Chalmette Was Used For the Shipment of But One Class of Military Supplies, Says the Report by Colonel

Crowder.

(By the Associated Press.) Washington, June 5 .- The President today sent to the House the report of Colonel Crowder, who made the investiof Louisiana, that the neutrality lays were being violated at Chalmette, La. The message of transmittal is purely formal. It encloses a copy of a letter written by the President's direction to Governor Heard, dated June 3rd, which sums up the main facts as found by Colonel Crowder and also gives the rules on international usage respecting the sale of goods to parties at war. Mr. Hay says he found the point in the charges submitted by Mr. Pearson and by the Boor legislative committee of Philadelphia was that the British authorities had enlisted men in this country for service in South Africa. The government made particular efforts to find out if there was any basis for this charge, but Mr. Hay says that Colonel Crowder's report shows that not a single instance could be discovered by him. (By the Associated Press.) Chicago, June 5.-Five hundred teamters assembled at Corcoran Hall, near the stock yards at noon, ratified unanimously the agreement made between their representatives and the packers at four o'clock this morning. The document was signed by Albert Young, president of the National Teamsters' Union, and by John Myer, president of the local union. It was then asked by President Job, of the State Arbitration Board, to the several packers for their signatures. The utmost harmony prevailed, the occasion assuming the character of a jollification over the settlement of the strike. The men decided

to return to work tomorrow morning. The agreement is a partial victory for he teamsters, in that the packers have declared that they will not discriminate against members of the union. The scale agreed upon is two cents lower than in that demanded by the men. It is as fol-

The agreement was read to them and vas greeted with cheers. The concess sions made to the paoiers were explained and the explanation was applauded.
