WORK ON THE INDIAN BILL.

Assault on the Practice of Educating Indians in Eastern Schools (By the Associated Press.)

Washington, Feb. 20,-The House spent the day working on the Indian Appropria-tion Bill. Forty-two of the sixty-two ages were disposed of. Several amendments were adopted, none however of much moment. The appropriation for preliminary work on the reservoir for the Gila River Valley went out on a point of order, Mr. Smith (Ariz.), offered an amendment to strike out the appropriation for the Carlisle School and it became the text for a general onslaught upon the practice of educating Indians in Eastern schools. But the amendment was

defeated. Just before the close of the ession Mr. Fitzgerald (N. Y.), made an attack upon the superintendent of the school at Mt. Pleasant, Mich., who he said, was charged with permitting the debauching of Indian girls. Mr. Sherman, chairman of the Indian committee, promised to make an investigation at the Indian Office tomorrow.

Merger of Mills and Carolina and Northern Roads.

Via Fayetteville and Lumberton.

There is a probability of a merger of the Ralcigh and Cape Fear Railroad, now running from Raleigh to Fuquay Springs, with the Carolina and Northern now runring from Marion, S. C., to Lumbertonor if not a merger, an extension of each

to form a connection. Yesterday there was a conference here between Mr. J. A. Mills, president of the Raleigh and Cape Fear, and Mr. E. K. Proctor, Jr., representing the Carolina and Northern. None of the parties desired to talk for publication. It may be that these, roads will not merge or have any connection, but it looks like it will work out this way:

Mr. Mills has recently arranged to place bonds to extend his road further South. It it believed that he is going to Fayetteville via Lillington, though it is probable that he has not himself yet determined upon the destination. One thing is determined on: a Southern extension The Carolina and Northern are getting ready to extend their road Northward and the Manufacturer's Record says that tney will build north to Fayetteville and southeast to Charleston. What more natural than that they should build north to Fayetteville as Mr. Mills builds south to Fayetteville, making traffic arrangements, if there is no closer alliance? The Carolina and Northern is also planning to extend their road from Marion, S. C. to Charleston, S. C. If they do this, and Mr. Mills builds to Fayetteville, there is a direct line from Charleston to Raleigh -a consummation to be devoutly wished.
