAILROAD AND STEAMSHIP LINES.

A CAREER OF WONDERFUL SUCCESSES

Though he had been ill for several days, death was not expected and came apparently as a result of heart failure.

New York, June 23.—Henry Bradley Plant, President of the Plant Investment Company, controlling the great system of hotels and railroads on the West Coast of Florida, and the line of steamers from Tampa to Havana, died suddenly tonight at his residence in this city.

Mr. Plant, who was in his eightieth year, had not been in the best of health for several years, but except during brief intervals of illness was actively engaged in the direction of his vast enterprises up to within a few hours of his death.

On Thursday evening when he arrived home at the usual time, Mr. Plant complained of suffering from internal pain and some disorder, from which he had long been suffering. His condition was somewhat worse during the night, but no alarming symptoms manifested themselves until a few minutes after noon today, when it became apparent that he was sinking. He soon lapsed into unconsciousness, heart failure developed and he passed quietly away.

Mrs. Plant was with her husband at the last. His only son, Morton Freeman Plant, was out of the city, but was informed of his father's death and will arrive in New York in the morning.

Mr. Plant was born in Branford, Conn., October 27th, 1819. He came of distinguished lineage, running back in this country to 1636. His great grandfather on the paternal side, was an officer in Washington's army and was one of the guards of the execution of Major Andree. After attending the public school of Branford, Mr. Plant began life in the transportation industry to which his whole career was devoted. He entered the service of the New Haven Steamship Company, when 18 years old and was rapidly promoted to the express department of the company. When the New York and New Haven Railroad was completed, he took charge of the express business, and on the reorganization of the Adams Express Company he was sent South in its service, becoming in 1851 the general superintendent of the Southern Division, which post he held until 1861, when he organized the Southern Express Company, of which he has since been President. To this position he added, in 1867, the post of President of the Express Company.

It was not until 1879 that Mr. Plant became interested in Florida railroads and laid the foundation of the great system bearing his name. The first railroads purchased by him were the Atlantic and Gulf, now known as the Savannah, Florida and Western, and the Charleston and Savannah. Since then many lines have been acquired, and numerous connecting links constructed, now all embraced in the corporation chartered in 1882 by the Legislature of Connecticut as the Plant Investment Company. Supplementing the railroad properties are several steamship lines, the most important of which is that running from Tampa and Key West to Havana, which has been in operation since 1884.

Mr. Plant's first wife was Ellen Elizabeth Blackstone, of Branford, a lineal descendant of Thomas Blackstone, who settled in Boston in 1634. She died in 1861 and in 1873 Mr. Plant married Miss Margaret Josephine Loughman, of New York, who with her only child, Morton Freeman Plant, survives him.

Mr. Plant's vast business interests will continue to be managed by the corporation that bears his name.

FIVE NEW CASES.

Three Soldiers and Two Civilians Have Yellow Fever.

Santiago de Cuba, June 23.—Five new cases of yellow fever are reported today—three soldiers and two civilians. No deaths are reported.

The festival of San Juan will be universally observed tomorrow by the Cubans. It is the date announced for the much talked of "Outbreak against the Americans." The streets are filled with masqueraders tonight, and all business houses are closed until Monday. There is not, however, the slightest reason to expect any trouble.

YELLOW FEVER'S VICTIMS.

Colon, Colombia, June 23.—Twenty deaths from yellow fever, out of forty cases, have occurred in the city of Panama since the first of May. Colon is free from the fever.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on any Druggist, and get a free trial bottle. Regular size 50c and \$1. Every bottle guaranteed, or price refunded.

They say it takes a smart man to be a rogue, but only fools try to get along that way.

About the worst enemy a woman has is flattery.

JOHN G. MOORE DEAD.

He Was the Contestant of the Income Tax Law.

New York, June 23.—John G. Moore, of the Brokerage firm of Moore & Schley, and well known throughout the country as a successful financier, died at his home here today. He was 52 years old.

Mr. Moore came into national prominence as the plaintiff in the suit contesting the constitutionality of the income tax law. He was a native of Maine. He started the construction of telegraph lines in the East and Central West in 1880, which he leased to bankers and merchants, and this and the Mutual Telegraph Company, which he later organized, were leased by the Western Union, of which he became a director. He was actively interested in railroad affairs, especially in the South.

AGREEMENT PROBABLE.

