three of which will be commanded by Major Generals. The Philippines have heretofore been known as the Department of the Pacific. It is expected that one department of the proposed new division will consist of General MacAr-thur's command north of Manila; another will be General Lawton's command south of Manila, and a third will be a new command to operate from Lingayen or Dagupan. The fourth department probably will consist of the troops in the islands south of Luzon, which include the commands now at Iloilo, Cebu and other points.

The scheme has not yet taken such definite form as to determine the command of the division and departments. There is little doubt however that Lawton and MacArthur will remain where they now are, and probably the com-mand in the islands south will be under a brigadier general. Another officer will have to be selected for the depart-ment in the far northern part of the sland at the terminus of the Dagupan Railroad. The plan is to give each department

commander all the troops that can be successfully operated and which will insure sufficient garrison for all points aken. Protection to the peaceabl

Rumors are current regarding the result of the Cabinet council all profess ing to be based on good sources. But, these are vague and contradictory. One news agency announces that immediate and decisive action had not been decided upon

Later in the day various rumors were still current regarding the Cabinet meet ing, but the following, which the Pall Mall Gazette publishes is believed to be correct:

"The comparatively short duration of the council warrants the conclusion that nothing of supreme importance was decided at it and such we believe to be the fact.

"Information in our possession is to the effect that it was an interim Cabinet summoned to consider an interim dispatch. It is believed that this paper which met with the unanimous approbe published as soon as received by the Boer, Government on Monday or at the latest on Tuesday.

According to the Pall Mall Gazette the dispatch open's with an expression of regret at the unfavorable character of Secretary Reitz's latest reply and proceeds with a very firm insistance upon the repudiation of the claim of the Transvaal to the status of a sov ereign State, once more pointing out British readiness to settle at once the nature of the proposed arbitration tribunal, provided the other British conditions are promptly and unreservedly ac-cepted and concluding with the intimation that the Imperial Government is now engaged in drawing up its own terms and that the Transvaal may exhear from them very shortly. pect to

The Pall Mall Gazette says that another meeting of the Cabinet will take place next Thursday or Friday, when the issues will be presented in a more serious shape. The United States Ambassador, Mr.

Joseph H. Choate, visited the Foreign Office today. It is understood that his visit was in relation to the Alaskan negotiations. In an interview with a reporter of the Associated Press Mr. Chamberlain said:

"Of course Lord Salisbury did not discuss the Transvaal crisis with me I can say that the United States has made no representations of any kind regarding the Transvaal and the same applies so far as I know to Germany I hope there will be no war, but things are quite uncertain."

The Government, it is understood cabled Sir Alfred Milner, British High Commissioner for South Africa yester 'day afternoon (Friday) a message in accordance with the Cabinet's decision, as outlined in the Pall Mall Gazette and already cabled to the Associated Press. It is said that the message provests strongly against the allegation of bad faith on the part of Mr. Conyngham Greene.

In the meantime no active steps will patch of a large army under General Sir three straight.

GILMORE TREATED BADLY.

Failure to Ransom Him Said to Have Enraged the Natives.

Boston, Sept. 22.—A naval officer on one of the ships at Cavite, says in a private letter written to relatives here, under date of August 19th:

"I today made a trip to Manila pur posely to see and interview a Spaniard who claims to have seen Lieutenand Gilmore and his men. The Spaniard arrived in Manila on the 12th, coming through the outposts at San Fernando de la Pampanga. His name is Felipa Galza and he is a planter by occupation. On the first of February last he was on his plantation when he was sur rounded by a deputation of natives who made him a prisoner. He was forced to follow the movements made by the so-called Filipino Republic and tram through mud and water and over moun tains, in their wanderings. Two week before the arrival at Manila he saw a Bigan Lieutenant Commander Gilmor and his fourteen fellow prisoners. From his report it is judged that they have fared badly at the hands of their cap tors, and, although their courage was undaunted, they were in bad shape phy sically, in reality, being half starved Gilmore himself, he said, was in better health than some of the others, being a man of strong physique and strong determination. The whole party was entinely destitute of clothes and all the necessities of life. The failure of the United States to ransom them a expected had so enraged the insurgents that their treatment, which for some time had been most kind, had since be come the reverse. The members of the party, however, were not discourage and fully expected to return to their friends. Galza thought that with proper measures employed by the United States Government there would be no trouble in effecting the speedy release of Gilmore and the Yorktown's men."
