

### RUST AND DROUGHT INJURE WHEAT

Texas Crop Short but in Good Condition.

CROP OPENING RAPIDLY

HIGH WINDS INJURE COTTON AND TOBACCO HERE.

FROSTS IN MOUNTAINS OF THE FAR WEST

Oats in Shock Damaged by Rains. Condition of Corn Favorable. Cotton is Shedding in Central and Eastern Districts.

Washington, Aug. 22.—Following is the Weather Bureau's weekly summary of the crop conditions:

While there has been an entire absence of rain over a large part of the country east of the Rocky Mountains and droughty conditions are quite extensively reported in New England, over much of the lower lake region, Ohio and lower Missouri Valleys and West Gulf States, very heavy rains have fallen in the Red river of the North Valley, on the Virginia and North Carolina coasts and over portions of the Central Gulf States. In the Rocky Mountain and Pacific Coast districts the week has been too cool with frosts, causing some injury in mountainous sections on the 15th and 16th. The report from Cuba indicates that the week has been generally very dry, and that crops are suffering seriously over the greater part of the island.

In the principal corn States the seasonable temperature and general absence of rain have been favorable for advancing the maturity of corn, the general condition of which crop is very satisfactory, although late corn now needs rain in portions of the Ohio and Mississippi Valleys, in Oklahoma and in some parts of Kansas and Nebraska. Cutting of corn is now general in Kansas and has begun in Oklahoma.

Spring wheat harvest has been delayed in the Dakotas, and Minnesota by heavy rains, which have caused injury to stacked grain in the last named State. Harvesting has also been interrupted by rains in Washington and Oregon. In the last named State wheat in sacks and in shock, as well as standing grain, is beginning to sprout, as the result of unusual rains during the past two weeks.

In Minnesota, South Dakota and Washington oats in shock have been damaged by excessive moisture which has also delayed the completion of harvest.

Over the Central and Eastern portions of the cotton belt the conditions of cotton continues practically the same as at the close of the previous week, rust and shedding being prevalent. All reports show that cotton is opening rapidly, picking being in progress in the extreme Northern districts. In Eastern North Carolina the crop was damaged by the high winds attending the late hurricane. Drought is proving very damaging to the crop in Oklahoma and Texas, but the weather conditions have been very favorable for picking, and while an average yield is not expected in Texas, the quality of the staple is good.

In Ohio tobacco is suffering from drought, but in other tobacco States the general outlook continues favorable. Some damage, however, has been caused by the high winds in North Carolina, and moist weather has been unfavorable for curing in Maryland.

The general outlook for apples is not encouraging, and in some important apple States the crop is very poor. The most favorable reports are received from Ohio, Indiana and Northern Illinois. In New York early apples are plentiful, but winter apples promise only about a half crop.

While the weather for the past week has been unfavorable for plowing, this work has been unusually well advanced under the favorable conditions of the previous week.

### BADLY BEATEN BY WHITE CAPS

Crum's Appointment of a Negro Assistant Postmaster Fiercely Resented.

Tampa, Fla., August 22.—Editor W. C. Crum, of the Florida Republican, was brutally beaten by white caps at Peck last night. He is postmaster at that place and has been going out there attending to the mail at night and returning to the city in the morning. Some weeks ago he appointed Dan Morrison, a colored man, his assistant so that the office could have a man in charge all the time.

Morrison was made to give up the office by a committee of citizens who are unknown, and Mr. Crum had to go out and attend to the office himself. Last night after he had completed his work he started to a house he owns a short distance away where he sleeps when there.

He was held up on the road by a mob of masked men with guns who made him dismount. He was tied with a rope, hand and foot, and given a brutal beating. He also sustained severe bruises about the head and shoulders from the kicks administered by the mob.

After they finished beating him they cut off the whiskers from one side of his face and applied carbolic acid to the deep gashes on his naked flesh made by the whipping. Mr. Crum does not know who attacked him. The mob threatened to kill him if he ever appointed another negro assistant there. He has closed the office and will deliver no mail to the Peckites, and his resignation has been accepted at Washington.

### THE TYPHOON AT MANILA.

Manila, Aug. 23.—10.50 a. m.—The typhoon that has been raging for the last two days has kept the United States transports Zealandia and Valencia, with the Montana troops on board, in the harbor.

The United States cable ship Hooker, (formerly the Panama) which grounded in the north channel of Corregidor Island about a fortnight ago, will probably be knocked to pieces. A hundred miles of cable and \$10,000 worth of instruments are on board the steamer. Fifty miles of cable have already been thrown overboard. The Hooker is grinding to pieces on the rocks.

### REMARKABLE RESCUE.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle, and to her delight found herself benefited from the first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at all drug stores. Only 50 cents and \$1.00; every bottle guaranteed.

### JUDGE LONGIN LEADS

### THE CONTEST FOR THE GOVERNORSHIP OF MISSISSIPPI.

Present Indications Point to the Fact that the Battle Will be Short and Decisive.

Jackson, Miss., August 22.—The contest for the Governorship of Mississippi which is to be decided at the State Convention tomorrow is at present in a very indefinite state. Judge Longino's chances have brightened considerably since morning, and some very effectual work among the uninstructed delegations was accomplished by his managers during the day. Several attempts have been made to organize a permanent combination among the followers of Judge Critz, Major Vardeman and Judge Powell, but so far all have resulted in failure, each of the three named displaying a very marked independence of the others. The present combination holds good only during the work of organizing the convention, and it will require some very hard work to hold it together after the chairman is named. Judge Longino's caucus tonight was attended by nearly 2,000 uninstructed delegates and his campaign is being managed with surprising smoothness. The present indications are that the contest will be short and decisive.

Cincinnati, Ohio, Aug. 22.—But for errors the Pirates would have taken both games today, instead of losing one and tying the other. The first game was a battle between Tannhill and Hahn. First Game. R. H. E. Cincinnati . . . . .00100000001—2 6 2 Pittsburg . . . . .00000001000—1 9 3 Batteries: Hahn and Wood; Tannhill, Fox and Schriver. Umpires, O'Day and McGarr. Time 2:00.

### The Pure Food Question

Is not a new question with us. We have been advocating pure food for more than a dozen years, and we are rejoiced to see others taking it up. We like to see men of science taking hold of it and showing people the necessity of eating

### Only Pure Food,

and demonstrating it by analytical and other scientific tests, and we think that everybody should read Prof. Wither's lecture on this important question. We advocate pure food buying and pure food eating, in the only practical way by buying and selling only that which is pure. Our prices may not always be the lowest, but they are as low as the class of goods we deal in can be bought at.