Cleveland Street Railway Strike Practically Settled.

Cleveland, Ohio, June 23.—The strike among the employes of the Big Consolidated Street Railway is believed to be virtually settled, the final decision to be reached at a meeting of the council peace committee tomorrow morning.

At a meeting today the strikers agreed to the company's proposition to restate all but 100 of the striking employes, and called for a clause allowing a grievance committee to discuss with the officials any future difficulty. This is not contrary to the company's stand.

RAIN AND SAND.

A Storm Does Serious Damage in Nebraska.

Ainsworth, Neb., June 23.—This section was visited late this afternoon by another downpour of water, preceded by great clouds of sand driven at a furious pace by a strong wind from the west. Great damage was done north of Ainsworth about a mile, tearing sheds and outbuildings into fragments and passing Eastward with a thunderous roar that could be heard for miles. It is feared serious damage has resulted along its track.

NEW CABINET ON DECK.

And Steps are Promptly Taken to Smash It.

Paris, June 23.—The new Cabinet Ministers took possession of their offices today. It is reported that the Prefect of Police, M. Blanc, has resigned.

The progressive Republicans have held a meeting under the Presidency of M. Meline. Though considerable diversity of opinion was developed a committee was appointed to confer with other groups hostile to the new Cabinet to organize a combined opposition to the Government.

HARRISON JABS ALTGELD.

Covertly Calls Him a Bolter and Political Traitor.

Chicago, June 23.—Mayor Harrison, in a letter to D. Turbot, a Democrat, of Lincoln, Ill., declares that Illinois may decide whether Bryan will be elected President in 1900, but it "cannot be expected to give its electoral vote to the Democratic nominee, if the regular organization is hampered in its work and if a reward is held out for the political bolter and the political traitor."

TO REBUILD GORDON'S HOME.

Washington, June 23.—A movement has been started to raise from ex-Confederate veterans a sum to rebuild the home of General John B. Gordon which was recently destroyed by fire.

Mr. Floyd King, of Louisiana, has called the matter officially to the attention of the Confederate Veterans' Association by the following telegram to Adjutant General Moorman: "Let us raise by popular subscription the money necessary to rebuild General Gordon's home."

ELKS LEAVE ST. LOUIS.

St. Louis, Mo., June 23.—The exodus of Elks began tonight. Wilbur F. Hawkes, of Covington, Ky., was prostrated by heat today, dying at his hotel.

Lee McGovern, a visiting Elk from Savannah, Ga., was taken to the hospital suffering from heat prostration.

THE EXPORT OF GOLD.

Washington, June 23.—Secretary Gage attaches no importance to the engagement at New York, today, of \$4,000,000 in gold for export.

"It is a mere incident," he said. "It is possible that the exportation of the gold which was paid to Spain in the settlement of our treaty obligations disturbed the equilibrium somewhat, and has necessitated some considerable shipments to again restore the normal conditions of exchange."

FIVE DROWNED.

Lampasas, Texas, June 23.—Mrs. T. L. Lloyd, living seven miles northwest of this place, five daughters and a visitor, Miss Childers, went in bathing in a creek today. The three youngest girls went beyond their depth. Their oldest sister and Miss Childers went to their rescue and all five were drowned. Mrs. Lloyd saved her other daughter only by heroic efforts. The bodies were recovered.

KILLED BY AN EXPLOSION.

Roseland, B. C., June 23.—An explosion occurred today in the War Eagle Mine, the scene of the fatality of a month ago, and three men are lying dead at the morgue, another is probably fatally injured, and a fifth is seriously hurt.

Five men were working in the 925 foot level, with machine drills when one of the drills struck a missed hole, where the shot had failed to go off last night. A frightful explosion took place and Charles Post and Charles Lee were instantly killed and Mike Griffin, a married man, was so badly injured that he died on the way to the hospital. Dan Green is fatally injured. Charles Conson received severe injuries.

A sugar house and a young ladies' seminary both refine what is already sweet.

IMMINOUS IN TRANSVAAL

BUSINESS HAS COME TO A PRACTICAL STANDSTILL.

Volksraad Voted Nearly a Half Million for Artillery, Ammunition, Tents and Other Supplies.

Bloufontein, Orange Free State, June 23.—The Volksraad, of the Orange Free State, has voted \$43,000 for the increase of artillery, tents and other military supplies, \$112,500 for ammunition and almost \$200,000 for other war material. The Mauser rifle has been adopted by the Government. Trade is at a standstill.

