Petroleum, Iron, Steel Move to Higher Levels.

BEEF CAITLE ARE SCARCE

THE SUGAR WAR PROCEEDS WITH VIGOR.

AND THE PRICES ARE DEMORALIZED

Most Manufacturing Lines Make Good Reports. Wool is Higher in London and S ronger Here. Lumber and Coal Show up Well.

New York, Sept. 2.-Bradstreet's tomorrow wil say:

Satisfactory trade and price conditions apparently still reign. So few, in fact, are the reports of poor trade that favorable reports may be said to be almost unanimous. An expanded vocume of fall trade is indicated by the aggregate of bank clearings for the week, though reports from some markets point to the greatest rush being over. Prices as a rule maintain all their former strength, decreases being few and relatively unimportant. In several lines, notably cereals, cotton, petroleum, iron and steel, the tendency has been toward higher levels. Cotton has been notably strong and active. Short crop estimates yields have been practically discarded, more especially as it is claimed that agents of English spinners are heavy buyers at the South, and domestic manufacturing conditions are known to be in a high degree favorable.

Steady demand for export and confidence in all of this year's wheat crop being needed have proved stimulating in the face of heavy receipts and admittedly large present supplies. Possibility of war in the Transvaal, too, have been additionally strengthening features. Iron and steel are higher on a moderate volume of new business and the steady placing of orders indicates confidence in present values well on into the middle of next year. Pig iron, however, is nearer a parity with con-sumption, the ultimate effects of enhancing quotations upon demand is not yet settled and imports from abroad, while not likely to be of heavy volume immediately, are a feature which may have to be dealt with next year. The scarcity of beef cattle is reflected in still higher prices, and strength is shown in domestic hides, which also feel the impetus of steady demand from manufacturers of leather. No signs of abatement in the sugar war are to be seen, price cutting is active and prices are demoralized. Other groceries, however, are firm, as are most other lines, with the exception of cheese and tin, which note some easing in price from their recent advance. Most lines of manufacturing return strikingly good reports, notably in this respect being cotton and woolen goods. Complaints of backward delivin woolen goods a number of mills report | comes late. their order books filled for spring de-The coal trade reflects weather and trade conditions in still further improved which they call mercy." demand, and predictions are of further demand, and predictions are of further advances later in the season. Demand Government trembled before the arrofor lumber, though interfering with by strikes at a number of markets, is revery strong, and scarcity of cars and of boats is reported quite generally in the west. This scarcity of transportation, however, is not limited to the lumber trade, similar reports coming from the coal and iron industries.

Wheat, including flour, shipments for the week aggregate 4,630,765 bushels, against 4,536,552 bushels last week, 5,-224,927 bushels in the corresponding week of 1898, 5,708,825 bushels in 1897;

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that

they are mother and daughter, and you realize that a woman at forty or fortyfive ought to be at her finest and fairest.

Why isn't it so?
The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no rich cheek and round form where there are debilitating drains, and female weakness. Women who have suffered from these troubles have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of wom-anhood. It clears the complexion, bright-ens the eyes and reddens the cheeks.

No alcohol, opium or other narcotic is contained in "Favorite Prescription." Any sick woman may consult Doctor Pierce by letter, free. Every letter is held as sacredly confidential, and an-

swered in a plain envelope. Address Dr. R. V. Pierce, Buffalo, N. Y. "I commenced to take Dr. Pierce's Favorite Prescription," writes Mrs. Martha 12. Barham, of Newville, Prince George Co., Va., "in June, 1897, also his 'Golden Medical Discovery,' and I cannot express the benefit I have received from these medicines. I was suffering with what the doctors called chronic indigestion, torpid liver and vertigo. I also suffered with female weakness. The doctor did not do me any good, so I wrote to you for advice. When I commenced to use the medicines I weighed only 112 pounds, now I weigh 140 pounds."

Dr. Pierce's Pellets regulate the liver.

\$50,000 FOR DEWEY HOME FUND.

This is What the Committee Want-Subscriptions Close Next Week.

Washington, Sept. 22.-A final meeting of the Dewey National Home Fund Committee was held at the office of the Secretary of the Treasury today. An account of stock was taken and plans perfected for closing the subscriptions before the arrival in New York of Admiral Dewey. The committee, composed of Assistant Secretary of the Treasury Vanderlip, Assistant Postmaster Heath Assistant Secretary of the Navy Allen, Adjutant General Corbin and United States Treasurer Ellis H. Roberts, were all present. At the conclusion of the meeting the committee requested the Associated Press to publish the following: "The Dewey National Home Fund

Admiral Dewey has indicated to the committee a desire to make Washington his permanent home. Here as the ranking orticer of the United States Navy, he will spend the remainder of his life.

"The Admiral has indicated his grate ful appreciation of the intention of the American people to present him a home, and he will accept it with the spicit in which it will be given. The committee must close the subscriptions before the end of next week, before the arrival of Admiral Dewey, and will be pleased to receive and acknowledge by the issuing of a souvenir receipt any contributions. A home will be purchased with whatever funds the committee may have at the end of next week. The time is now so short that the committee suggests those who desire to make an immediate success of this work by making liberal contrroutions to indicate their wishes ty teregraph to Hon. Ellis H. COURT OPENS MONDAY.

The September Term of the Superior Court in this county for the trial of criminal cases will convene Monday next, his Honor Judge Moore presiding, The docket is extremely light. There are only 68 cases and considerably more than half of these are cases continued from the previous terms because the defendants could not be found or for them to pay costs. There are only about twentyfive cases for trial. None of these are capital offences and the most serious charge is house-breaking. Several little boys will be tried for larceny.
