REGIMENTS WITH ONLY A THIRD IN RANKS

Some Heavy Losses in Killed and Wounded An Engagement With the Enemy at Mantitupa. Fil pinos Driven Back With Cannon.

San Francisco, Cal., July 13 .- Advices received by the transport Newport dated Manila, June 11th, are as follows:

The volunteers are greatly debilitated in consequence of their hard campaigning through three months of tropic weather. Since the middle of May, no volunteer regiment has had a sick list of less than twenty per cent. Most of them at the present date have twentyfive per cent ill, and a few regiments have less than one-third of their number on duty. The Nebraska regiment has suffered the worst. It came in from San Fernando a few months ago with less than 200 men in the ranks. The South Dakota followed yesterday with 275 men on duty. The Montana and Kansas regiments at San Fernando have not more than 250 available men each. The morning after the Washington troops took Morong a week ago, only 263 men responded, to the roll-call. The Washington men have been engaged since March 12th in preventing the insurgent army of the North and South from forming a junction in the region of Laguna de Bay, often being engaged at the same time with the enemy in opposite directions. Twenty-four of the Nebraska officers are on the sick list, and the Montana, Kansas, Washington and South Dakota regiments show twenty or more officers in the hospitals or sick in their quarters. These regiments have borne the brunt of the fighting. Their losses in killed and wounded range from 100 in the Montana regiment to 280 Nebraska men. The loss of the Kansas regiment is second to that of the Nebraska men, while the Washington and South Dakota regiments follow closely, each with losses of about 200. The Oregon regiment has also suffered severely.

Of the regulars, the Third artillery is the heaviest loser, its killed and wounded numbering 123.

A SHARP ENGAGEMENT.

Manila, July 13.-(12:30 P. M.)-Kale Lagunade Bay is being patrolled by three troops of the Fourth cavairy un-der Captain McGraw and the army gunboat Napidan, commanded by Lieuten ant Larsen. The force makes its headquarter on an island, living on cascoes, in which the men are towed about to make unexpected visits to towns where are small forces of insurgents for the purpose of keeping the rebels moving. On Tucsday the troops had an engagement at Mantitupa, on the south shore of the lake. They fought 500 insurgents there entrenched near the shore. The Napidan shelled the rebels and a party of American troops, numbering 135 landed and drove them by a sharp running fire to the hills whre they were to strongly entrenched for the small force to attack them. Two of the cavalrymen were wounded

and the bodies of ten insurgents were found. It is supposed that the enemy's loss is thirty-five.

OTIS CABLES FOR HORSES. Washington, July 13 .- A dispatch has from General Otis requesting that there be sent to the Philippines 2,500 horses in order that brigade of cavalry may be organized for use at the end of the rainy season. DEWEY AT PORT SAID.

Port Said, Egypt, July 13.-Admiral Dewey arrived here this evening on board the United States cruiser OlymA HORRIBLE EXECUTION.

Indian Prisoner Shot by Sheriff Lingers an Hour in Agony.

Chicago, Ill., July 13.—A special to the Tribune from Goodlands, Indian Territory, says: William Goings "Walla Tonka," the Choctaw Indian, was shot at Alikichi, I. T., today under sentence of the Choctaw court for murder.

The execution was a sickening sight. A few minutes before Goings was led out four Choctaws appeared bearing a coffin. It was deposited in front of the

court house. Near it a quilt was spread. The con-demned Indian, supported by Sheriff Watson and a deputy and escorted by twenty light horsemen, marched down the line of spectators.

Goings then knelt on this quilt blindfolded. The sheriff bared his bosom, painted a spot over his heart, stepped back four paces, rested a rifle across bench and fired. The bullet entered the breast but missed the spot. Goings fell backward and moaned for an hour before expiring. Water was poured down his throat a number of times to hasten

STONE SPEAKS OF CHANGES.

St. Louis, Mo., July 13.-Ex-Governor Stone returned from New York today and disclaimed many utterances attributed to him in published statements. He also denied that he had talked with

any politicians in New York city.

"At the Chicago conference of the National Committee," he said, "there will be a report of some kind from the committee appointed at the St. Louis conference to investigate the Devlin matter. I think, too, there will be some changes in the sub-committees. These committees may be shaken up and made active. Johnson, of Kansas, would make a fine head for the executive committee."

President Williams of the Seaboard Much In terested in the Proposed Union. Short Connecting Link Only Nec ssary.