THE "POOR WHITES."

Speeches at Convention on Education in the South.

Capon Springs, W. V., June 23.—The conference on Christian Education in the South, now in session here, is considered one of the most important ever held in this section of the country. Today's addresses were brilliant.

Dr. J. L. M. Curry, of Washington, spoke in the interests of the poor whites of the South. Northern generosity, he said, was principally directed towards aiding the Indians and blacks. While he would not take a cent away from these, he asked that the equally needy whites should also be remembered. Referring to the famous speech made here by Daniel Webster at the opening of the present Capon Springs Hotel, over fifty years ago, he drew attention to the large number of great men to which the South has given birth, and to the fact that up to the outbreak of the Civil War, with a comparatively scanty population, it possessed many more schools than the North.

Dr. W. E. Shaw, editor of the Review of Reviews, generously offered to publish Dr. Curry's speech for general distribution in any form the conference might prefer. The offer was accepted.

Ex-Postmaster General Wilson, President of Washington and Lee University, followed Dr. Curry on the same lines, in one of the most eloquent and enthusiastically applauded speeches yet made before the conference. He gave a brief history of the venerable institution of which he is at the head, telling of its humble origin in a log cabin to its present proportions. But, gladly would he exchange back, he declared, to the lowly hut from the handsome building of today, could this college now but train up the men of giant intellect and strength of character it produced in by-gone times.

In the evening speeches were made by President W. M. Baldwin, Jr., of the Long Island Railroad, and by Professor Ormond Stone, of the Leonard McCormick Conservatory, and Dr. Charles W. Kent, of the Linden Kent Memorial School, both representing the University of Virginia. Professor Stone is a Northern man who for many years has been identified with Southern education. Dr. Kent is a member of the Committee on Resolutions and is thoroughly interested in public schools. He will take part this summer, as he has for three successive seasons, in the Virginia School of Methods.

TO MEET DREYFUS.

First Class Cruiser Tage Puts to Sea for That Purpose.

Brest, France 23.—The French first-class cruiser Tage, now lying in the harbor, has been instructed to put to sea on Sunday evening, and it is thought she has been ordered to meet the Stax and have Dreyfus transferred to her. But, Admiral Barrera says the Tage's mission is to experiment with carrier pigeons.

Despite the fact that a big crowd will be present to witness the landing of Dreyfus, no disorders are expected.

A detachment of secret police has arrived here from Paris.

Paty Du Clam probably will be taken to Rennes to confront Dreyfus.

HENRY B. PLANT DEAD.

New York, June 23.—Henry B. Plant, President of the Plant Steamship Company, died at his home on Fifth Avenue in this city today.

The first part of an athlete's training relates to the care of the stomach. The quality of his food is considered. The quantity he eats is carefully weighed and measured. It is curious that this care of the stomach is looked upon as an extraordinary thing only to be practiced in special circumstances.

It should be every one's care. Life is a struggle for the prize of success. The man who must take care of his stomach. It is not lack of energy or exercise that has caused so many a break-down in the race. It is neglect of the stomach. Incessant dull headache aggravated by eating, flatulence, gnawing in the stomach, heartburn, acid eructations, coated tongue, bad taste in the mouth, nervousness, mental depression, sleeplessness; these are only a few of the symptoms of a weak stomach and an enfeebled condition of the digestive and nutritive functions. Not all these symptoms will be experienced at once, but any one of them means danger.

"It has made a new man of me," is the constant testimony of those who have used Dr. Pierce's Golden Medical Discovery. This remarkable remedy has such a perfect control of the stomach, digestive and assimilative organs and blood making glands that it speedily corrects the derangements which weaken them, re-establishes them in healthy working order, so that once more the whole body—blood, brain, nerves and muscles—is nourished, and built up into rugged health. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant. Its protracted use does not create a craving for stimulants.

The dealer after the dollar and the customer's after the cure. Its dealer with his eye on the dollar who proposes substitution. Let the customer keep his eye on the cure and insist on "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets do not grip. They effectually cleanse the system of accumulated impurities.

FREE BOOK FOR WEAK MEN

(COPYRIGHTED.)

