RIOTS BREAK OUT AT EVANSVILLE

Negroes Fire into Crowd of Hooting Boys.

THE NEGROES NON UNION

THEY AND UNION MINERS BOTH HEAVILY ARMED.

POLICE POWERLES: TO CONTROL THEM

The Owner of the Inglee Mine Assaulted by a Woman With a Powder Can. Miners are Ferbidden to Parade

the Streets.

Evansville, Ind., July 26.-Rioting prevailed at two of the local mines today. As the colored non-union miners employed at the First Avenue mine came from work they were met by, a crowd of small boys, who followed the miners for a block and kept up a continual yell. Finally the negroes turned and pulled their pistois. They ared several shots into the crowd, but no one was hurt. The boys jumped behind trees and telephone poles for protection. Soon there were several hundred people on the scene and many of them carried Winchesters. The police dispersed erowds with difficulty. Nearly 1,006 people gathered at the John Ingles mine. and when the negro miners stopped work they were surrounded by strikers and sympathizers. Both union and nonunion men carry arms, and it is impossible for the officers to disarm them. The wife of one of the strikers made an attack on John luglee, the owner of the mine and struck him over the head with an empty powder can. non-union miners rushed through the line and were brought to the city on a tug boat. The men paraded the streets with their arms and the police made no effort to stop them. Mayor Atkins issued a proclamation tonight forbidminers oarading the streets. The situation is extremely grave tonight, and the officers find themselves anable to control it. The negro miners at the First Avenue mine say they will take Winchesters with them as they go to work in the morn-

Chaplain Pruden Finds no Provision Made by Congress for Chaplains in Provisional Army for the Philippines.

Durham, N. C., July 26.-(Special.)-The options on the two warehouses here are declared off. It will be remembered that a short time sinte Mr. S. A. Woodard, of Wilson, was here and secured options of thirty days each on the Farmer's and Center Warehouses. from Messrs. A. M. Rigsbee and W. Mangum, Sr. Last night a Mr. Venable, of Wilson, representing the same firm or combination as Mr. Woodard, was here, and told Messrs. Rigsbee and Mangum, so we are told, that the options or some parts of them were not legal. He desired to secure other options from these gentlemen, when they refused to have anything more to do with the matter, washing their hands

A FAST RUN ON THE COAST LINE Engineer McGowan Makes 173 Miles in 184 Minutes.

(Florence, S. C., Correspondence to

Charleston News and Courier.) Engineer Frank McGowan, who is on the through run over the short-cut division of the Atlantic Coast Line, between Florence, S. C., and Rocky Mount, N. C., and who has made for himself and the Atlantic Coast Line sys tem many a record-breaking run, has very recently scored another, to be added to his already brilliant record as a "flyer."

The run that is here alluded to was made a few nights ago on train No. 32, better known as the north-bound West Indian limited, and was from Florence to South Rocky Mount, a distance of 173 miles. The actual time consumed, running from South Roocky Mount, including twelve stops and six slow-downs, was three hours and forty-five minutes.

p. m. and arrived at South Rocky Mount at 3:19 a. m. The stops made and the time consumed for stops was as follows: Pee Dee river, for draw bridge, two minutes; Latta station, for passen gers, two minutes; Lumber fiver, for water, four minutes; Pembroke, for railroad crossing, two minutes; Hope all be run during the next tobacco year | Mills, for railroad crossing, two minutes; Fayetteville, for water, passengers and railroad crossing, three stops, nine minutes; Smithfield, for water, five minutes; Selma Junction and register ing, four minutes; wilson, for passen gers, five minutes; tootal for stops, thir ty-five minutes. Actual running time three hours and ten minutes, or 173 miles in 190 minutes, less the six slowdowns, which really cut off one minute to each slow-down, which reduces the actual time to 173 miles in 184 minutes The engine used on the ran was No. ocomotives, with a 19-inch cylinder, one mail and express, one combination coach, one day coach and two Pullman Capt. F. M. G. Hill, one of the Coast Line's most popular conductors, was in charge of the train. Bill Stevenson shoveled the coal, white Engineer Frank McGowan and the rest. The special reason of this fine run was that train 32 was about four hours late. The Coast Line has quite a number of "flyers," and Engineer McGowan's time may soon be "laid in the shade"
