demand. Activity in hardware is largely confined to holiday specialties, which are experiencing an active movement at most markets. The feature of the coal trade

London prices have again moved higher, and the small available supply of fine grades supports the belief that prices may still move upward. The granting of a 10 per cent advance at nearly all the farge cotton mills throughout New ringland, on the basis of census figures, would point to an increasing purchasing power being secured by nearly 100,000 people. "The coffee trade of the country, but particularly in New York, has been agitated and speculative prices have been influenced by the delays growing out of the unsettled situation of the quarantined cargoes from Santos. More seasonable weather conditions have further stimulated the demand for boots and shoes at numerous points, and hides and leather retain all the strength gained as a result of last month's general rise. Notwithstanding advanced stage of the season, lumber. hard wood particularly contin-ues in active demand at most markets. "Wheat, including flour shipments for the week aggregate 5.133.331 bushels, against 3,699,400 bushels last week, 6,-868,952 bushels in the corresponding week of 1898; 6,266,159 bushels in 1897; 4,-222,714 bushels in 1896, and 2,458,323 bushels in 1895. Since July 1st this season the exports of wheat aggregate 94. 301,227 bushels, against 103,370,994 bushels last year and 114,204,798 bushels in 1897-'98. "Corn exports for the week aggregate 3,813,699 bushels, against 4,41,514 bush-ēls last week, 4,388,535 bushels in this week a year ago, 3,125.554 bushels in 1897: 3,511,288 bushels in 1896 and 4,-391,184 bushels in 1895. Since July 1st this season corn exports aggregate 100,-483,701 bushels, against 69,935,285 bushels during the same period a year ago and 67,251,505 bushels in 1897-'98.

The amount brought into sight during the past seven days has been 380,053 bales, against 498,596 bales for the seven days ending this date last year and for the eight days of December it has been 409,586 bales; these make the total movement for the ninety days from September 1st to date 4.920,507 bales, against

6,180,168 bales last year. The movement since September 1st shows receipts at all United States ports 3.294.294 bales, against 4,724.611 bales last year; overland across the Mississippi, Ohio and Potomac Rivers to Northern and Canada 660,889 bales, against 477.904 bales last year; interior stock in excess of those held at the close of the commercial year 509,439 bases, against 560,968 bales last year; Southern mill takings 436,285 bales, against 416,685

bales last year. for the week have

in New York yesterday elected W. A. Roberts, Pittsburg, Pa., president and the following members of the Executive Committee from the Southern States: W. H. Raymond, Nashville, Tenn.; C. A McHugh, Roanoke, Va.; W. H. Hender-son, Atlanta, Ga.; C. E. Beach, Colum-bus, Ga.; A. S. Hatch, Augusta, Ga.

Charles M. Harper, a popular and in fluential real estate agent of Pinner's Point, a suburb of Portsmouth, yesterday hot and killed David Ross, of Norfolk Ross entered Harper's office, cursed and advanced, while the latter retreated to the rear wall, where he fired. Harper surrendered to Justice Rustic, who bailed him in a small sum for preliminary trial today.

A SURE CURE FOR CROUP. Twenty-Five Years' Constant Use

all things but God did not make the world that its physical life should exist, merely to furnish food for the beast or bread for man. It isn't put up that way. In the mediaeval world the theory was

1. God created man that He might

God made the universe for this.
 The church is here for this work.

back to the scrub stock. This was con

educate him.

that man should cut himself off from the world and shut himself in a monasfrom tery-getting away from the material environment. We haven't altogether gotten rid of that conception. You are not to despise what to eat and what to wear. You must consider them, but there are restrictions too and we must not be intemperate in their use.

The college with its currrulum repre sents nothing but the thought of God in the material universe. The physics and metaphysics in your colleges comes from the unavoidable contact with the material substance of the world that is about it. We must abide at the foot-stool of the God of the universe. The man makes a crop and man is God's crop. The effort of man to transform the crude product into the perfect tool has given to the man patience, steadfastness and perseverance. The farmer waits to gar-ner his crop patiently; God waits until the man has grown ready to be garnered for the skies.

It cost God more to make the little viobuild the battleship Maine, the cause of a war. God does it because it makes an impression on the spirit that abides, because there is a power in the violet that educates and builds up character.

here and made the surroundings, not to give man sustenance as their end and scope, but education. His design was for us to stay here till our development makes us better.

God put the church here to save sinmission, and yet only one man in eight has heard of Christ. This shows that the towns, 772.316; stock at all interior church has not known how to reach the world. Our growth has been of going forward and slipping back. Why? Because we have forgotten the equal duty of education. We have drawn men together without making human beings akin in spirit and in education. 'The 373,000. church is to bring educative forces to bear on the human mind and to train the thinking power of man. One of the best ways to grow in grace is to grow in knowledge.

The object of the human home is that as the child learns to walk he learns righteousness. The church is designed to take up that life till it reaches such perfection as is possible in this world. The indwelling of the Spirit of God is

not to interfere with man's common sense. The highest honor man can pay to God is to use his best judgment. Christ said: "Go into all the world," giving no cut and dried forms, leaving it to His followers to use a presbytery, episcopacy, itineracy or what not to advance His Kingdom. God wants men to act as His friends. The greatest thing God ever made was a human judg-ment and a human will. Like a tree a man has his own life principle in Him.

PREVENTED A TRAGEDY.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors, but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c. and \$100. Every bottle guaranteed. Trial bottles at all drug stores.

Tarvin Gibes Bradley.

Frankfort, Ky., Dec. 8.-Governor Bradley tonight gave out his first public utterance on the burning of the negro Dick Coleman, at Maysville. This came in reply to an interview by Judge James P. Tarvin, of Covington, criticising the State authorities and holding them responsible for the Maysville mob. The Governor this afternoon wired Tarvin asking him if he had been correctly re

ported and received the following reply: "The penalty given Coleman may be considered just but the failure of the State authorities to protect him after we was in custody is wrong, and any citizen has a right to criticise it. The fact that he was a negro, hardly above a brute, is only the more reason for protecting him. choice of weapons and choose cannon,

you to stay at Frankfort and I at Covington. saying: "As Governor, I have done everything

enforce the law. If I had known, as Judge Tarvin knew, that this man was Judge Tarvin knew, that this man about to be taken to his death at the hands of a mob I would not have kept in glonge as he did, but would We do not cldaim to be the cheapest we do not cldaim to be the cheapest

have protected him. Ever since Judge Tarvin was seized with the insane thought that he was Vice-Presidential timber. his friends have kept constant watch on him. This last effusion is addi-tional evidence that he is irresponsible."

The Total Bank Clearing.

New York, Dec. 8.—The total bank clearings in the United States for the week were \$1,955,785,964; per cent increase, 19.9. Exclusive of New York, \$746,049,161; per cent increase, 21.7.

For Asthma use CHENEY'S EXPECTORANT.

P. A. Danforth, of LaGrange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve writes that Bucklen's Arnica Salve wholly cured it in ten days. For ulWithout a Failure.

The first indication of croup is hoarse ness, and in a child subject to that dis ease it may be taken as a sure sign of the approach of an attack. Following have increased during the week 98,003 this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in

many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record-twenty-five years' constant use without a failure.