My little book "THREE CLASSES OF MEN" sent sealed free, upon request. It tells of my 30 years' practice and success in treating results of youthful errors: Nervousness, Impotency, Varicocele, and Kindred Ailments, by nature's own gift to man—Electricity. Drugs never cure—they only stimulate. With my famous Dr. Sanden's 1899 Model

ELECTRIC BELT

and Supporting Suspensory I cured 6,000 last year, and give in "Health World" (sent sealed with book) over 400 voluntary testimonials—new every month. Soothing currents applied through weakened parts at nights. It cures you while you sleep. Not for sale by agents or druggists. Beware of Quacks with their "Free Trial" swindles. Write for book to-day, and get my opinion of your case.

DR. T. A. SANDEN, 826 Broadway, New York, N. Y.

STOCK YARD STRIKE.

Nearly 600 Men Are Out in Chicago—Demand a Raise.

Chicago, June 23.—Nearly 600 men joined the ranks of the stock yards strikers today, making the force that is now out 600 and the strike force is apparently on the increase. The men who shackle the hogs in the killing department at Armour's pork packing house, went out this morning, and were followed by the "shovers." They demand an increase of 25c a day.

At Swift and Company's it was said that about 100 men had joined the strike and had been given their time. Lipton and Company lost 30 more, and 100 men in the sausage trimming department of the International Packing Company left their places. Some of these men were taken back. The hay men at Neison Morris plant demand a 25c raise by tomorrow.

HENRY A. WISE ON CHIMNEY ROCK.

What Virginia's Former Governor Said Of This Famous North Carolina Crag.

In the midst of one of his impassioned speeches years ago, during the "Know Nothing" campaign, the late Henry A. Wise, formerly Governor of Virginia, and perhaps its most eloquent orator, stretched himself to his full height and exclaimed: "Those mountains which lift their hands to milk the clouds." The old chap was without doubt referring to Chimney Rock. His index finger was pointing directly at Chimney Rock, Henry A. Wise is dead. But Chimney Rock still lives. Henry A. Wise is immortal. So is Chimney Rock. Chimney Rock is one of the boldest of American crags. The Seaboard Air Line will take you there. It is only seventeen miles beyond Rutherfordton. Railroad tickets good over the stage line. The ride is one of phenomenal grandeur. The inns are set cozily in the recesses of the wild mountain range. One dollar to two dollars per day. The beds are clean. The food is plentiful and toothsome. The pools are solitary and cool and glistening with speckled trout. The leafage of the steep is a ceaseless study and solace and stimulant. The summer thermometer does light duty, having a "beat" of only from 60 to 81. This means deep sleep by night and long climbing walks by day. Everybody wants to walk. But Henry A. Wise said it all. Summer tourist rates from all parts of North Carolina. Don't miss it, men and brethren. Inquire of all agents. "Kick" if everything is not perfectly comfortable. Watch the baby get well. Watch the boy from college get tough as luck. If Chimney Rock is anything, it is a place to set the family up against the Fall. Excursion tickets on sale at all Seaboard Air Line ticket offices to Chimney Rock and return at greatly reduced rates.

HOOD'S PILLS cure Liver Ills, Biliousness, Indigestion, Headache, Easy to take, easy to operate. 25c.

Some people drift upon the sea of life and some paddle their own canoes; but most of them would like to be towed along.

DEATH OF A GOOD MAN.

Dr. J. R. Fleming Passes Away at Dunn—Native of Wake County.

Dunn, N. C., June 23.—(Special)—Dr. J. R. Fleming died at his home here this morning in the 62nd year of his age. He had been in failing health for several months and the end was not altogether unlooked for.

Dr. Fleming was a native of Wake county, and for quite a number of years had practiced medicine at Rolesville. He leaves a wife, a daughter, Mrs. E. F. Young, a number of brothers and sisters and a host of friends who mourn the loss of this esteemed relative, friend and citizen. His remains will be interred at Greenwood cemetery at this place tomorrow.

A CARD OF THANKS.

I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction, we feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, Mrs. S. Doty, Des Moines, Iowa. For sale everywhere. Bobbitt-Wynne Drug Co. and H. T. Hicks, Druggists, Raleigh.

St. Mary's School, Raleigh, N. C.

The Advent Term of the Fifty-eighth School Year begins September 21, 1899. Courses in Literature, Languages, Ancient and Modern Science, Art, Music and Business. Modern Sanitary conveniences in each Dormitory Building. For further information apply to the Rector.