New York, July 13.-It was reported in Wall Street today that an alliance between the Seaboard Air Line and the Baltimore and Ohio is probable in the near future. It is said that John Skelton Williams, who is at the head of the syndicate which is working to connect the Seaboard Air Line, the Georgia and Alabama and the Florida Central and Peninsular, is much interested in the proposed alliance, which could be brought about by the construction of a few miles of connecting line. It is said that the Richmond, Fredericksburg and Potomac will carry the new system from Richmond to its Northern connection, and that the plans contemplate thorough trains from New York to Tampa and other Florida points by January 1, 1900.

Washington, July 13 .- A statement of the imports and exports of the United States shows that for the year the total ports of domestic merchandise amount- ege of doing an exchange business. ed to \$1,227,433,426 which is a decrease

The chief reduction in the value of which the supply abroad in 1898 was unusual causing high prices as well as a greater demand for the products of the grain fields of the United States, the average price per bushel of wheat exported in the fiscal year 1898 being 98.30 cents against an average of 74.77 cents in the fiscal year just ended. The reductions in exportations of grain is chiefprice, the quantity of wheat exported being but about 10,000,000 bushels to pay large salaries to their officers. more than of last year. Indeed the reduction in wheat exports is more than ouset by the increased exports of flour, of which the exports of 1899 are abount 3,000,000 barrels in excess of those of last year, this increase more than equalling the reduction in the quantity of wheat exported.

Corn shows a considerable reduction in quantity of exports, the number of bushels for 1899 being about 34,000,000 below that of 1898, when our corn exports were abnormally large because of

the shortage in other bread stuffs abroad. There has also been a reduction of about \$20,000,000 in value of the exports of cotton, also due largely to the reduction in price, the average price per pound of cotton exported in 1898 being 5.98 cents and in 1899, 5.55c. The decrease in value of exports of bread-stuffs and cotton is thus nearly made up by the increased exports of manufactured articles which seem likely to amount to \$335,000,000 in the fiscal year 1899, as against \$290,697,354 in 1898, an increase of about \$45,000,000.

This, however, was something less than the esti mates generally accepted by well-informed members of Congress.

The internal revenue officials are of the opinion that the law might properly be extended in certain directions without becoming at all burdensome to the public and in a way to produce a considerable revenue. One of the propositions now under consideration is to assess a tax on the sale or rental, of all patent protected articles. In speaking of the matter today one of the officials spoke or the telephone companies in this con-nection and at the same time said that there were many inventions producing an enormous profit which could well stand a revenue tax.

It probably will be suggested to Congress that express and telegraph companies doing a money exchange business privilege. Although taxes are now paid on receipts and telegrams respectively it is pointed out that bankers are re quired to pay a yearly tax of \$50, which is regarded as a discrimination against them. CAPE PARLIAMENT TODAY.

Afrikanders Break up a Loyalist Meeting Amid Disgraceful Scenes

Capetown, July 13.-The Cape Parliament will open tomorrow and exciting scenes are anticipated, owing attitude of the Premier, W. P. Schreiner, on the Transvaal question. A large number of the opposition members favor his impeachment.

In the meantime, the Afrikander party is working up a pro-Boer agitation and doing its utmost in this direction. An attempt to hold a Loyalist meeting at Worcester this evening was frustrated by the Afrikanders, who precipitated disgraceful scenes, forcibly dragging the Loyalist speakers from the platform and expelling them from the hall amid jeers

and insults. It is reported that several Dutch members of the Legislature participated. The publication of the text of the Transvaal Franchise Law, now being debated at Pretoria has accentuated the bitterness between the two elements.

WITH EYES ON GUATEMALA.

Some Fears are Entertained of a Repetition of the Corinto Incident.

Washington, July 13.-The State De partment is watching with anxiety the developments in Guatemala. It is premature to say that the decision has been reached to send the Philadelphia from San Francisco down to that country, and it may be that the presence of the gunboat Vixen on the East coast will be regarded as sufficient for the present.. But there are hints of foreign action that might involve a repetition of the Corinto incident, and in that case, it is probable it would be deemed necessary by our Government to have a stronger naval

representation at the seat of trouble. It is stated at the State Department that the financial conditions in Guatemala, with impending repudiation, threaten severe loss to American citizens. But so far our Government has not consented to take any joint action with England, Germany or any other nation, to bring pressure to bear upon the dis-

turbed republic. It is problematical what attitude will be adopted by our Government in case an attempt should be made by European Governments to seize custom houses in Guatemala, to collect money for bond holders. In the case of the Corinto landing a question of national honor was involved, an indemnity having been demanded by England for the ill-treatment
